

(b) The inspectors may monitor by either physical observation or devices:

- (i) the chemical weapons storage facility at the destruction facility and the chemical weapons present;
- (ii) the movement of chemical weapons from the storage to the facility;
- (iii) the process of destruction (assuring that no chemical weapons are diverted);
- (iv) the material balance (to be elaborated further), and
- (v) the accuracy and calibration of the instruments.

(c) To the extent consistent with verification needs, verification procedures should make use of information from routine facility operations.

(d) After the completion of each period of destruction, the Technical Secretariat shall certify the declaration of the National Authority, reporting the completion of destruction of the designated quantity of chemical weapons.

(e) International Inspectors shall, in accordance with agreements on subsidiary arrangements:

- have unimpeded access to all parts of the destruction facilities, including facilities' storages, any munitions, devices, bulk containers, or other containers therein. While conducting their activity, Inspectors shall comply with the safety regulations at the facility. The items to be inspected will be chosen by the Inspectors in accordance with the verification plan that has been agreed to by the State Party and approved by the Executive Council,
- bring with them and use such agreed instruments as may be necessary for the completion of their tasks,
- monitor the systematic on-site analysis of samples during the destruction process,
- receive, if necessary, samples taken at their request from any devices bulk containers and other containers at the facility. Such samples will be taken and analysed by representatives of the State Party in the presence of the Inspectors,
- communicate freely with the International Authority,
- if necessary, (to be discussed) transfer samples for analysis off-site at a laboratory designated by the International Authority, in accordance with agreed procedures,
- ensure, in accordance with procedures (to be developed), that samples transported, stored and processed are not tampered with,
- afford the opportunity to the host State Party to be present when samples are analysed,
