MURDER SUSPECTED BY POLICE IN CASE OF TORONTO WOMAN FOUND DEAD IN HER BEDROOM

Theory That She Hanged Herself From Stove Pipe is Exploded by Investigations by The World—Body Was Standing Upright on the Bed.

The body of Mrs. C. Campbell lies in the city morgue on Lombard street awaiting the decision of the chief coroner, Dr. A. J. Johnson, as to whether an inquest will be held. As yet an inquiry into what was supposed to have been a plain case of suicide has not been ordered.

The woman's body was found in a room on the top floor of 194 Simcoe street yesterday noon. A piece of a bed sheet was tied around her neck and looped over a stove pipe, which ran across the room about one foot below the ceiling and about eight feet above the bed. Death was due to strangulation.

The detective department, it is understood, is now convinced that this was not self-inflicted, but that the man, who gave his name as Thompson when he accompanied by the woman, rented the room, committed the murder. Thompson is now missing and is being sought by the detectives. He is a tall man about 40 years old, dressed in a brown suit, has a dark complexion with a black mustache, and wore a black derby hat.

The pipe leading from the filtration bed to the tunnel shaft is not choked with sand, is not liable to burst, and there is no danger of a water famine. Yet an afternoon paper so reported.

There were a few extra men at the island to work on the valve that prevented the cleaning of the tunnel a short time ago. That was the basis of the unjustifiable alarm caused by the afternoon paper.

What exploded the theory that the woman committed suicide was the fact that she was not suspended from the stove pipe. Her feet were resting on the bed, which, it is believed, practically carried her entire weight. The body could not have been suspended above the bed, as the pipe would have parted under the weight.

Least night a World reporter visited the house. He found that there was not even a dinge on the pipe to show that there had been any influence of liquor. On closer inspection he found that the pipe began to give when very little pressure was placed on it. Mrs. Sharkey, the landlady, who discovered the body, said that the woman was practically standing on the bed, and it was simply impossible for her to have hanged herself from the stove pipe because of the fact that it would not have held her.

On account of these facts it is believed that the man named Thompson strangled her, placed the sheet around her neck and tied it to the pipe to conceal his crime and make it appear like a common case of suicide.

An occupant of a room immediately below the one where the body was found stated to The World that he heard considerable noise from above during the night. At one time he thought he heard gasping or coughing, which only lasted a few seconds, and previous to this something scraped the floor as tho the bedstead had been moved.

Thompson and the woman came to the Simcoe street house on Saturday morning and rented the room. The man seemed to be slightly under the influence of liquor. Both people left the house several times between that time and Sunday night. Thompson was heard leaving the room between six and seven Monday morning. He has not returned to the house, nor has he been seen by the police since the body was found.

It was discovered by letters in the woman's hand bag that her correct name was Mrs. C. Campbell. She had only been in Canada a few weeks, coming to Castleton, Ont., from Scotland. Three weeks ago she came to Toronto and was employed as a domestic in a house on Spadina road. She told her employer that she had six children in Scotland and that her husband had committed suicide some little time before she left that country.

JUMPED FROM CAR AND MAY NOT LIVE

William Sac, an Italian laborer of 109 Centre avenue, was probably fatally injured at 6 o'clock last night, when he fell from a street car at College and University avenue. The man, who is about 45 years of age, was coming home from work and jumped from the car before it came to a stop. He fell on his head and fractured his skull and one arm, and was badly bruised. He was rushed to Grace Hospital in a motor car, and has since been unconscious. Dr. J. M. Cotton stated at midnight that he would not recover.

NO DANGER OF WATER FAMINE

Didn't Talk of Resigning if Senate Passed Naval Bill—Inquiry Into Gen. Mackenzie's Retirement.

Eight Between Ages of Fifteen and Eighteen Were Sold to Highest Bidder.

OTTAWA, May 26.—(Special.)—The house spent a rather dull day in dealing with routine business, the interest of the members being largely centred on the proceedings of the senate. It was clear that the opposition is interested in the matter of finding out the reasons why Gen. MacKenzie tendered his resignation to Hon. Sam Hughes, and while no information was vouchsafed today, a request was made that all copies of correspondence bearing on the subject be brought before the house. Hon. Frank Oliver renewed his at-

ONE SOCK WAS BLACK 'OTHER WAS WHITE

Navy Secretary Daniels Wore Odd Hose at Public Dinner.

Special to The Toronto World. WASHINGTON, May 26.—Secretary of the Navy Josephus Daniels was wined (on grape juice) and dined last week at Washington, North Carolina, the place where he was born. On arrival there he had to hurry from the sleeping car about daybreak. Soon his audience noticed that one of his ankles was covered with a black sock and the other with a white one. In his haste to get off the train Mr. Daniels had slipped them on without noticing the colors and called forth.

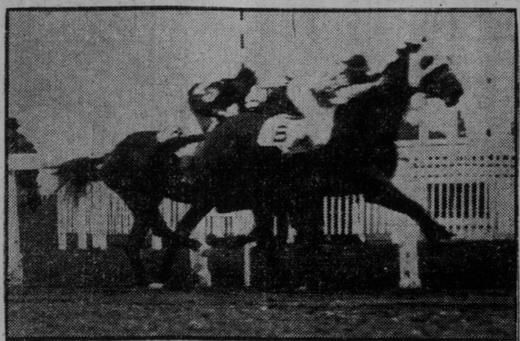

The newspapers in North Carolina are trying to ferret out the trouble. Black and white are the sign colors of the "Anti-hazing Society" of North Carolina and Mr. Daniels has declared himself against hazing. But at the navy department they say that Mr. Daniels, by wearing black and white socks was laying stress on his order to have seamen say "right" and "left," instead of "starboard" and "port."

While the car was rounding the corner of Spadina avenue and Harbour street, a sudden jolt threw Mr. Swift, who was standing, to the pavement. PRESIDENT HITS LOBBYISTS HARD

Attempt to Influence Tariff Legislation Rouses His Indignation—May Abolish Duty on Wheat.

WASHINGTON, May 26.—(Can. Press.)—President Wilson stirred congressional circles today with an emphatic statement denouncing the "industrious" and "astute" lobby in Washington attempting to create public assentment against features of the Underwood tariff bill. This was accepted at the capitol as referring to the unusual efforts being made against free raw wool and free sugar. While the president was declaring his opinion that the public should be relieved "from the intolerable burden" senators and representatives were viewing on every hand the evidence of the lobbyists who beset them and significance was attached to a statement made by Senator Sim-

TWO AVIATORS' NARROW ESCAPE

Biplane Took Fire When High in Air, But a Safe Landing Was Made.

SALISBURY, ENGL., May 26.—(Can. Press.)—Violating from a height of 1,200 feet in a blazing biplane, the British aviator, Colwyn Pizey, and a passenger, H. Fellows, reached the ground in safety this evening and sprung from the machine just as an explosion of the gasoline tank completely wrecked it. The aeroplane was in easy flight over the outskirts of the town when suddenly the carburettor took fire. Breaking the inlet valve, the aviator shut off the gasoline and started a steep climb. The rush of air fanned the flames, and to those who witnessed the incident it seemed as tho the men in the machine had but a slender chance for their lives. Tongues of flame swept under the passenger seat, and Fellows drew himself up and clinging to the struts while the aeroplane dove down in its swift descent.

Well-Known Toronto Banker and Military Man is Honored by Ottawa Government—Three Other Appointees Have Parliamentary Records—Means By-Election in South Bruce.

OTTAWA, May 26.—(Special.)—The four new senators from Ontario were announced by the prime minister this evening. They are James J. Donnelly, M.P. for South Bruce; Colonel Mason of Toronto; Alexander McCall, ex-M.P. for Norfolk and Mr. E. D. Smith, ex-M.P. for Wentworth. The two first named are Roman Catholics, and may be regarded as appointed in succession to Dr. Michael Sullivan of Kingston and the late Sir Richard Scott of Ottawa.

All the appointments will be credited to Western Ontario, thus evening up to some extent the senatorial representation between the east and the west. The other vacancies filled by today's appointments were caused by the demise of Senators McMullen and Campbell.

The new senators will be sworn in promptly and assume their seats in time to vote upon the second reading of the naval aid bill.

Col. James Mason, whose home is at 43 Queen's Park, Toronto, is a director and general manager of the Home Bank. He was born in Toronto 70 years ago, and was educated at the Model School. During the North-west Rebellion of 1885 he commanded a service company which distinguished itself at Fish Creek, and was severely wounded at Batoche. He assumed command of the regiment in 1888 and was second in command of the Canadian contingent to the Queen's Jubilee in 1897.
