"With regard to this application to the Society for Church books, perhaps it would favour our claim to state, that the books given to the Indian Church on the Mohawk River, nearly one hundred years ago, are still in existence (with the other division of the Mohawks on the Grand River in this Diocese), having been most carefully pre-served by the Indians in all their migrations and perils during the revolutionary struggle with the United States, "I have to apologise to the Society for having said, in

W. Brethour, in behalf of the labourers on the

Beauharnois Canal. "Both these applications I take the liberty of recom-mending to the favourable consideration of the Committee, being well satisfied of the reality of those wants which they represent, and of the happy effects likely to result, under the Divine blessing, from their becoming indebted to the Society for the desired supply.

"I am prompted also to bring under the notice of the Committee the cases of two or three out of the many are in want of health to carry them on from different stages of advancement to their completion. The church of Philipsburgh, or St. Armand West, in Mississippi Bay, was lately reduced almost to a ruin by the falling in of the steeple through the roof into the body of the building. This and the neighbouring church of St. Armand East, were among the earliest fruits of those indefatigable labours which the late Bishop Stewart entered upon in the wilderness (for such, both in a literal and spiritual sense, it then was), when he became engaged as a Missionary, nearly forty years ago, in the service of the Society for the Propagation of the Gospel. As the settlement now exists, the church is exceedingly ill-placed, and it will be replaced by a new one in the village of Philipsburgh. The congregation, however, have many adverse circumstances to contend with; and the inhabitants of the eastern part of the parish, from whom the new site will be farther than the old one, have put matters in train for establishing a separate church for themselves. In this I shall endeavour to assist them: but although it is quite desirable that two churches should be provided, the division of resources will make the undertaking in each case more difficult; and the people will hardly accomplish their object without more help, added to their own exertions and contributions, and those of friends in Montreal, than I can be likely to procure for them, unless I should be successful in the appeal which I am now making.

I have applied to the Society for the Propagation of the Gospel for a renewal of their bounty in this behalf; but although they should be enabled to make me a fresh grant for the Diocese, the share which I could allot to the churches here mentioned would leave them still (as well as but too many others) with a very distant prospect of being properly finished. Although the Savoy is a private chapel belonging to the crown, and maintained out of the Duchy of Lancaster, yet the present improvements and proposed decorations cannot be considered as designed for the personal comfort of the Sovereign, and the outlay now made manifests a most praiseworthy zeal for the honour of Gol's House, as well as a beneficent anxiety for the comfort of the parishioners, most of whom are tenants of the Crown.
