A favor will be conferred on the management if subscribers who receive papers by carrier or thru the mail will report any irregularity or delay in receipt of their copy.

Forward all complaints to The World Office, 35 Yonge Street, Toronto.

## WHY NOT CUT THE PRICES?

One great relief to the business and financial situation in Canada would be the sale of the lumber that the Canadian mills and the Canadian lumber dealers have on hand. To produce this lumber and to carry it they have secured substantial advances from our banks. If they sold it the banks would get back their money, and it could be used in starting the mills going again and stimulating business in other directions.

But we are not selling our lumber for more than one reason: one reason that the Americans, instead of buying from us, are underselling us in our own market; we hear of Michigan lumber being offered at Georgian Bay ports at from two to five dollars per thousand less than what Canadian mills are asking for the same class. The English market is not consuming much of our lumber at the present time, because as we hear, the English market can be supplied for less money from European and other sources.

It would therefore seem that the way to work off the big stock of lumber now in this country is to offer inducements to buyers, whether they are in Canada or abroad. To our mind it would be much better for the Canadian lumbermen to reduce prices; to send out salesmen, offer other inducements, and get their overstock marketed. They ought especially to offer inducements to the local market and to people who wish to build. By selling the lumber they help the banks; they put money in circulation; and the man who buys lumber to build must pay more money out for wages and for other supplies. In fact, wouldn't it be a good thing if all building supplies were reduced in price, so as to stimulate the building trade? The loan companies and capitalists would be more liberal in letting out their money to persons wishing to build if prices were lower.

## WHERE THE BANKS LOSE MONEY.

The Canadian banking law was mainly put on our statute book to provide banking facilities for Canada and Canadians. It was not quite intended that our banks should do the financing of foreign concerns, although it does not in any way prohibit it. In regard to the two banks now being liquidated, namely, the Sovereign Bank and the Ontario Bank, it should not be forgotten that both of these concerns made their losses outside of Canada. The Sovereign Bank undertook to finance an electric road between Chicago and Milwaukee, and, of all places, to finance a railroad in Alaska. Three millions of its money is locked up in these two enterprises. The manager of the Ontario Bank used the funds of that institution for speculation in the New York stock market, and as a consequence the shareholders are to be called on the double liability clause.

It seems to us that there are enough of straight Canadian propositions of substantial worth to more than use all the money that the Canadian banks can raise, and that not only would it be patriotic, but certainly it would be on the line of prudence to keep our own money in our own country until we get a great deal richer than we are to-day.

## THE MAN WITH THE PRAYER-MAT.

A friend of public ownership, who believes that journalism and citizenship should be practical, has described the Reverend J. Allah Macdonald as "the man with the prayer-mat." The title is derived from the performances of the Oriental globe, and is justly applied to the verend perambulating editor of The Globe. Last week he went to Cleveland and took his prayer-mat with him. Dropping his mat on the platform of the Hippodrome, in that very democratic city, the editor of the so-called "cleanest, sanest and safest daily newspaper published on the American continent," became so enthused with his own exuberant volubility, that even his prayer-mat could not keep its place for very pride in its owner, who made glorious "The Kingship of the People."

As modestly reported by the most futile Canadian organ of public sentiment, the man with the prayer-mat said:

Democracy in its essence meant the kingship of the people. Kingship is not wearing robes of purple and crowns of gold. Kingship is bearing burdens and facing obligations, and doing duties, and rendering services. And when the power of the King passed over to the crowd there passed with it that awful and inescapable obligation the facing of which under the old regime made the King either martyr or despot, and under the new regime runs the risk of making the crowd either coward or criminal.

Continuing, he outlined briefly the dangers to the nation under democracy from selfish absorption of the great body of the people each in his own affairs; from the interference and intriguing of private interests and the plotting of private corporations against the public; from the incoming of alien and undemocratic elements by immi-

## GRATION, AND FROM THE CYCISM WHICH DISBELIEVES AND DISTURBS AND ASKS WHY, THE LAST MENTION BEING THE MOST DANGEROUS OF ALL.

But how can Canadians take any stock in these unctuous utterances of J. Allah Macdonald, when he goes perambulating in other lands, as an apostle of civic righteousness and all the while in his own country he is silent on public rights and the flagrant wrongs committed daily against the people. Citizenship and journalism must be practical to be real, and the only way in which they can be practical is to deal with specific cases of wrongs perpetrated by private corporations and legislative bodies. Just now at Hamilton the people are battling for public ownership of electric power against a private company and a majority in the city council that are resolved to defeat the popular will. Are the people in this case kings? They are not and they will never come to possess kingship so long as they are continually betrayed by their professed friends. Let the Reverend J. Allah Macdonald cast away his vainglorious prayer-mat and get down to business in sane and practical advocacy of the people's rights here and now. Alayah, drop your prayer-mat and play the man.

## SPIRIT OF THE GAELIC LEAGUE.

We regret that an esteemed evening newspaper in this city should have done the Gaelic League an injustice by allusions which made it appear that this society was a body of men and women who worked to keep alive the feud between Catholics and Orangemen. The Gaelic League was founded by Dr. Douglas Hyde to develop and perpetuate the ancient spirit of the Celtic race in Ireland, by reviving the study of the Irish language and literature and by interesting living Irishmen in the games, music and arts of their forbears.

By these means the Gaelic League is bringing about a spiritual unification of the Irish race. Its constitution requires that every son and daughter of the Gael, or the children of Celtic parents, whether Catholic or Protestant, and that during the sessions of the society there shall be no reference to religion or politics.

## THE TORONTO BRANCH OF THE GAELIC LEAGUE HAS MORE THAN TWO HUNDRED MEMBERS, CONSISTING OF CATHOLICS, PROTESTANTS, INCLUDING ORANGEMEN, AND AGNOSTICS, BUT AT ITS MEETINGS ALL ARE AT PEACE AND HAPPY IN THE KNOWLEDGE THAT THE PURE CELTIC SPIRIT IS AS NOBLE AND ADMIRABLE AS THE SPIRIT OF ANY OTHER COUNTRY. ERIN GO BRAGH!

## LAVATORIES NEEDED AT FAIR.

Editor World: In a very short time we will have Toronto's great fair—the Canadian National Exhibition—with us again. This great exhibition, representative as it is of Canada's agricultural and industrial progress, is marred by the lack of one of the most essential things to any place where people congregate in as great numbers as they do at the exhibition grounds, and that is, sufficient and proper lavatory accommodation for both men and women.

In my opinion, and I am endorsed by many of our citizens, the lavatory accommodation on the exhibition grounds is a lasting disgrace to not only the exhibition authorities, but to the city generally.

Last year the shameful inadequacy of the accommodation was given prominence when, a few days before the crowd was extra large a fee of five cents was charged for the use of the ladies' lavatory. This is somewhat of a delicate subject to deal with, but I think every citizen of Toronto will agree with me when I say that the existing conditions are a disgrace.

In my opinion, and I am endorsed by many of our citizens, the lavatory accommodation on the exhibition grounds is a lasting disgrace to not only the exhibition authorities, but to the city generally.

## A MISSING MAN.

Editor World: Knowing the value of your popular paper for tracing missing persons, I venture to beg of you your assistance in tracing the whereabouts of my brother, who has been missing since the 29th of May of this year from his boarding-house in Toronto. Neither I nor any of my friends have seen him or heard of him since, and we cannot gain any tidings of him whatever. We are all afraid that something has happened to him. So if you kindly insert this in your valuable paper we may be able to get some clue of him.

He was out of employment. The following is a description: English by birth; name, George Lewry; about 5 feet 2 inches high; fairly stout; brown eyes; rather bad teeth. Any information will be gratefully received by Miss G. L. Lewry, care of James White, O'Sullivan's P.O. Ont.

## OSGOODE HALL.

Justice Britton has given judgment awarding Mrs. Margaret Merritt \$770 damages against the City of Ottawa for a fracture of the hip thru a fall on a slippery sidewalk.

The curator of the estate of Alex. Kawaia and Della Kawaia Jureidini, who have been carrying on business under the name of Kawaia & Jureidini, have entered an action at Osgoode Hall against the City Storage, Ltd., and A. S. Shibley for a declaration that certain goods stored with the company, and for which they had issued a receipt to a Mr. Kelly, are the property of the estate of which they are creditors.

Lazarus Rosenfeld and Lehman have entered an action at Osgoode Hall against Henry Durke, to secure \$396.17, for goods sold and delivered.

Edward Catley has entered an action against the plaintiff and defendant have been partners in mining lands since April, 1906, and to have an accounting and dissolution.

THE SUNDAY WORLD is delivered to any address in the city or suburbs for 5 cents per copy.

To ensure regular delivery, order at once. TELEPHONE MAIN 252

## "FRUIT-A-TIVES" CAN BE HAD IN 25c TRIAL SIZE

AS WELL AS IN REGULAR 50c BOXES.

Everybody Can Afford to Give These Wonderful Tablets a Trial at Least And Prove Their Value.

"Fruit-a-tives" or "Fruit Liver Tablets," the wonderful medicine made from the juices of ripe fruits, have scored a remarkable success. The demand for them has grown in four years till it now extends from the Atlantic to the Pacific. Druggists at first bought them in lots of one dozen boxes—retail for \$8. Now it is no uncommon thing to receive orders from wholesalers for 100 gross lots (14,400 boxes)—retail for \$200.

There is only one reason for this great success—they cure sick people. But still there are homes where "Fruit-a-tives" have not been tried—homes where they still suffer from Constipation, Biliousness, Kidney Trouble, Skin Diseases, Neuralgia, Rheumatism and kindred painful and weakening ailments—often because they have not cared to risk 50c to try "Fruit-a-tives" when other medicines—supposed to cure—could be had for 25c.

This last objection to trying "Fruit-a-tives" has now been overcome. We have put out a new trial size to retail at 25c. The price no longer stands in the way. Get a trial box and see for yourself that "Fruit-a-tives" will help you.

If your dealer has not the 25c trial size, let us know. Give us your name and address and we will send you a booklet—free—containing valuable recipes and stories of what "Fruit-a-tives" have done. Fruit-a-tives, Limited, Ottawa, Ont.

## FIGHTING IN HONDURAS.

Honduras Government is Preparing to Repel Invaders From Outside.

PUERTO CORTES, Spanish Honduras, July 10, via New Orleans, July 14.—A train, which has just arrived from San Pedro, brings the news that General Guevara has arrived at Choluta, and that fighting has begun between the government soldiers and the revolutionaries. According to the advice brought by the train crew, the attack upon Choluta followed the capture of the Town of Gracias by government forces. Recruiting for the Honduran cities continues, and preparation is made for defensive operations against the revolutionaries in case it develops that they are really receiving material aid from other Central American republics.

## BOY CRUSHED TO DEATH.

Fatality on Welland Canal Due to Imperfect Protection.

WELLAND, July 14.—(Special).—The need of protection at the canal bridge approaches received emphasis this afternoon when the eight-year-old son of Alfred Parks lost his life.

The bridge had been open to permit the passing of a boat, and a boy was standing ready to cross it as it was closing. He was caught between the railing of the swinging bridge and the railing of the approach and was crushed to death.

The only protection is a chain, which hangs within a foot and one-half of the pavement at the centre.

## To Quebec Tercentenary.

If you intend going, your outing will be far more delightful if you take the "water way" via the Richelieu & Ontario Navigation Co. through the 1000 Islands and down the Rapids of the St. Lawrence. Charming scenery and cool breezes land you fresh at Quebec to witness the magnificent pageants during the celebration.

For the benefit of its patrons R. & O. steamers "Montreal" and "Quebec" from July 23rd to 27th, inclusive, will leave Quebec for Montreal at 11 p.m., instead of 6 p.m., thus giving visitors an opportunity to witness the fireworks and enjoy the evening's entertainment.

## CAN'T BEAT NEGROES IN CANADA.

WINDSOR, July 14.—(Special).—Sam Farmer, brother of W. O. Farmer, secretary of the Highland Park Club, was fined ten dollars and costs today for assaulting and wounding a colored man following named W. J. Mack.

Crown Attorney Rodd said he was determined to show that colored men could not be beaten with impunity in Canada, and thus contested the treatment here with that in the Southern States.

## Find in Unsurveyed Territory.

Bert Grover, down on the Bosquet claim in the township of Lorrain, has made a big find of two nuggets of nearly solid silver. They are believed to be floats, but Mr. Grover has a good vein and he is one of the best mining engineers in this part of the country. Bert is saying little, but keeps on sawing wood. Everyone who has been on his property predicts that it will be a shipper. This new silver camp looks as if it were going to make good, and one is safe in predicting many valuable finds there.

When you hear a conservative engineer like Mr. Grover or Sydney Smith talk as enthusiastically as these gentlemen do you may look for something good.

R. R. Gurney has just returned from a visit to the Josey or Keeley, and he says at length they are taking out great ore. Mr. Gurney has bought some properties and development is being done on them. Half a dozen shipping properties will be found south of Lorrain before the present year closes.

Frank Burr Moore.

## \$14.75 to Quebec and Return.

Via the Grand Trunk Railway double track line, account of the tercentenary celebration. The many special features in connection with this great event, including the visit of H.R.H. the Prince of Wales and the British, American and French fleets, together with the many thousand soldiers encamped in the quaint historic old city, will make this one of the greatest military and naval pageants seen in modern years. Tickets good going July 15th to 25th. Return limit August 3rd, 1908. Proportionate rates from all points in Ontario. Tickets and full information at city office, northwest corner King and Yonge-streets.

## CONSISTENT SHIPPERS NOVEMBER TWENTY-SIX

Output From Cobalt Shows a Big Increase for First Six Months of Year.

COBALT, July 14.—(From the Man on the Spot).—Cobalt's output for the first six months of 1908 was \$151,644 tons; Cobalt's output for the first six months of 1907 was \$543,000 tons; increased output for the first six months of 1908 over same period of 1907, \$208,644 tons.

The tonnage this year to July 1 is 2600 tons more than last year. This year many mines that last year had high tonnage rank low in the list of shippers by reason of the fact that nothing to the smelters but high-grade ore and concentrates. The increased output is a striking tribute to the greatness of Cobalt.

Twenty-six consistent shippers are on the list for 1908. The "younger set," such as Temiskaming, Temiskaming & Hudson Bay, Watiss, Silver Lake, City of Cobalt, Nancy Helen, Crown Reserve, Little Nip and Cobalt Lake will during the latter half of current year do much to make the output of the year largely in excess of 1907.

La Rose, O'Brien and Nipissing are the leaders and will continue to lead and value by reason of the fact that they are high-grade ore and concentrates. Trethewey and McKinley stand well up towards the top of the list and these mines have always been consistent shippers.

Trethewey will prove an early dividend-payer.

## Leading Shippers.

The shippers this year are as follows:	Tons
La Rose	1693.73
O'Brien	1517.61
Nipissing	1087.14
McKinley-Dorrach	1087.14
Trethewey	835.30
Buffalo (high-grade and concentrates)	346.46
Silver Queen	322.09
Conlaga (high-grade and concentrates)	313.40
City of Cobalt	273.50
Kerr Lake (very high-grade)	273.56
Tem. & Hudson Bay	255.31
Temiskaming	232.12
Watts (of King Edward group)	214.33
Right of Way	179.34
Nova Scotia	135.77
Cobalt Central (rich concentration)	125.04
Cobalt Lake	123.67
Silver Lake	95.86
Drummond	94.39
Foster	75.54
Nancy Helen	69.52
Cobalt Townsite	68.26
Crown Reserve	45.90
Silver Queen	38.80
Little Nip (from Peter Lake)	20.05
Miscellaneous for smelter experiments	20.00

Total tonnage first six months of 1908.....\$151,644

The month of July opens out well for shippers. For the week ending July 11 eight mines shipped ore amounting to \$47.73 tons. The shippers were:

	Tons.
O'Brien .. .. .	95.65
Nancy Helen .. .. .	93.50
Silver Queen .. .. .	90.00
Nipissing .. .. .	63.50
Cobalt Lake .. .. .	47.60
La Rose .. .. .	46.55
Kerr Lake .. .. .	30.33
Little Nip (From Peter- son Lake) .. .. .	20.60

Total for week.....\$47.73

La Rose shipped forty-six and a half tons of ore to Copper Cliff that will average nearly 600 ounces of silver to the ton. This is the kind of ore that makes for dividends. Kerr Lake shipped a car of its rich ore to the same smelter and Nipissing sent out two cars of high-grade silver-ore. The last mine went to Copper Cliff and the New Jersey smelter got thirty-one tons.

Nancy Helen shipped two cars of low-grade to Denver and one of the same grade to Carnegie. This mine will ship a car of high-grade ore either this week or next.

On the afternoon of the 13th the shaft on the Peterson Lake vein. Peterson Lake Co. receives a royalty. Supt. Madden has his shaft down 100 feet on this vein and has started to cross-cut and drift. The vein left the shaft at a depth of about 80 feet and as soon as vein is reached in the cross-cut the vein will be started on the vein and good development work done. Nothing of value has yet been encountered on the lot owned by Little Nip, but work is being kept up at the tunnel.

## Find in Unsurveyed Territory.

Bert Grover, down on the Bosquet claim in the township of Lorrain, has made a big find of two nuggets of nearly solid silver. They are believed to be floats, but Mr. Grover has a good vein and he is one of the best mining engineers in this part of the country. Bert is saying little, but keeps on sawing wood. Everyone who has been on his property predicts that it will be a shipper. This new silver camp looks as if it were going to make good, and one is safe in predicting many valuable finds there.

When you hear a conservative engineer like Mr. Grover or Sydney Smith talk as enthusiastically as these gentlemen do you may look for something good.

R. R. Gurney has just returned from a visit to the Josey or Keeley, and he says at length they are taking out great ore. Mr. Gurney has bought some properties and development is being done on them. Half a dozen shipping properties will be found south of Lorrain before the present year closes.

## GRAFT DOESN'T ENTER INTO BANKING BUSINESS

Byron E. Walker Replies to a Recent Newspaper Suggestion Defending Politicians.

"If a great corporation like a bank could not be managed from top to bottom without what is commonly called graft, that is without gifts and perquisites, then the ruin of such an institution could not be long delayed. A more unjust statement about the great banking establishments of this country could not, in my opinion, be made."

Such was the expression of his views on a recent newspaper statement given to The World yesterday by Byron E. Walker of the Bank of Commerce. The statement was to the effect that graft was as common in business and banking circles as it was at Ottawa in politics.

"As far as humanly possible, no one is advanced in the Bank of Commerce, nor has been for a quarter of a century, except for one reason, and that is merit," said Mr. Walker, who is himself a living example of the system by which, without influence or favor, the office-boy may reach the highest position.

"Teach the boy at the bottom," is one of the maxims of the system. When the lad enters he begins to learn that honesty and integrity are not only to be taught but to be followed as a corollary, and it is said that in this respect the Bank of Commerce may be pointed to as an example of the Canadian principle working with perfect success.

## SCHOOL COMMITTEES.

Monday Next Will Be a Busy Day for Three of Them.

Immediately after the city council has passed judgment as to the advisability of erecting another high school in the city to relieve the present overcrowding in Harbord-street Collegiate Institute and to cater to the future needs of the northern section of the city, the management committee of the board of education will convene to finally consider the question and rush its recommendations on to the board. The committee meets at 2 p.m. Monday. At the same time a principal will be appointed for the high school classes which are at present being held in the upper floor of King Edward school to relieve Principal Hagarty of Harbord of this additional responsibility. The new principal will be given power to select his staff of assistants.

At 2 p.m. on the same day the property committee will meet to receive and consider the report of the special committee regarding the new technical school site and to open tenders for midsummer repairs. After the property and management committees have finished their reports the board of education will meet to ratify or condemn the expenditures recommended, and on the afternoon of July 28 a special meeting of the whole board will be called to clear everything up for the holiday season.

## SAYS CROPS ARE FAIR.

Ex-Warden Says He Does Not Look for Big Crop.

Ex-Warden "Bunny" Johnson of Peterborough, away back near the shores of Lake Simcoe, lumberman farmer, erstwhile Liberal candidate in North York against "Herb" Lennox, and general good all-round fellow, was in the city for a short time yesterday.

Asked as to the outlook for the crop in the northern part of York County, Mr. Johnson said: "The hay crop is only an average one, not heavy, as was expected, and very little will cut. The grain outlook, too, is fair, not a big yield of straw. The root crop is very uneven, in some places good, and others very poor. Taken altogether, conditions are only fair."

## Something Different in Summer Resorts.

Lovely Lake Massanoga, although within easy distance of Toronto, is not as well known as it deserves to be. The nearest railway station is Kaledar, on the C.P.R. to which the return rate from Toronto is only \$5.50, good all summer. A 20-mile journey by stage and launch brings one to Bon Echo Inn, the most charmingly situated, most comfortable hotel in Ontario. Boating, bathing and fishing may be enjoyed at their best; the natural scenery is magnificent, the air bracing and health-giving, and, while Bon Echo is right on the "edge of the wilderness," with all its beauties, it is nevertheless in touch with the world by telephone, and enjoys quick transit facilities with the railway, a point of value to the business or professional man. Try the BonEcho by all means. Illustrated folder will be sent to any address by C. B. Foster, D.P.A., 36 R., Toronto.

## THE T. EATON CO. LIMITED

DURING JULY AND AUGUST THIS STORE WILL CLOSE EACH SATURDAY AT 1 P.M.

## GOOD NEWS EVERY DAY

To some people July is just a hot month; to others it's the month that brings their vacation. But to the great majority of home financiers (the housewives) July is Twenty-six days of money saving opportunities at Eaton's.

Each and every day has inducements of its own. In this great sale month, special purchases and over-loaded stocks are price-sacrificed without a moment's warning, and the price tickets tell the good news.

## SO IT PAYS TO COME EVERY DAY.

And when you see something you want advertised, come after it as soon as you can—for this is the quick clearing month, and goods won't stand on the order of their going.

## BIG INDUCEMENTS EVERY DAY.

## THE T. EATON CO. LIMITED

## O'Keefe's "Gold Label" ALE

The New O'K Brew. A treat in hops and malt. Rich and old and creamy. Remember to ask for O'Keefe's "Gold Label" Ale—O'Keefe's new brew.

## WOULD STAY OUT LATE.

Runaway Who Objected to Early Bedtime Caught at Detroit.

WINDSOR, July 14.—(Special).—Henry Morden, a runaway lad aged fifteen, hailing from London, Ont., was picked up in Detroit to-day and sent back home. The youth skipped out because he refused to obey his mother's orders to be in the house at 8 o'clock each evening. In his travels he visited Brantford, St. Thomas and Port Huron before reaching this district.

## A HEAVY FINE.

William Brown, who helped to smash car windows during Saturday's parade and costs, was yesterday fined \$5 and costs.

## Entries for Kolapore.

RISLEY GARD, July 14.—(P.)—The following teams are entered for the Kolapore Cup: Canada, Mother Country, Malay States Guides, West Indies, Guernsey and India. For the Mackinnon Cup the teams are: Canada, England, Scotland, Ireland and Malay States Guides. The Rajah of Kolapore's Cup will be shot for on Friday.

## He Stopped the Car.

Because street cars had passed without regarding his signals to stop, Francis Nicolletti put two planks across the rails to emphasize his demands on a succeeding trolley. In court yesterday he was fined \$5 and costs.

## Equitable Officer Dead.

NEW YORK, July 14.—Thomas D. Jordan, former controller of the Equitable Life Assurance Society, died suddenly in a downtown subway station late this afternoon.
