JOHN CATTO & SON
New Spring Goods
Any morning in, day after day, and
those who have seen our advance
display affirm that nothing finer was
ever shown in Toronto.

SUIT AND DRESS FABRICS
Would take up a whole chapter to
themselves, but we must be content
to say that all the latest novelties
are gathered in this splendid assem-
blage for spring wear.

NEW SILKS
Grand aggregation of all the most
fashionable silk weaves for every
purpose, all marked at prices con-
sistent with their high order of ex-
cellence.

FOULARD SILKS
The summer favorite at all times, are
represented in a fine range of double-
width makes.

COSTUME AND GOWN MAKING
These are produced by our skillful
modistes at a minimum of expense
and trouble and the maximum of
pleasurable satisfaction to our cus-
tomers. Do not defer placing orders
in the mistaken idea that later we
will have better stocks to select from.
The dress and suit ranges are just
now in the pink of condition. Now
is the time to book your orders so as
to avoid disappointment.

NEW CLOAKS
A representative lot of our new
Spring Cloaks are in, and more are
arriving daily.
To get the very best pick of the
model garments as well to come in
every couple of days so as to make
sure of seeing everything before it
is picked up.

MILLINERY
As usual our millinery productions
are in the very front rank for good
style, originality of conception and
moderation of price. Many long
experiments have been passed on our
current display and we are sure that
customers should see our models before buy-
ing.

WASH DRESSES
Also on display in a lot of very
fashionable designs and the cream of
this season's popular fabrics.

WASH FABRICS IN THE PIECE
Never had we a choicer display of
Wash Dress Materials than this sea-
son. Apart from the well-known
standard favorite makes, such as
"Buckingham," "Beverly," "Crescent,"
etc., there are so many modifications and by-
products of each that it is impossible
to realize the charm of many of these
dainty fabrics without seeing them.
Therefore, if in town, we will send samples
to call; if not, we will send samples
on request.

THE WEATHER
OBSERVATORY, TORONTO, March
20.—(9 a.m.)—The cold is centred in
northern Ontario and is spreading east-
ward over the Maritime provinces, where
a Northwest gale is blowing. There is
now a disturbance over the Mississippi
Valley, likely to cause a snowfall in
southern Ontario. The weather is be-
coming milder in the western provinces.

Woman Killed Three Children And Then Committed Suicide

Continued From Page 1.

little children, but it was futile, and
then he ran frantically to the street
and sought Dr. Bryans of Carlton-st.
and sought a second to inform the
physician that the case was a hope-
less one. Life had been extinct sev-
eral hours before and the bodies were
collected in death.

The police were soon in the house.
Inspector Gregory, Detective Leavitt,
Plainsclothesman Allen and Police-
man Scott searched the house and consid-
ered the case one of triple murder,
followed by suicide. The bodies were
left in the bed where they had been
discovered overnight, awaiting to be
removed to the morgue.

Lying beneath the "blind" gas tube,
which projected a few inches from the
wall of the bedroom, was found a mon-
ster which the deceased woman had
used to loosen the cap. This
sufficiently to allow the fumes to es-
cape. The woman was lying on the
edge of the bed, while the little ones,
hair matted in death, and the flaxen
almost locked in each other's arms,
clung to wall. The woman was armed
with an ordinary house wrapper and the
babies her first boy's sock.

Coroner Dr. Fred Winnett took
charge of the tragedy for the law. He
viewed the four bodies and then ques-
tioned James Orr, the husband and
father. Sitting in the kitchen, broken
by the blow, Orr, with his face in his
hands, answered the questions of Dr.
Winnett.

"I can't understand it—I don't know,"
he replied repeatedly between sobs. He
said his wife was in usual good
health when he left in the morning for
his place of work. She had tried to end
her life by the same method by which
she succeeded this time, about two
years ago, in the same house, but he
saved her. She had explained then that
the children must have tampered with
the gas fixtures because she didn't have
any intention of doing away with her-
self.

"Grandma and Emily were on the
best of terms," said he. "Of course,
they had their squabbles, but nothing
worth speaking of. Grandma knew my
mother and should be a government
of all the people by a representative
part of the people. This is an excel-
lent and moderate description of an oligar-
chy. It defines our government as a
government of all the people by a
few of the people."

Defeating People's Will.
Some of the colonel's observations
were "It is a small minority that is to-day
using our contentment system to defeat
the will of a majority of the people in
the choice of delegates to the Chicago
convention."
"If my critics would only show the
same sober judgment of which they de-
clined to explain to Fitzgibbon the way
the shareholders' notes had been dealt
with. At that time he did not know
that the notes were for \$100,000, but
thought that they were partly made up
of described stock. He was not aware
of the true transaction and did not
know how much was note and what
part was specific subscription."

Did Not Know.
"And do you really mean to say as
colleagues for the guarantee company
that—"
"I am not solicitor for the guarantee
company," denied Mr. Hunter.
"You a solicitor, did not know the
true situation," enquired Mr. Hodgins
in an astonished voice.
"I did not."

"Then you must have been in a haze,"
declared the crown counsel. "Did you
know that the notes had been individu-
ally discounted and specific sum
given."
"Then how did you know what to tell
Fitzgibbon?" Hunter said that all he
knew was what Travers had told him.
He thought it was legal to do what
Travers had done in making out the
certificates.
Mr. Hodgins read the act respecting
the organizing of banks, and asked
Hunter if he still interpreted the act
in the same way, and the reply was in
the affirmative. As far as his knowl-
edge went into the preparation for the
declaration, Mr. Hunter had believed
that everything was legal.

ROOSEVELT OPENS CAMPAIGN BRANDS TAFT "REACTIONARY"
Colonel Doesn't Mince His Language But Plainly Dubs
President a Foe of Popular Government—Can't
Regard Public as an Unruly Maniac.

NEW YORK, March 20.—(Special.)—
Col. Theodore Roosevelt, at the Car-
negie Institute to-night, formally opened
his campaign for the presidency with a
brilliant and powerful address, in which
Mr. Taft was scored by name as a re-
nouncing the recall of decisions was
flayed without mercy. The president
was denounced as a foe of popular gov-
ernment, "sitting with the scorners on
the seats of reaction," and regarding
the public as an unruly maniac who
could only be restrained from self-
jury by a constitutional straight-jacket.

UP TO MANITOBA NEW OF SENATE
OTTAWA, March 20.—(Can Press.)—
The senate spent most of the session
to-day discussing the school question,
which has been brought up by the
Manitoba boundary bill.
The debate on the Manitoba bill was
renewed by Senator Belcourt. At pre-
sent the people in the territory of Ke-
ewatin were under the jurisdiction of
the Dominion Parliament, he said, and
transferred them to the jurisdiction of
Manitoba, it was the duty of parlia-
ment to see that their rights were safe-
guarded. The union of Keewatin and
Manitoba was a bargain, and if the
people of Manitoba and the people of

LOST CONTROL OF HIS TEMPER
Once there was a man whose liver
was not working right. When drinking
in the morning he had trouble with his
collar. Then he lost the collar button.
Then he said something.
By the time he got to breakfast he
was so irritated that he had no ap-
petite and quarreled with his wife. He
went to the office with a headache and
when he had some important business
to transact he bungled it.
When you find yourself easily irri-
tated and less control of yourself and your
temper, look to the condition of the
liver, and take one of Dr. Chase's Kid-
ney-Liver Pills at bedtime.
The dark-brown taste will not bother
you in the mornings, the tongue will
clear up, digestion will improve and
you will not have the tired, worn-out
feelings which accompany a sluggish
condition of the liver.
