Wright's Genuine Health Underwear.

CONSTRUCTED on the hygienic principle of maintaining an equable temperature, whether the body is at rest or during exercise. The wool is woven to the outer fabric in tiny loops, thus providing inter-air-spaces. This method represents the scientific construction of a genuine health garment.

We were the originators of this process of manufacture.

Underwear*

This shows in a detail of our woven label trademark, which is woven on every garment of the famous WRIGHT'S HEALTH UNDERWEAR.
