

# The Salt of the Earth.

## WHAT SALT WILL DO.

Salt renovates grass lands, sweetens the brage, and prevents mustiness in the stables. Salt moistens dry soil. Salt purifies the stables, benefits horses, improves their coats, and keeps them in good health. Salt improves the crops, makes the grain plumper, the straw stiffer and whiter, ripens the crop earlier. Salt prevents potato disease. Salt prevents rot in sheep. Salt increases the yield and improves the quality of milk. Salt will kill all insects. It is the best insecticide known. Invaluable for killing the army worm, wire worm, etc. Farmers cannot do without salt. Salt is a necessity for the farm as much as it is for human beings. The money spent on salt as a fertilizer is the best investment a farmer can make.

## REVERSIBLE CARS, FORK AND SLINGS

Have now become a Standard of Excellence with the Farmers of Canada and the United States. At the World's Fair, Chicago, 1893, the only Medal and Diploma given on Hay Carriers, Forks and Slings, was awarded to us on these implements.

Following is a copy of the Judges' Award:

**AWARD** "For open trip hook to receive the sling; automatic clutch, adjustable for size of road desired; ingenious design of stop-block, which enables perfect control of carriage; no springs required for locking car which has motion in all directions; compact form of fork which can be tripped in any position; the car is reversible and of double action; for novelty, ingenuity, and usefulness. Excellence of material and construction."
