Old Rates on the G. T. R. and C. P. R. Restored.

Cause of the Trouble and Terms of the Settlement-Adaptability of the Traveling Public Put to the Test.

The old rates on the G. T. R. and C. P. R. were restored at midnight last night. A decrease in business was today quite noticeable. The Stratford, Sarnia and Huron and Bruce lines of the G. T. R. were not affected by the rate war, as the C. P. R. could not compete with them, but the change in rates between points on the main line

For instance, single fare from London to Montreal, reduced, was \$6; at present it is \$13 45. To Toronto the increase is from \$1 to \$3 40; to Hamilton, from \$1 to \$2 30; to Woodstock, from 25 cents to 85 cents; to Kingston from \$350 to er, will no doubt have a large audience \$880; to Niagara Falls from \$235 to to mystify at the Auditorium tonight. \$3.70; to Detroit, from \$1 to \$3.40; to Dorchester, from 25 cents to 30 cents: to Komoka, from 15 cents to 30 cents; to Mount Brydges, from 15 cents to 45 cents; to Appin, from 25 cents to 89 cents; to Glencoe, from 25 cents to 95 cents; to Chatham, from 50 cents to \$1 95. The fares to intermediate points have been correspondingly reduced since the beginning of the trouble in February last.

The restoration of the local rates depended upon the settlement of the Manitoba disputes, and the new North -A broken trolley wire on the belt Bay agreement. This has been signed, line near Elmwood avenue, delayed the and once more the Canadian Pacific will use the Grand Trunk tracks between Toronto and North Bay for its western business.

The business into Manitoba was the cause of the trouble. Previous to the rate war the Canadian Pacific enjoyed a substantial differential (about \$5 from London) into Manitoba over the Grand Trunk. The result of this was that the Canadian Pacific secured the rate war was commenced the Grand toba as that in force over the Canadian Pacific, and today the rates over the two lines are similar. The Canadian Pacific, however, has all along con-tended that the Grand Trunk had no right to quote the same rates into Manitoba as it did. It objected to any Canadian business being handed over,

By the new agreement it is understood that the Canadian Pacific will obtain a large proportion of the Manitoba business over its line, while the Grand Trunk has made such arrangements for the use of its North Bay line as will result in no loss of revenue to it on western business. It is also said that the Canadian Pacific agrees to pay the Grand Trunk on all business originating on Canadian Pacific points the full fare for the haul between Toronto and North Bay, that is, \$6 85. On on Grand Trunk points, the latter road way of Chicago and over the American

lines into Manitoba. By this means the C. P. R. forces the Manitoba business over a Canadian route, the Grand Trunk's revenue is placed on a satisfactory basis, and the Northern Pacific, Great Northern and Chicago and St. Paul lines will be the

losers Under the previous arrangement the Canadian Pacific paid the Grand Trunk some \$80,000 a year for passenger business over the North Bay route; under the new agreement the latter road will receive very much more than this.

The Dons Submit, But Under Protest.

Cuba, Porto Rico and the Philippines Ceded to the United States.

Paris, Nov. 28 .- The Spanish commissioners announced that, being authorized by their government to reply that the American propositions are inadmissible, on legal principles, and are will be a first-class musical programme, not a proper compromise on legal and refreshments will be served during principles, on the Spanish part all diplomatic resources are exhausted, and the Spanish commission is now asked to accept or reject the propositions. Spain, inspired by reasons of patriotism and humanity, and to avoid the horrors of war, resigns herself to the power of the victor. She accepts the offered conditions in order to conclude a treaty of peace. SHORT ANSWER.

When the members of the two commissions were seated, Senor Montero Rios, the president of the Spanish commission, immediately handed the Spanish reply to Sir Arthur Ferguson, the Spanish interpreter attached to the United States peace commission. The answer of the Spaniards was so short that less than ten minutes were consumed in rendering it into English for the Americans. Spain's reply was as already cabled ,and added that Spain had throughout the controversy had the strongest argument that, as between positions so diametrically opposed, the American offer of \$20,000,000 was not a fair sum. Nevertheless, the reply continued, Spain desired to avoid any further effusion of blood and further disorder, and had concluded to accept the American offer unconditionally, and thus bow to the superior power of the victor.

WHAT UNCLE SAM GETS AND GIVE's.

The secretaries were then empowered to prepare the treaty articles embodying the cession of Cuba, Porto Rico and the Philippines, and the payment of the United States of \$20,000,-000, for submission to the meeting which will be held on Wednesday next.

The American demands include the acquisition of the whole of the Philippine and Sula group for \$20,000,000 and it is also understood the United States will purchase the Caroline, group. The question of the debt of Cuba was left unsettled. The next meeting will take place on Wednes-

PRIMROSE & DOCKSTADER'S MINSTRELS.

Already the public is becoming aware of the importance of the union of Primrose & Dockstader, and their great American minstrel company, and the patrons of the Grand can rest assured that they will "get their money's worth" when this mammoth organization visits here tomorrow night.
The comedians will be George Primrose. Lew Dockstader. Lew Sully and Jimmy Wall. The vocalists number 16. The olio will consist of some surprising European novelties, and the finale will be a grand tableau of some of the heroes of the war in correct uniforms. The scenic equipment and costuming will be most sumptuous, and it can be stated in all truthfulness that the entire entertainment will positively the best ever made by these two leaders of minstreley.

ITALIAN OPERA COMPANY.

The first grand opera novelty of the season will be the engagement here at the Grand of the Royal Italian Grand Opera Company, next Friday. An organization new to this city, but containing some of the finest artists of the Italian stage, many of them having sung with great success at La Scala, Milan. The bill will be especially interesting, consisting of "Cav-alliera Rusticana" and "Il Pagliacei." The company has a large specially selected chorus and an augmented orchestra recruited from among the private musicians of President Diaz of

"TWO LITTLE VAGRANTS" AT THE GRAND WEDNESDAY.

Miss Mildred Holland, whose admirable delineation of Fan Fan last season in the remarkably successful drama "The Two Little Vagrants," has been secured by Manager Edward C. White to take the same character again this season. Miss Holland made a most pronounced success of this part last season, and won the highest praise from the press wherever the beautiful play was presented. Miss Holland's acting is vivid, impressive and impassioned, yet perfectly natural. Much of her success depends upon her personal magnetism, as well as the graces of her delivery and beauty of style. To the abstruse intricacies of the player's art she is evidently a close student. This is manifested in the intonations of her voice, the expressions of the countenance, the flashings of the eye, the expressive gesticulations and every posture of the body.

PLAY BY MISS ELLA CAMERON.

"The Great Randolph Mystery," written by Miss Ella Cameron (Mrs. John L. Clark), was staged at Lawrence, Mass., last week, by the Wilson Dramatic Company of 22 people, and proved a great success. This is the first play from the pen of Miss Cameron which has been put on the boards, and the many London friends of the writer will be pleased to learn of the reception accorded it. The play will be presented by three other companies at early dates. Miss Cameron is a clever actress and a leading member of the Wilson company.

# MANY INJURED

Disastrous Boiler Explosion on a River Steamer.

Passengers Were in Bed and the Explosion Awoke Them by a Roar Like That of a Cannon-Some Were Almost Roasted or Stewed by the Escaping Steam.

Stockton, Cal., Nov.28.-The most disastrous river accident in the history of Stockton occurred yesterday near Fourteen-Mile Slough, when a part of one of the boilers of the river steamer T. C. Walker, which left San Francisco about six o'clock Saturday night, was blown out, killing five and dangerously wounding eleven persons, while probably 15 or 20 were more or less badly hurt. The T. C. Walker is owned by the California Navigation and Improvement Company, and ran between San Francisco and Stockton. THE DEAD.

The dead are: John Tulan, captain of the Walker; T. Blunt, a passenger; Watson Henry, chief engineer of the Walker; Mrs. Henry, wife of the chief engineer; Jerry Daly, fireman.

LIKE A CANNON'S ROAR. The majority of the passengers were a bed when the explosion occurred, and were awakened by the report, which was as loud as a cannon's roar. People rushed from their room in their night clothes. The whole forward part of the steamer's upper works was blown away. The electric lights had been put out, and the escaping steam enveloped the front portion of the boat till it was impossible to see how much of the boat had been carried away.

BLOWN OUT OF BED. Captain John Tulan was blown from his bed against the door of the state room and so seriously injured that he could not move. The door could not be forced open, as he was jammed against it. One of the employes of the boat secured an axe and cut the upper part of the room away, and finally removed him, but not until he was virtually roasted alive.

Watson Henry, the chief engineer, and his wife were in their room near the pilot house when the explosion occurred. Mrs. Henry was blown a distance of 20 feet to the bow of the boat. She was badly crushed and so badly scalded with escaping steam that her injuries proved fatal. Mr. Henry was badly scalded. He was thrown some distance, but not as far as his wife. He died shortly after being brought to the city. Mr. Blunt was instantly killed. He was standing on the lower deck, as he intended making a landing a short distance above the place where the explosion occurred. Jerry Daly, the fireman, was in the fire hold of the boat when the accident occurred. The escaping steam completely enveloped him, scarcely a portion of his body escaping the scorching vapor. He died this afternoon.

## THE STORM IN NEW YORK

Streets Blocked With Snow and Railway Traffic Demoralized.

New York, Nov. 28 .- When the people of New York awoke on Sunday morning they found the blizzard that was raging when they retired Saturday night was still in progress. The storm, which had begun with a soft, sleety snow on Saturday at noon, had increased greatly, and with the heavier snowfall the wind was blowing a gale. Nearly a foot of snow fell, but in places it had drifted to four or five feet. Broadway and all the great thoroughfares of the city presented a fan-

tastic appearance. The street cleaning department, with its limited resources, removed a few thousand loads from the principal thoroughfares, but this made an impression on the banks that was scarcely noticeable. Nearly every underground trolley line in the city was inoperative all day, owing to the filling up of the slot by freezing sleet, and filling the conduit with snow and sleet, thus making the trolley wire unavail-

able. All trains were delayed. The damage to small shipping in the harbor and down the bay was very The shores of the Hudson are littered with wreckage. At 9 o'clock yesterday morning a fleet of 22 oceangoing steamships were anchored in the bay.

### AT HALIFAX.

Halifax, N. S., Nov. 28.-The worst storm experienced for years in this region prevailed all yesterday afternoon and evening, and was still raging at a late hour.
