Theresa Hintz Lies in Precarious of apoplexy. Condition in Detroit Hospital.

WINDSOR, Feb. 15.—(Special.)—In St. Mary's Hospital, Detroit, Theresa Hintz, 21, is hovering between life and death. The authorities say that if Dr. George A. Fritch, the Canadian charged with the murder of Maybelle Millman, is liberated on the charge of causing the death of Miss Millman, he will be immediately rearrested on a charge of being responsible for Miss

The house physicians informed the prosecuting attorney's office to-day that Miss Hintz is slightly improved, but they cannot hold any great hopes her recovery.

Assistant Prosecuting Attorney Kilpatrick-has taken a statement from the girl, and it is understood that she said that it was at the offices of Dr. Fritch that she received treatment on the evening of Monday, Feb. 7. This would make it on the date that the work of drawing a jury in the Milman case was being brought to a close in the recorder's court. "I took the young woman's statement," admitted Assistant Prosecutor Kilpatrick, "but be-yond that I can say nothing. The mat-ter has been placed before the prose-

## ROCHESTER MINE

Expert Says Has Same Vein as Timiskaming and Beaver,

In a market letter by J. H. McIlwain, he says that people should not lose sight of the section around Timiskaming, Beaver and Rochester mines, and more especially that portion of the section which is low and marshy. Beaver had to drift to low lands and sink between 200 and 300 feet. Timiskaming between 200 and 300 feet. Talketer's big follows the ravines. Rochester's big discovery was made in a marsh, being favor which he claimed was signed by the lowest part of their 68 acres.

Mr. McIlwain said that he had an

interview with a person familiar with the view of Dr. Sheard who reported rimiskaming and Beaver mines, and against the application. this person gave it as his opinion that the Rochester had the same vein as Timiskaming and Beaver, and that the reason Rochester made the discovery on the surface was because that particular section was so much lower than the former.

Mr. McIlwain says that the Rochester stock is not largely held by any one person (including the directors) and should the captain of the mine report one of these mornings that he report one of these mornings that he had reached the vein on the 50 and 75 had reached the vein on the 50 and 75 facturers from Thorold Onto the contract of the supreme court to-day the appeal was heard from an order of the board of railway commissioners fixing the rate on traffic of certain manufacturers from Thorold Onto the contract of the supreme court to-day the appeal was heard from an order of the board of railway commissioners fixing the rate on traffic of certain manufacturers from Thorold Onto the contract of the supreme court to-day the appeal was heard from an order of the board of railway commissioners fixing the rate on traffic of certain manufacturers. Medical Officer Reports Against Proposal and Board of Control Agrees.

Despite the fact that R. J. Fleming, when assessment commissioner, informed Wight & Co., in 1903, that there would be no objections to their estab-lishing a slaughterhouse on Jones-avnue, north of the G. T. R. tracks in Riverdale, the board of control yesterlay turned down the company's appli-

A large deputation, representing the residents and the board of education, opposed the company's request for ower to build a plant on the site purhased by them. The board of education's interest arose from the fact that the slaughterhouse would be in proximity to the Riverdale high school and Pape-avenue school. The residents of the locality who opposed the applica-cation alleged that offensive condi-

OTTAWA, Feb. 15.-The railway commission this morning reported a bill of the London and Lake Eric Railway

power in a municipality operating its General Passenger Agent, Toronto, Ont. own lighting plant, without the consent of such municipality. D. J. McDougal Pacific Mail Steamship Company of Ottawa, on behalf of the City of London, wanted this extended to any municipality, which was accordingly

W. D. Hogg, K.C., appeared for the Ontario Government and wanted the bill amended so that the company might not sell power over the authorized line of the railway without actually building the railway.

The next amendment to the bill came from the Lord's Day Alliance. Rev. J. Rollins of London urged the committee not to give the company Sunday traffic rights until the international link, a steamship line from Port Stanley to Cleveland, giving the concern a Dominion status, was actually in opera-

"The riffraff of London come down and take possession, of our orchards, and that sort of thing," said E. S. Hunter of Westminster Township.

Major Beattle, member for London, declared there was no riffraff in that

Rev. Dr. Shearer, appealed to the committee to respect provincial rights in the matter of Sunday cars, and not to nullify the will of the people, as it had been expressed in provincial legis-

Dr. Shearer said the question before the committee was whether parliament should be consistent with the idea expressed in the Lord's Day Act and leave it to the province to deal with Sunday cars.
W. F. Maclean thought the Province

of Ontario had been inconsistent in its dealing with Sunday cars. In Toronto people could travel on Sundays on the Geo. E. Foster has served his state-Kingston-road and west on the Lake

The committee saw no reason to make any special provision with regard to Sunday traffic, and the bill was reported.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital lorces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sonse of prestration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour—
