Escott's England. Her People, Polity and Pursuits. By F. W. S. ESCOTT. 8vo., uniform with Wallace's "Russia."..... 4 50

There is great reason to believe that of all the remarkable changes now taking place in the character of European nations, none are of more importance than those in England, not even those in Russia and Turkey. Certainly none are of more interest to Americans, not only because of kinship, but because we, ourselves, through industrial and commercial agencies, are a very important factor in these great social and political transitions. In no other single book can be found so good an exposition of the characteristics of England which are interesting and important to study in these connections.
