noted Carrying-place, made use of by the several Indian Tribes inhabiting that Part of the County, in their Passage to and from Canada, which separates the Head of the aforesaid River from that of the River Claudiere, which last falls into the great River St. Lawrence, at

four Miles and a half above the City of Quebe:.

And I have received further Intelligence that the French are fettled very thick for twelve Miles on each Side the faid River Claudiere, at about thirty Miles Distance above the Mouth of it, and in the Mid-way between the River St. Lawrence, and the before-mentioned Carrying-place. And the Captain of Richmond Fort, in his Letter, dated 23d of last January, informs me, that the Norridge-wock Indians had declared to him, "That they had given the new French Settlers upon the Carrying-place, Liberty to hunt any where in that Country, as a Recompence for the great Service they will be of to them in a Time of War with the English, by supplying them with Provisions and military Stores."

The same Officer sarther acquaints me, in another Letter dated Feb. 11, That several Indians of the Arressis. gunticook, and some of the Penobscott Tribe, amounting, together with the Norridge-wock Indians, to fixty effective Men, besides Boys capable of bearing Arms, were then lately arrived in the Neighbourhood of the Fort under his Command; and that the they affembled there under Pretence of writing a joint Letter to me, as they had done, yet he had Reason to expect, from their haughty infolent Behaviour, the repeated open Threats of some of them, and the private Warnings from others, that as foon as the Rivers should be free from Ice, they would commit Hostilities against the English upon that and the neighbouring Rivers; in which they intimate, they are to be affifted by a Number of French from Canada, difguifed like Indians. And in another Letter dated the 10th of March, he acquaints me, that the French Prieft, Missionary to the Indians of the River Kennebeck, appeared to him to be continually using Artifices to excite the Indians to prevent our Settlements from being extended higher up, to fet them at Variance with the English, and dispose them to a War with them this Spring.

Most of these Accounts are confirmed by the Declarations of the before-mentioned Letters at Frankfort, with
