WELL KNOWN CITY MAN TAKES OWN LIFE

J. L. SUTHERLAND FOUND SHOT IN PYTHIAN CASTLE

J. LEE SUTHERLAND, 55 Pitt street, committed suicide in one of the basement rooms in the Knights of Pythias' Castle soon after 2 o'clock this afternoon by shooting himself through the forehead with a .32-calibre revolver. Two men who found him report that when they entered the room which was the scene of the tragedy they were met with a rush of gas from turned on burners.

Detective Biddlecombe, who was quickly on the scene and made an investigation, said there was no doubt that it was a clear case of suicide, the revolver, a .32-calibre, being found clutched tightly in his hand. The heavy bullet pierced the forehead and lodged in the brain.

FOUND BY TWO MEN. The tragedy was discovered by John N. Golding, caretaker of the hall, and George Currie, also a Pythian member. Mr. Golding had left the hall at noon, and said that the door of one of the rooms was left unlocked, but when he returned about 2:30 o'clock in company with Mr. Currie, the door was fastened. Opening it, they were met with a rush of gas, which is believed the unfortunate man had turned on before shooting himself.

The fatally wounded man was lying on the floor in a pool of blood with the gun in his hand. Dr. Addy was called and the ambulance and police notified at once. Everything possible was done, but the man was too far gone for a doctor's assistance to be of any avail. Coroner Porter was immediately notified.

Mr. Sutherland was keeper of records and seals of Union Lodge, Knights of Pythias, and had been employed by the New Brunswick Power Co. Ltd. His dependency was said to have been the probable cause of the tragedy.

Glasgow Blaze Wrecks Fair Buildings and Church, Does Damage To Hundred Houses

Canadian Press. GLASGOW, July 8.—Glasgow was badly fire-scarred today, after a fierce blaze, one of the worst in the history of Scotland, which last night destroyed Kelvin Hall, famous exhibition building, and the Kelvin Grove Free Church, damaged 100 houses, and threatened the lives of hundreds of persons. The first started in Kelvin Hall, which was erected at a cost of \$200,000, and quickly swept through the flimsy structure. The Kelvin Grove Church, a quarter of a mile from the hall, was ignited by sparks. It was a reproduction in miniature of the famous Rheims Cathedral with two huge towers fronting on the street. These crashed to the ground and the whole roof caved in. From Kelvin Hall a strong wind blew the flames across Blantyre street to a row of tenement houses which were badly damaged. The tenants fled in terror, carrying a few hastily snatched belongings. Other houses were ignited by sparks and at one time six separate fires were blazing. Only two casualties were reported, one the injury of a fireman and the other of a young seaman, who suffered a lacerated hand from falling glass while engaged in rescue work.
