

## PREFACE.

In presenting this, the first Brand Book published in the Canadian Northwest, we beg leave to state that great pains have been taken in its preparation.

Question sheets were sent to all asking for their Brands; we also procured a copy of the Recorded Brands, and Mr. L. G. Henderson made a thorough personal canvas through the Stock Districts.

Notwithstanding all this care some errors are liable to occur, and constant changes of ownership of Brands are taking place, and new Brands are constantly coming into force.

The publisher will be glad to have all errors and changes promptly reported to him, in order that our next edition may be as correct as possible.

We take this opportunity of thanking our many friends for their hospitality and liberal patronage, and hope that this book will prove of great value to, and meet the entire appropriation of, the ranchers of the Canadian Northwest, and be of service to the public generally.
