LADIES' FALL HAT OPENING

To-day we begin our Fall Hat Opening of Ladies' New York and Paris designs, specially imported by our representatives in those cities. These Hats are absolutely exclusive in quality-no two alike-and while rich in coloring are so tastefully handled in composition that they appear quiet and tasty. The trimmings to these Hats are excellent and novel in effect.

> The styles this season differ in a variety of modes from the designs produced recently in the sphere of fashions. The general one is reduced in breadth, and more pleasing and happily shaded color harmonies are in vogue. A strikingly handsome effect has been named the "Gondola." Another theme in the hat creation is the novel design with a high back that sets it forward in picturesque

> This fall millinery display is something exceptional with Dineen's. It has been made exceptional to keep pace with the recent extensive improvements made to the premises. Dineen's are now fully equipped to receive Exhibition time sightseers.

We want you to call to-day and see these Hats, even if you don't buy. We believe that they will give you some valuable pointers on style.

"Stop preaching silly sermons and teach the people cleanliness," was the burden of the reiterated advice of Sir James Crichton. Browne at yesterday's sitting of the Sanitary Inspectors' Association in London.

The clergy, he considered, ought to employ more of their time in helping on the movement towards personal cleanliness and in teaching hygiene.

"We require more and more the co-operation of the clergy in these matters," said Sir James, "but I mention it with some diffidence, as I have fallen under the ban of many clergymen for saying it, altho I am convinced, by my traveling about the courtry, that the silly sermon is still an existing fact.

"The clergy," he asserted, "would not be a bit the worse if they attended classes for it struction in sanitary science," Sir James concluded by erging that children

War in Watches

Guaranteed Timekeepers, Cased in 14K Gold-Filled, Worth One-Half More.

A heavy duty gives United watches control of their home market. Switzerland used to make watches for the world. By adopting American methods and machinery one Swiss company, at least, has done more than imitiate American watches. It has actually reproduced them wheel for wheel, plate for plate and jewel for jewel, but high tariff restricts the sale in the United States. In Canada we have a very

low duty (10%) which Swiss and American makers pay alike. on watch actions or move-ments. This makes Canada the battle ground for business between the rival manufactur. ers. Here's a shot from Switbullseye like William Tell did

Mrs. Shank, the fasting lady, who just been exhibiting herself in a glass cage in Vienna, has Mv-d for 23 days on 60 bottles of mineral water.

She occupied her time in studying the part of Marie Stuart in Schiller's play, for she is by profession an actress, and only fasts as a holiday accreation.

When she left the cage her voice was stronger and her step more clastic. She made a hearty supper of yeal, trout and beer. She will repeat her fasting feat in another month,
