THE AGONIES OF NEURALGIA

A Nerve Trouble, Always Due to Weak, Watery Blood.

Only those who have been attacked vith neuralgia can form the faintest idea of what its victims suffer. A tingling of the tender skin, a sharp sudden stab from some angry nerve then piercing paroxysms of pain—that is neuralgia. The cause of the trouble is disordered nerves, due to weak, watery blood. The cure is Dr. Williams' Pink Pills, which make new, rich, red blood and thus soothe and strengthen the disordered nerves cure neuralgia. Mr. Louis Martin, Mildmay, Ont., says: "I am writing to let you know the great benefit Dr. Williams' Pink Pills have been to me Two years ago I was a physical wreck. My nerves were all unstrung and I suffered tortures from neuralgia in the head and throughout the nervous system generally. I was almost unfit for work and only managed to get along with the greatest difficulty. I doctored for about five difficulty. I doctored for about five months, and in this time took over forty dollars' worth of medicine without any benefit. More I was actually growing worse, and finally had to take to my bed. My nerves got so bad that I could not turn over in bed without help and the pain was something awful. As I am a farmer something awful. As I am a farmer you can easily see that necessary work was being neglected, so I sent for a brother who was in Alberta to for a protner who was in Alberta to come and take charge of the work. When my brother arrived he at once urged me to try Dr. Williams' Pink Pills, telling me of some cures that had come under his observation. I got half a dozen boxes, and before they were all gone there.
