

day of April, 1921, satisfactory credentials of his qualifications;

(c) Engineers who were practising previous to the late war and who were accepted for services in the forces of the British Empire, or any of its Allies, shall be entitled to all the rights and privileges conferred under Sub-section (b) of this Section;

(d) Any person who may hereafter come to the Province of British Columbia, and who shall produce to the Council a satisfactory certificate, signed by the proper officers, evidencing the fact that he is a duly registered member in good standing of an Association of Engineers in another Province in the Dominion of Canada, having equivalent standards of qualification for membership to this Association, together with an application for registration in this Association endorsed by the Registrar of such other Association, may become a duly Registered Member of the Association without the payment of the annual fee for the year in which he joins, but shall pay a fee of five dollars for such registration;

(e) Any person not otherwise qualified as hereinbefore mentioned, before being admitted as a Registered Member of the Association shall make application to the Council, and shall produce credentials satisfactory to the Council, or in lieu thereof pass the prescribed examination, and shall pay the prescribed fees;

(f) Notwithstanding anything to the contrary in this Act, any person may practise without being licensed in the Province of British Columbia, for the sole purpose of examining, consulting on, advising on or reporting on properties and works in the said Province; and such person may, without being licensed, superintend operations directly connected therewith, provided, however, that such privilege of superintendence shall not be construed as entitling such person to hold himself out as, or to generally practise as a Professional Engineer;

(g) Any person who is employed as an Engineer by a public service corporation, a public utilities or government department, whose business is normally carried on in two or more of the Provinces of Canada, and who is, by reason of his employment, required to practise as an Engineer in other Provinces than that of his residence, may so practise in the Province of British Columbia without being registered or licensed, or payment of fee;

(h) Any person who is a resident of some other Province of Canada in which there is no Association of Engineers similarly constituted to the Association, may obtain a license to practise, subject to the discretion of the Council, upon producing satisfactory evidence of his qualifications, and upon payment of the prescribed fees;

(i) Any person acting as an assistant to a Professional Engineer where such person is directly responsible for the technical quality of work as set forth in Section 2, Sub-section (b) hereof, must be a Professional Engineer. Any person may otherwise act as an assistant to a Professional Engineer, and shall not be deemed to be practising Professional Engineering when so engaged;

(j) The provisions of this Act shall not apply to any member of His Majesty's Naval, Military or Aerial Forces while actually employed on duty with such Force.

#### Partnership

8. In the case of two or more persons carrying on the practice of Professional Engineering in co-partnership, only such members as are registered or licensed under this Act shall individually assume the functions of a Professional Engineer. A firm as such cannot be deemed to be a Member of the Association or be licensed to practise.

#### Council

9. (a) The powers conferred on the Association shall be exercised by an Executive Council, which shall consist of a President, Vice-President, and nine Councillors, to be chosen from Registered Members of the Association, and who shall hold office as hereinafter provided;

(b) The President shall be elected annually by the Association, and shall hold office until his successor is elected. He shall act as Presiding Officer at the meetings of the

Council and of the Association, voting only when votes are evenly divided;

(c) The Vice-President shall be elected annually by the Association, and shall have all the powers of the President during the absence of the latter;

(d) The last past President shall be a member of the Council. Four Councillors shall be elected annually by a ballot vote; the four having the highest number of votes cast shall be declared duly elected, and four Councillors, one of whom must be a Member of the Faculty of Applied Science in the University of British Columbia, shall be appointed annually by the Lieutenant-Governor-in-Council;

(e) The "Registrar" and the "Secretary," the former of whom must be a Professional Engineer, shall be appointed by the Council within one month after its assumption of office;

(f) The same person may be appointed to the office of both Registrar and Secretary;

(g) The Secretary of the Association shall also be the Secretary of the Council;

(h) The Secretary of the Association shall, on his assumption of office, lodge in the hands of the President of the Council a bond for one thousand dollars in some bonding company satisfactory to the Council. All the expenses arising from the furnishing of such bond shall be borne by the Association;

(i) In case of the resignation or death of any member or members of the Council, the other members of the Council shall have power to fill all vacancies so caused until the time of the holding of the next annual meeting; provided the said annual meeting is not to be held within a period of three months after the occurrence of such vacancy or vacancies.

#### Examinations

10. (a) The Council shall appoint annually a Board of Examiners for each branch of Engineering as set out in Section 2, Sub-section (b), and shall fill the vacancies in the same as they occur;

(b) The duties of the Board shall be to examine all candidates for admission to membership by examination. As soon as possible, and not later than 21 days after the close of each examination, the members of the Board who shall have conducted such examination, shall make and file with the Secretary a certificate showing the results of such examination, whereupon the Council shall notify each candidate of the result of the examination and of their decision upon his application. The members of the Board shall also file with the Secretary the examination papers submitted to each and every candidate, together with the answers of the respective candidates thereto, and shall attach thereto a certified copy of their report, with the marks awarded to each candidate in each subject of such examination; and such documents shall remain on file in the office of the Registrar, and shall be open to inspection by any of the said candidates, or by any person duly authorized in writing on their behalf, during regular office hours for a period of at least six months following the examination.

11. (a) Regular examinations of candidates for registration or license shall be held at Vancouver, or such other place or places as the Council may direct, beginning on the last Monday in the months of February and November in every year, unless such Monday be a holiday, in which case they shall begin on the next ensuing day not being a holiday;

(b) Special examinations may be granted, provided the candidate or candidates for such special examination deposit in advance with the Registrar a sum sufficient to defray the expenses of such examination and the prescribed examination fees. Any balance remaining over shall be returned to such candidate or candidates;

(c) The scope of the examinations and the methods of procedure shall be prescribed by the Council, with special reference to the applicant's ability to design and supervise works which shall ensure the safety of life and property;

(d) The candidate shall submit to examination before the Board in one or more of the recognized branches of engineering, such branch or branches to be selected by the candidate;
