CHICAGO: Snow's crop report indic...es an average winter wheat yield of 13 bushels per agre. The government estimate

an average winter wheat yield of 13 bushels per acre. The government estimate in December was 31,000,000 acres: Says Snow: From this must be deducted a large area winter killed in the Ohio Valley, Missourl and the Southwest. No one knows yet how much this is. On the basis of final harvest of 30,000,000 acres of winter wheat this report indicates not more than a 400,000,000 bushels crop, against a crop last year of 492,000,000 bushels.

Kausas City special says: April has been the most disastrous to the growing crops in the history of Kausas. Warm weather during March gave an impetus to vegetation that made the premature growth an easy victim to the late frosts. A night for the please and snow was followed by weather during March gave an impetus to vegetation that made the premature growth an easy victim to the late frosts. A night of rain, sleet and snow was followed by a drop fu the temperature to 30 at 6 o'clock this morning. All outstanding water was covered with a crust of ice.

Marshall, Spader & Co. wired J. G. Beaty at the close:

There has been an enormous trade in wheat to-day. Commission bouses seem to have been filled with buying orders, and there was such a pourlag in of these ord-there was such a pourlag in of these

Wheat: Liverpool strength this morning in the face of our weakness yesterday imparted new courage to holders of wheat, and resulted in a higher opening, with buying of a good character in evidence. Latter reports of an important character were received, which further strengthened the position of bulls and gave fresh impetus to the buying movement, which carried prices to within a fraction of the recent high point, advancing about 2 cents from yesterday's close. The largest of the commission houses were on the buying side, and while during the early session there appeared to be considerable opposition to a further advance, the absorption of offerfurther advance, the absorption of offer further advance, the absorption of offerings was of such a nature that early sellers became active bitters for the cereal. A noticeable feature of the day's trading was the replacing of several long lines, which were sold out when reports of rain in Kansas were received. Receipts continue liberal, but there is a quiet the good demand for our wheat from the other side, and it is upon this more than on possible damage that we base our opinion for higher prices.

er prices.

Corn and oats were active, and while Corn and oats were active, and while efforts were made early to check the advancing tendency, the offerings were so well taken that initial sellers became anxious buyers under the influence of continued light receipts and a good demand, both foreign and domestic. Prices reached the highest level on the crop. The situation is such that we anticipate higher prices.

Melady & Co., had the following at the

west and fresh reports of damage from bugs and freezing weather, started shorts to cover and developed investment buying by strong interests. The market had been completely sold out during the past two days, and was in a strong technical position at the opening. Crop conditions are very unpromising, as damage by freezing is beginning to appear, and prices are very reasonable under the circumstances. For to-morrow we look for another advance, and advise purchasers on any moderate breaks, which may occur in the near future.

BLOODY FIGHT BETWEEN

SAILORS AND THE POLICE

SANTIAGO, May 1.-The conflict between police and sailors of the cruiser Tacoma here yesterday followed an orderly banquet, which was given at the Cate Leon de Oro by a number of first-class seamen of the cruiser. At 1 in the morning the men separaterd, and 12 of them went to the Cafe Union in a reasonably sober condition. A police captain named Lay, who was in citizens' clothes, had been watching this cafe all the evening, with seven or eight policemen to support him. At about 2 o'clock in the morning the seamen started for the wharf with the intention of board, ing the Tacoma. Captain Lay asserts that the seamen started the trouble with the police, and the sailors say that Captain Lay, without any provoaction, caused the disturbance. As the enlisted men of the Tacoma had been hindered by the police on their way to the wharf, Ensign Brisbin decided to walk slightly ahead of the party. Suddenly he heard a revolver shot, and immediately afterwards the police charged with revolvers and machetes. Brisbin received an ugly cut on the arm, and was felled to the ground three times. As the crowd of seamen came up, the policemen emptied their revolvers at them, at the same time attacking the Americans with machetes. A fierce fight ensued, with the result that Henry Lee, a fireman of the Tacoma, will probably die of a compound fracture of the skull, caused by a machete,

gunshot wound in the right Ten other seamen were taken to the ship suffering from machete wounds and clubbing. Not one of the policemen was badly hurt, tho a number of them suffered from c ontusions. The captain and all the policemen who participated in the affair have been suspended by order of the civil governor of Santiago, upon the rep-il resentations of Commander Tappen of the Tacoma and the Ameircan con-sul, Mr. Holaday.

To Be Dyspeptic IS TO BE MISERABLE

Hopeless, Confused and Depressed in Mind, Forgetful, Irresolute, Drowsy, Languid and Useless.

This disease assumes so many forms that there is scarcely a complaint which it may not resemble in one way or another. Among the most prominent symptoms are constipation, sour stemach, variable appetite, heartburn, water-brash, gas in the stomach and bowels, distress after eating, etc.

BURDOCK BLOOD BITTERS diseases of the stomach, liver, bewels or blood. It stimulates secretion of the saliva and gastric juices to facilitate digestion, removes acidity, purifies the blood and tones the entire system to full health and vigor. Mrs. M. A. McNeil, Brock Village, N.S.,

Who Gets the Most Out of Life?

Not the wealthiest, not the most learned, nor the idler—but the man who has good health and works for his living. This truth is

trite, but not trivial. Every man should guard his health as his most valuable posses-sion. The more so because health is easier to retain than regain. Keep your grip on health by regular exercise, reasonable care in eating and requisite sleep. Take Beecham's Pills occasionally, to tone the stomach and keep the liver and bowels in good working

Observe these simple rules and you will agree that the one who
