

'FIGHT TO THE DEATH,' GEN. CURRIE'S APPEAL

General Commanding Issues a
Stirring Message to Cana-
dian Army.

NO GIVING WAY

"Advance or Fall Where You
Stand, Facing the
Enemy."

Ottawa, April 19.—In anticipation of a tremendous assault against the Canadian lines, Gen. Currie, K.C.M.G., commanding Canadian Corps, issued a special order on March 27, which has been widely distributed, and in which he stated that the Canadian Army was to fight to the death.

A copy of the order has been received by an Ottawa woman from a relative overseas. It reads as follows:

"In an endeavor to reach an immediate decision the enemy has gathered all his forces and struck a mighty blow at the British army. Overwhelmed by the weight of numbers the British divisions in the line between the Scarpe and the Oise have fallen back fighting hard, steady and undismayed. Measures have been taken successfully to meet the German onslaught. The French have gathered a powerful army commanded by a most able and trusted leader and this army is now moving swiftly to our help. Fresh British divisions are being thrown in. The Canadian machine gun brigade has already played a most gallant part and once again covered itself with glory.

"Looking back with pride on the unbroken record of your glorious achievements, asking you to realize that today the fate of the British Empire hangs in the balance, I place my trust in the Canadian corps, knowing that where Canadians are engaged, there can be no giving way.

"Under the orders of your devoted and revered leader, I place my trust in the coming battle, you will advance or fall where you stand facing the enemy.

"To those who fall I say: 'You will not die, but step into immortality. Your mothers will not lament your fate, but will be proud to have borne such sons. Your names will be revered forever by your grateful country and God will take you unto himself.'

"Canadians, in this fateful hour, I command you and I trust you to fight as you have ever fought, with all your strength, with all your determination, with all your valour and courage. I place a heavy burden of battle upon you, but I know you will overcome this enemy, and with God's help you shall achieve victory once more.

(Signed) A. W. Currie,
"Lieut.-General,
"Commanding Canadian Corps."

SINN FEINER ELECTED FOR SEAT IN IRELAND

London, April 19.—Dr. Thomas McCarty has been elected without opposition to the house of commons, for the Tipperary division of King's County, Ireland. He is a Sinn Fein member, and was elected on the platform of last fall and brought to New York, to be arraigned on the charge of having obtained an American passport fraudulently.

Dr. McCarty was arrested at Halifax last fall and brought to New York, to be arraigned on the charge of having obtained an American passport fraudulently.

London, April 19.—On the Canadian front the Turks in their invasion of former Russian territory, are approaching the City of Kars, says an official statement issued in Constantinople on Wednesday.

Overwork Paralysis

Doctor Said His Case Was
Hopeless—Could Not Walk
or Write—Speech Almost
Gone—How Cure Was
Effected.

St. Ann's, Ont., April 19.—Paralysis has more easily prevented than cured. For this reason it is only wise to be warned by sleeplessness, headache, nervous indigestion and neuralgic pains, and begin reconstruction treatment before the nervous system becomes too far depleted.

This letter from Mr. Hyatt is quoted to prove to you that Dr. Chase's Nerve Food is effective even after paralysis has set in. It is not advisable, however, to neglect nervous disorders until such conditions are developed.

OFFICIALS DISSATISFIED WITH RECORD OF LOAN

Washington, April 19.—The third Liberty loan campaign, which will be half over tomorrow, and indications are that half of the \$2,000,000,000 minimum total will be subscribed. This record is also better than that of the first or second loans, does not satisfy treasury officials entirely, because they actually are aiming at a \$2,000,000,000 loan.

The total reported tonight to headquarters here was \$1,204,714,250.

President Wilson participated in an impromptu Liberty loan demonstration today in a British battle tank by riding thru the White House grounds in the great machine. He burned his hand severely on an exhaust pipe while trying to climb out on top in the presence of a great throng at the front gates.

President Wilson participated in an impromptu Liberty loan demonstration today in a British battle tank by riding thru the White House grounds in the great machine. He burned his hand severely on an exhaust pipe while trying to climb out on top in the presence of a great throng at the front gates.

IMPORTANT POINTS TAKEN BY FRENCH

Brilliant Attack Along Five-
Mile Front Gives Enemy
Setback.

Charge in Deep Fog
Ground Captured Has Been
Scene of Dozen Fierce
Encounters.

With the French Army in France, April 19.—A brilliant attack by the French, begun at dawn, along a five-mile front, extending between Thennes and Mullery, resulted in sharp setbacks for the enemy, together with the capture of several hundred Germans and the seizure of a number of important points within the enemy had occupied, from whence he probably intended to make another forward thrust.

This ground has been the scene of nearly a dozen fierce encounters since April 4. The Germans have thrown at least 15 divisions into the fray at different periods in an obstinate effort to reach their objectives.

Before the French went over the top the Germans evidently saw that an action was brewing. They sent over the wire orders to their divisions to be ready in the coming battle, you will advance or fall where you stand facing the enemy.

"To those who fall I say: 'You will not die, but step into immortality. Your mothers will not lament your fate, but will be proud to have borne such sons. Your names will be revered forever by your grateful country and God will take you unto himself.'

"Canadians, in this fateful hour, I command you and I trust you to fight as you have ever fought, with all your strength, with all your determination, with all your valour and courage. I place a heavy burden of battle upon you, but I know you will overcome this enemy, and with God's help you shall achieve victory once more.

NEUTRALS OFFERED CAPTURED PROPERTY

Washington, April 19.—In seeking to arrange commercial agreements with the northern European neutrals, Germany is offering property seized in invaded territory in exchange for the neutrals' products. Despatches to the state department today said that Holland had refused an offer from Germany of fifty thousand tons of German coal, when the Dutch Government learned where the coal was to be mined.

Offers of grain removed from the Ukraine when the Germans invaded Russia played an important part in the negotiations for a commercial agreement between Germany and Holland.

Holland has agreed to export five thousand horses to Germany in return for permission to import Swiss cement thru German territory.

COAST BOMBARDED

Amsterdam, April 19.—German torpedo craft, bombarded the coast between Dunkirk and Newport, before the allied lines in Flanders, yesterday morning, says an official statement from Berlin today. The text reads: "Our torpedo boats yesterday morning fired 600 shells on enemy camps and storage places between Dunkirk and Newport."

GAS MUST BE SAVED FOR DOMESTIC PURPOSES

Chatham, April 19.—Replying to Mayor Clements of this city relative to the request that the railway board hear a deputation of local manufacturers regarding the gas situation, D. M. McIntire, K.C., chairman of the board, states that the policy of the legislature with regard to the conservation of the gas supply is to save the same for domestic consumers.

With this in view, experts have been sent to the field in this county to report on the extent of the supply, and the new contemplated legislation will be based on the report of the experts, at the same time pointing out that, until this is received no good could possibly accrue from the hearing of a deputation as suggested.

BIG LONG-RANGE GUNS CEASE FIRE ON PARIS

Paris, April 19.—The long range guns with which the Germans have been bombarding Paris have been silenced for 48 hours. The reason is that the result of new methods of counter-fire on the super-guns by French artillery.

From what has been accomplished already it is hoped that the activity of the German battery at Crepy-en-Laonnois, if it is not definitely stopped, may at least be rendered much more difficult.

WAS GIVEN UP; NOW SAFE

St. John's, Nfld., April 19.—The schooner Jean Campbell, 64 days from Halifax, with a cargo of flour, arrived here last night, after having been given up as lost, and the crew of the vessel put on mourning.

THIS LETTER From a Truly Grateful Mother

St. Catharines.
Prof. Mulveney, Dear Sir:
When I was in Toronto a few months ago I got a bottle of your remedy called Mothers' Friend Worm Medicine, and it has been a treasure, and am now out of it, and want to get more. The first time I gave it to her she came from her like a nest; it was just full of worms, four or five inches long, and also fish-worms and little maggots; and some pin-worms, and ever since, when I give her medicine she passes several worms and a great many pin-worms. This morning there were three, like fish-worms. She was also restless, throwing herself and kicking, and getting scared and talking. I got up and gave her Mothers' Friend Worm Medicine, and this morning her stool was full of pin-worms and three large worms, like fish-worms, and I must have more. I enclose an order for \$1.25, as I don't know what it will cost to send it here, so if it is any more than 25c to send it, let me know. Thanking you very much for your valuable medicine, Hoping to receive this medicine by return mail, I remain, yours respectfully,
This letter can be seen at Prof. Mulveney's office.

Prof. Mulveney ANSWERS Telephone Call

Hello! Is that Prof. Mulveney, Parkdale 4830?
Yes, lady.
Is Prof. Mulveney there?
Yes, Prof. Mulveney is speaking.
Have you a worm remedy for children?
Yes.
Could you tell me, if I brought my little girl down, if she had worms?
No, lady, I cannot tell by looking at children if they have worms.
Yes, madam.
Couldn't you tell me if I told you all the symptoms?
No, madam. My remedy called Mothers' Friend Worm Medicine, is an excellent Tonic and Builder, good for the nerves, and it is not necessary to regulate the bowels; it brings away all filth and small intestinal worms, is perfectly harmless and can be given to the smallest infant without fear of doing harm. A lady who is living on Shaw street got a bottle of this medicine for her baby two years old. She said she had no peace with this child night or day for four months; the doctor was calling in a bottle in my office, and the mother was crying and did not help the child in the least, the little one took a bad spell and was choking, the mother opened its mouth and pulled out a stomach worm that was strangling the child. She rushed over to me and brought the child, and the worm, which measured eight inches long, with her. She purchased a bottle of Mothers' Friend, and the worm came out, and the child was cured. It is a good investment to try Mothers' Friend. It is \$1.00 per bottle, and 6c for postage in the city, and 20c extra for postage outside Toronto. Now, as I do not practice medicine, and have only the one remedy for sick children, which expels Worms if they are there. It is an excellent medicine for all worms, and it is not necessary to regulate the bowels; it brings away all filth and small intestinal worms, is perfectly harmless and can be given to the smallest infant without fear of doing harm. A lady who is living on Shaw street got a bottle of this medicine for her baby two years old. It is a good investment to try Mothers' Friend. It is \$1.00 per bottle, and 6c for postage in the city, and 20c extra for postage outside Toronto. Now, as I do not practice medicine, and have only the one remedy for sick children, which expels Worms if they are there. It is an excellent medicine for all worms, and it is not necessary to regulate the bowels; it brings away all filth and small intestinal worms, is perfectly harmless and can be given to the smallest infant without fear of doing harm. A lady who is living on Shaw street got a bottle of this medicine for her baby two years old. She said she had no peace with this child night or day for four months; the doctor was calling in a bottle in my office, and the mother was crying and did not help the child in the least, the little one took a bad spell and was choking, the mother opened its mouth and pulled out a stomach worm that was strangling the child. She rushed over to me and brought the child, and the worm, which measured eight inches long, with her. She purchased a bottle of Mothers' Friend, and the worm came out, and the child was cured.
