“The cause of the great amount of Foreign tonnage is two British steamboats run to and from this port to Canada constantly, during the season of navigation, one making two trips per week, and one, a good part of the time, two trips per day.

“The enrolled and licensed tonnage in the District of Buffalo, in 1846, consisted of—

Steam vessels.....	14,290
Sail do.	10,513

Total.....tons 24,803

“The number of arrivals, Foreign and coastwise, at the port of Buffalo, in 1846, were—

Steamboats.....	1310
Steam Propellers	200
Sloops and Schooners.....	2262
Sloops and other small craft.....	85

Total..... 2857

Forming a tonnage of 912,957 tons.

“The number of clearances have been about the same, probably more, as an unusual number of vessels wintered over in this port last year—making a total of 7,714, forming an aggregate tonnage of 1,825,914 tons, arriving at and departing from the port in the year 1846.”
