London, Dec. 23 .- Viscount Grey, formerly secretary of state for foreign affairs, has written, at the request of the fairs, has written, at the request of the research committee of the League of Nations Union, an introductory note to a pamphlet entitled "The Peace Conference and After." After urging the great opportunity efforded by the peace conference for taking a practical step in the direction of forming a league of nations, Viscount Grey says: "It is not necessary for the peace conference to create a league of nations. The conference will in itself be a vital beginning of such a league. All that is absolutely necessary is that it should not commit suicide, but keep itself alive by adjourning and leaving a prominent adjourning and leaving a prominent organization instead of dissolving itself and destroying its ministry. This is not all that is desirable, but is all destroying its ministry. This is

Attitude of U. S. Chief Executive Was Learned Today After Announcement Was Made That American Delegates to Peace Conference Intende d To Support British On the Destruction Idea.

Washington, Dec. 23.—It may be stated authoritatively that President Wilson will oppose, in the most direct fashion, proposals from any source to sink the warships surrendered by Germany under the terms of the armistice. Since word came from Paris that American delegates to the peace conference, with British support, intended to advocate destruction of the enemy vessels to Three Masked Men Overpower avoid contention over their distribution, the subject has been discussed with much interest among American and Allied naval officers here. Some officers found reasons for supporting such a course, particularly in the difficulty of incorporating into other navies craft of German construction. Officials have professed to know nothing about the attitude of the president until today, when it was learned that he viewed the plan as altogether unde-
