

we feel sure that after they read the paper for a time they will understand and appreciate its worth, and we shall have no difficulty in retaining them as subscribers. The greater number of subscribers we have the greater efforts we shall make to have our JOURNAL readable and interesting.

We have just made a very heavy purchase of note heads and envelopes, and in consequence of large buying we are able to get the price made to us very low. Here is an offer which we will make to our customers and the readers of the CANADIAN BEE JOURNAL for a short time: We will send per mail, post paid, 250 good large white envelopes with card printed in the corner, and 250 note heads with card and date line, all for the sum of \$1.00. There is nothing so nice and nothing which adds more to the looks of a person's correspondence than to have a nicely printed heading on the note paper and card on the corner of the envelope, and when this can be obtained for absolutely less than the price of the paper in the ordinary way, there should be a large sale. We have just sufficient for 400 packages of this description and we expect that we shall not be long in disposing of them.

We did not mention that the envelopes which we included in our offer of last week as above, were put up in neat little boxes holding just the number—250. They can be sent nicely by mail. We may say that the postage is ten cents, which we pay; so that taking the matter of postage into consideration, the cost of note heads and envelopes is really 90 cents.

We are prepared to buy any quantity of No. 2 Section Honey. Those having such for sale will kindly write us saying the quantity they have on hand and how much per pound they will require for it.

ONE POUND GLASS JARS, SCREW TOP.

We are just advised that these have been shipped from the glass works, and we expect them in a few days. To save breaking bulk as much as we can, we append below a table of the quantities in which the shipment is put up, with prices per barrel. In estimating the price we have calculated the same as for full gross lots, an allowance of 15c. being made per barrel.

NO. OF BARRELS	NO OF DOZEN	PRICE
Bal. of Shipment	9½	\$6.55
	9½	6.75

We have already found it necessary to duplicate our order for the above, and we expect the second shipment in every day. We can ship by return freight or express, however, yet, from our first lot. Aug. 13, 1887.

We have more bees than we want to put into winter quarters and we propose offering them at exceedingly low prices to dispose of them. A great number of our colonies are in the new combination hives, and we are prepared to sell good full colonies for delivery at the present time at \$6.00 per colony, in lots of 5, \$5.75, in lots of 10, \$5.50. There will be in each hive seven frames (the hive full) of brood and bees and whatever honey will be necessary for the trip and some over. In the regular Jones hives with six and seven frames of brood and bees (balance of 12 empty combs) at the same price per colony. F. O. B. cars at Beeton station; terms, cash with order. We are also prepared to sell a limited number of colonies to good marks on time with satisfactory security. We have too great a pressure in our supply business to permit of our extending our own aparies, and rather than let that portion of our business get behind we prefer to give it the preference.

We have just received from the manufacturers a large lot of cartons for holding the 4x4 section, something similar to the engraving. Our catalogue price at the present time is \$14 per thousand, but we have purchased these at a figure that will enable us to make them \$9 per thousand. \$1 per hundred and 13 cents per ten. When the comb honey labels A. and B. are used on them they make a handsome package for comb honey. The illustration shows you label A. None of them have tape handles, and we make the price \$1 per thousand less than if they had. A 3 cent stamp will secure you a sample by return mail.

Convention Notices.
