

Toronto Industrial Fair.

An unbroken record of successes in the past is the best possible guarantee that the Toronto Industrial Exhibition of 1895, which opens on the 2nd of September, will be a display of unrivalled attractiveness. Many improvements in the buildings and grounds have been made to further the convenience of exhibitors and the public, and with the return of an era of prosperity, the enterprise of the management will doubtless be rewarded by a thorough appreciation of the inducements offered. The volume of exhibits this season will be larger and more diversified than ever before, and special attractions of a brilliant and exciting character will be presented, including the novel military spectacle "The Relief of Lucknow," with gorgeous Oriental accessories and pyrotechnic effects on a scale of grandeur and variety hitherto unequalled. The system of cheap railway fares and special excursions from far and near enables all to visit the fair at trifling cost, and everyone should take advantage of the opportunity, as it embodies all that is best worth seeing and knowing in mechanical progress and scientific invention. All entries close on the 10th of August.

The long continued drought will prove a heavy drawback to the honey industry in this vicinity. Bees got little or nothing from clover and basswood.—Comber Herald.
