Bagdad Fight Will Live in History

How River Was Crossed

Remarkable Gallantry Like That of Landing at Gallipoli—Lancashires Again in It

London, April 2.—Mr. Edmund Candler sends a vivid account of the moonlight fighting which preceded the British taking of Bagdad—a fight, he says, which is likely to become historic. "Not since the wonderful and terrible landing on 'W' Beach has there been anything to equal the story told by Mr. Candler of the crossing of the Djiala," says the Daily News. "In sheer gallantry the men who pushed out party after party, to practically certain death, were the peers in every way of the brave men who fell line upon line as they advanced up the beach in Gallipoli. The issue in this case happily was a triumph which has changed the face of the war in the east, and the losses were presumably far smaller than in the massacre on 'W' Beach. But for sheer courage and contempt of death there is little to choose between them."

Party Shot Down

"Immediately the first pontoon was lowered over the ramp, the whole launching party was shot down in a few seconds," says Mr. Candler. "It was a bright moonlight, and the Turks had concentrated their machine guns and rifles in the houses on the opposite bank."

"The second pontoon had got into the middle of the stream, when a terrific fusillade was opened on it. The crew of five rowers and ten riflemen were killed, and the boat floated down the stream. A third got nearly across, but was bombed and sank. All the crew were killed."

"But there was no holding back. The orders still held to secure the passage. Crew after crew pushed off to an obvious and certain death. The fourth crossing party was exterminated in the same way, and the pontoons drifted out to the Tigris to float past our camp in the daylight with their freight of dead. The drafts who went over were raised by volunteers from other battalions in the brigade. These and the sappers on the bank shared the same gallantry. This time the attack was preceded by a bombardment. Registering by artillery had been impossible on the first day in the speech of the pursuit."

"It was the barrage that secured us the footing—not the shells, but the dust raised by them. This was so thick that you could not see your hand in front of your face. It formed a curtain behind

Thought Would Go Mad With Pain. Could Not Sleep At Night. Cuticura Entirely Healed.

"I had pimples come on my face which were very sore. They were hard and yellow and I thought I would go mad with the pain of my face. The burning feeling was terrible and I could not sleep at night. Then I thought I would try Cuticura Soap and Ointment. I only used them one week when I got relief and I used six boxes of Cuticura Ointment together with the Cuticura Soap when I was entirely healed." Fenian Raid Veteran Had Nervous Prostration

Mr. F. T. Carr, familiarly known as Capt. Carr, Stoughton, N.B., writes:—"I have Dr. Chase's Almanac of several years back on file in my home, and prize them highly. I can recommend Dr. Chase's Medicine, and particularly the Nerve Food, because it completely restored me to health and nerve strength when I was suffering from an attack of nervous prostration, sleeplessness and neuralgia—pains through the head—almost unbearable pain and misery. My sickness resulted from overwork and worry—utterly exhausting my whole nervous system. Dr. Chase's Nerve Food cured me completely, so that I felt like a new man, and fit to tackle anything. This experience happened eight years ago, and I have been a well man ever since. I hereby affirm that this statement is true and correct in every particular."

"Nervous troubles are so little understood that many people who could easily be cured in a few weeks by the use of Dr. Chase's Nerve Food allow their nervous systems to become completely run down. Cure is then most difficult, and at best is a slow, tedious process. You find yourself not feeling first-class, you do not sleep well at nights, your digestive system fails in its work, you have headaches, it may be, and are irritable and easily annoyed. Possibly you have not recognized these as the warning symptoms which indicate exhaustion of the nervous system, but such they are, and in nervous troubles, as in many others, an ounce of prevention is worth a pound of cure. There can be no doubt in regard to Dr. Chase's Nerve Food as a restorative of the nervous system. Particularly at this season of the year, when the changing temperature is so trying on the human body, people everywhere are proving the wonderful revitalizing influence of this great food cure. Just read what Mr. Carr says about it."

MAKE DAYLIGHT SAVING A NATIONAL INSTITUTION

—then it will not make such a muss of things right here in St. John

THOSE IN FAVOR AND THOSE AGAINST THE CONTINUATION OF THE DAYLIGHT SAVING SCHEME IN ST. JOHN agree on the common ground of nationalization. Those in favor want to have the extra hour no matter how much it upsets the legitimate business plans of men with large interests at stake. Those frank enough to state their objections are once more willing to gracefully bow to the will of the majority. On the other hand the merits of the "anti" case must in all fairness be acknowledged. In the matter of the odd-hour day St. John is an island. Everybody around us uses the regular time. The railways refuse to upset their timetables for St. John only. Result—confusion, risks and losses to some people. Why not therefore nationalize the scheme? St. John has done well to lead the procession but since other sections are not following suit some of our people are suffering. Let all hands therefore get together and urge the legalizing of the plan for the Dominion as a whole, or suspend it in St. John until that can be accomplished? Nationally it would be a great wartime economy but locally it is a sort of fifty-fifty proposition between losses on the one hand and pleasure on the other. It would appear that the City Council is ready to serve the majority of voters in this special by-law so let there be a fair, square discussion of the facts—without personalities or imagined motives—and the Council will do the rest.

Let the matter be considered carefully and in a broad, gentlemanly spirit of fairness and good citizenship. There is no animus in the debate.

WILSON WAITING TO BE CONVINCED

Reception of Mexican Ambassador Not Enthusiastic, Preferring to "Wait and See" Establishment of Constitutional Order.

Washington, April 17.—Ignacio Bonillas, the first Mexican ambassador to be received by the United States since the overthrow of Madero, presented authentic credential letters from General Carranza to President Wilson today, and was formally accepted as diplomatic representative of the de facto government. He was accompanied to the White House by Secretary Lansing. Special interest attached to the presentation of the ambassador because of German machinations in Mexico, and the uncertainty as to the attitude of the Carranza government toward the war between the United States and Germany. In some quarters it had been expected that the situation would be referred to directly in the exchanges between the president and his callers, but there were no such references.
