

"Old and Tried"

Glens Falls

Preparedness

Ever since 1849, the GLENS FALLS has been prepared for whatever might come to tax its resources, its spirit or its integrity.

Whatever befell, it steadfastly faced the situation and dared the future under the banner of Progress.

Today, while meeting every condition of the moment, the GLENS FALLS is prepared for whatever development may come from world expansion.

Conflagrations, crime waves and outbreaks due to industrial unrest, only serve to point more clearly to the superior quality of GLENS FALLS Service as offered in fire, marine, automobile, tornado, explosion, riot and civil commotion lines.

Just as the GLENS FALLS is always prepared to pay, so it also is always prepared to serve its policyholders and agents.
