**A BRIDE'S CONFESSION**  
"Yes, dear, I am married now, and George and I are keeping house in the loveliest flat on 64th St. Well, yes, we did get married somewhat suddenly. My health, you know, had for some time been very delicate, and Dr. Heavy-fee told mamma that he feared I would follow poor, dear sister Belle, who died three years ago from a wasting disease. Dear George was almost crazy when mamma told him what the doctor said, and I nearly cried my eyes out, but one day I overheard that hateful Nelly Parker say to her mother, 'I think that George Blauvelt is just too lovely for any girl who when the girl he's engaged to dies, and they say she is dying of a galloping consumption, I'm going to step into her shoes and become Mrs. George Blauvelt; now just you wait and see.' This spring I noticed George seemed to be almost dead, and I thought that that deceitful hussy might get him after all nearly drove me crazy. One day I read the testimony of Lawyers Howe and I went to the wonderfully invigorating effect of DR. CAMPBELL'S ARSENIC WAFERS, and I resolved to try what they would do for me. I commenced their use on the 4th of July. George had just sailed for Europe on business for his firm. On Sept. 18 he returned. I called on him and used the Wafers, by that time again a well woman, and so enraptured was he with my healthy and robust appearance that he insisted we get married the very next day. I could not say him nay, and, as you will see by my card, I am now Mrs. George Blauvelt. Do call on me and let me introduce George to you; I am sure you will like him, he is so handsome, and as good as he is handsome. Good-by; be sure not to forget."

"The Shah found his harem in a state of disorder on his return to Persia."—N. Y. World, Oct. 12, 1889. Reason—Their supply of CAMPBELL'S WAFERS was exhausted!  
ILLUSTRATIVE of the desirability of a certain amount of Plumpness, rumour has it that the above distinguished Oriental Potentates make it a practice to which their wives regularly once a month, precedence in rank and imperial favour being accorded to the wife possessed of the greatest number of pounds avoirdupois.

**CATARRH.**

A New Home Treatment for the Cure of Catarrh, Catarrhal Deafness, and Hay Fever.

The microscope has proved that these diseases are contagious, and that they are due to the presence of living parasites in the lining membrane of the upper air passages and eustachian tubes. The eminent scientists—Tyndall, Huxley and Beale—endorse this, and these authorities cannot be disputed. The regular method of treating these diseases is to apply an irritant remedy weekly and even daily, thus keeping the delicate membrane in a constant state of irritation, accompanied by violent sneezing, allowing it no chance to heal, and as a natural consequence of such treatment not one permanent cure has ever been recorded. It is an absolute fact that these diseases cannot be cured by an application made oftener than once in two weeks, for the membrane must get a chance to heal before any application is repeated. It is now seven years since Mr. Dixon discovered the parasite in catarrh and formulated his new treatment, and since then his remedy has become a household word in every country where the English language is spoken. Cures effected by him seven years ago are cures still, there having been no return of the disease. So high are these remedies valued, and so great is the demand for them, that ignorant imitators have started up everywhere, pretending to destroy a parasite—of which they know nothing—by remedies the results of the application of which they are equally ignorant. Mr. Dixon's remedy is applied only once in two weeks, and from one to three applications effect a permanent cure in the most aggravated cases. N.B.—For catarrhal troubles peculiar to females this remedy is a specific. Mr. Dixon sends a pamphlet describing his new treatment on the receipt of ten cents in stamps. The address is A. H. Dixon & Son, 308 King Street West, Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefully read the above.

GLACED BEEF.—Set the beef that has been kept from the soup to glaze in a moderate oven for about an hour, taking care to baste the surface once in a while with the broth and some condensed beef bouillon. Drain on a dish, take off the fat, strain and reduce the liquid to the consistency of a demi-glace sauce, with a little more broth and two ladlefuls of tomato sauce. Put some mashed potatoes on a round platter, set the beef in the middle, pour some of the sauce over, and serve.

ALLEN'S Lung Balsam is warranted to cure the most distressing Cough.

SOUPE-DEROSE.—Put a little lard into a skillet and when smoking hot, pour in a half can of tomatoes, or sliced tomatoes, some slices of onions and enough boiled rice to thicken. Let all boil together till the onion is well done. Season with butter, salt and make hot with cayenne pepper. This is the Mexican method of cooking tomatoes and is very fine.

BE cheerful and happy at meals. "Cheerfulness suggests good health, a clear conscience and a soul at peace." Cheerfulness is the mother of good digestion.

For sauce, beat two eggs with half a cup of butter and a cup of sugar, add a cup of boiling milk and a cup of the juice of the fruit used in the pudding.  
Mrs. Joseph Baker, of Johnston, Vt., was greatly afflicted with phthisis for twenty years, and was pronounced by physicians as incurable. Two bottles of WISTAR'S BALSAM OF WILD CHERRY afforded her most relief, and five completely cured her.
