

# Keep the Boys Cheerful

**Buy Them Nifty Clothes.** After all's said and done, you know a boy is a man in the miniature. Don't treat him like a kid. Most boys are just as big in their own manly way as they ever will be when they grow up, but as a rule we never stop to think this out, and the consequence is that many a boy has blue moments in his life just because we don't think far enough with him.

Our New Fall Suits, Overcoats and Reefers are designed with the idea of pleasing the boys. If the boys are satisfied the parents are bound to be. In our range of sizes we cater to the needs of the little 2-year-old boy, and from his size up to the big boy of 18 or 20. Our range of prices is the most comprehensive you can imagine, and despite the high costs, we have some wonderful values. One thing you can bank on and that is, we won't ask you a cent more than we absolutely have to. We carry Shirts, Shirt Waists, Gloves, Hats, etc., for boys. We have a Canada-wide fame as being the best boys' clothing house, and up to date our reputation hasn't even a dent in it. Keeping the boys cheerful is a hobby of ours—and good clothes is a wonderful factor in their daily life.

President Anderson of the veterans of France is determined that his organization will hold its tag day on October 18, as previously arranged, despite the stiff opposition that the G.W.V.A. is offering, on the grounds that it is not a suitable date, owing to the fact that the Prince of Wales is to visit Hamilton on that day.

At both of these gatherings the proposals submitted by the managers will be considered, and stated The Northern Miner today, "It is generally expected in Cobalt that the report will be adopted. Today the Timiskaming Independent Operators' Association, comprising a number of the smaller mines, issued a statement signed by L. S. Steensman, manager of the Genesee mine, and president of this organization. The statement was along similar lines to that published by the other managers' association, and it was presented to a committee of their employes this afternoon for consultation. It is believed that six hours' work, with eight hours' pay, will constitute a Sunday shift, except in "continuous operations" (mill work, etc.), and any men so employed shall be entitled to a day off during the week.

### STRIKE ORDERED OF STAGE HANDS

Will Walk Out Immediately In All Theatres Offering Schubert Productions.

New York, Sept. 5.—A strike of stage hands in 169 theatres throughout the country where Schubert productions are being offered, has been ordered by the International Alliance of Stage Employes and Moving Picture Operators of the United States and Canada. It was announced here tonight. The strike order was to take effect "immediately."

Letters also were sent to stage hands of 809 other theatres in the United States and Canada, that book Schubert shows, ordering out at once all who are working in theatres owned or controlled, wholly or in part by the Shuberts, or where there are productions booked "by or in connection with the Shubert concern."

"No member of this alliance shall in any way give service to any of the Shubert theatres or concerns connected with the Shubert concern as specified until further notice from this office, under pain of instant expulsion," the letters said.

"After making every effort, through legal representatives and otherwise, to effect a settlement with the Producing Managers' Association in the existing controversy, it is decided that decisive action must now be taken."

The letter explained that the action was being taken against the Shubert interests because they were regarded by union officials as largely responsible for the managers' refusal to grant the equity's demands. Lee Shubert tonight stated that he had received reports already from about 100 house managers of the Shubert theatrical interests throughout the country stating that the stage hands had walked out tonight.
