

CITY SCHOOLS WILL REOPEN ON AUGUST 21

Trustees Hear Delegation and
Give Children Compromises

G. HERBERT GREEN
NEW TRUANT OFFICER

Sixty-two Applied for Position—Tenders for \$480,000 Bonds Accepted.

Resolving the previous motion that the city schools should reopen on Aug. 26, the Board of School Trustees at its meeting last night fixed the date of opening for Aug. 31. The board considered 62 applications for the position of truant officer, made vacant by the death of J. Boyd McMann, and appointed G. Herbert Green, who will resign from the School Board to accept the appointment. Two tenders for \$480,000 bonds for the vocational school were received and the joint tender of J. M. Robinson & Sons with Thomas, Armstrong & Bell, Limited, was accepted at \$9.39. It was said to be the first time in many years in which school bonds had sold for less than par.

H. A. Porter presided when Dr. L. M. Curran, chairman, was called away. Other trustees present were Mrs. D. F. Chisholm, Michael Coll, H. Colby Smith, E. R. W. Ingraham, Allet A. McIntyre, G. H. Green, S. W. Palmer and S. A. Worrell, acting superintendent, and A. Gordon Leavitt, secretary.

DELEGATION HEARD.

A delegation from the Women's Council composed of Mrs. A. W. Estey, Mrs. E. A. Young, Mrs. J. D. Seely, Mrs. A. C. D. Wilson, Mrs. L. Isaac, Mrs. R. S. Sime, Mrs. J. H. Doody, Mrs. G. Stubbs, Mrs. George Gray, Mrs. MacKinnon, Mrs. McDermott and Mrs. S. A. Worrell, acting superintendent, and A. Gordon Leavitt, secretary, were heard by the board. Mrs. Estey, president, spoke for the delegation, urging the extension of the school holidays until after Labor Day. She said an extension beyond Aug. 29 had been granted in St. Stephen and Moncton. Her plea was supported on behalf of the children. Mrs. R. S. Sime as a mother endorsed the extension, saying school work was so hard longer holidays were needed. Mr. Porter asked if the request was not in effect to make the children do in 89 weeks what they found difficult to do in 41 weeks. He also asked if many of the mothers and children the council could speak for. He did not think the delegation would represent more than 1,000 of the 8,000 children. Mrs. Stubbs said she believed she could speak for 80 mothers in Fairview and this summer when weather had been so bad the extension was really necessary. Mr. Porter said the School Board had a duty to provide the stated period of school days. The law limited the holiday period in summer to eight weeks. The matter was discussed at length by the trustees and members of the delegation.

MATTER OF SALARIES.

The teachers lose from \$2 to 70 cents of government grant for every school day on which they do not teach and it was stated that the School Board would be paying out \$14,000 in teachers' salaries for the days on which there was no teaching if the longer period of holiday to Sept. 9 were granted. After the delegation had withdrawn and the business before the meeting had been dealt with it was decided to make a compromise between the date originally decided upon and the late date asked by the delegation. On the motion of Mr. Smith, seconded by Mr. Palmer, Aug. 21 was named as the date for the reopening of the schools. Authority was given for opening a higher grade in Lorne St. Patrick's and Holy Trinity schools.

NEW TEACHERS.

Three teachers were appointed to the reserve staff, the Misses Christian, Campbell and Ring. Leave of absence was granted Miss Julia Neel and Miss Olive Kingston's resignation was accepted. The Western Union Telegraph Company inquired whether the late J. Boyd McMann's widow had been been due to collision with a messenger boy, would have been eligible for pension from the Board. The company had been informed this was the case.

SCHOOL BONDS.

Tenders were received for vocational school bonds—\$200,000 for 40 years and \$100,000 for 25 years; all at 5 per cent. Two tenders were submitted, both being considered low. Eastern Securities tender was \$9.15 for entire issue or \$9.20 for half the issue. A joint tender of \$9.39 was submitted and accepted from J. M. Robinson & Sons, Limited, and Thomas Armstrong & Bell, who undertook to receive \$150,000 of the bonds immediately and the remainder as required.

APPLICATIONS.

Applications for positions on the teaching staff were received from Miss Sadie C. Chapman and Miss Gertrude Shea, Saint John; F. Gordon Lawson, Edmundston, and Miss Julia T. Crawford, present the board for leave of absence. Petitions from the Women's Council and residents of Fairview and letters from Mrs. R. L. Sipperell, Mrs. W. H. Hayward and Stanley C. Webb urged an extension of school holidays. All these were ordered filed.

REPORTS ON BUILDINGS.

The G. W. V. A. sent an endorsement of the application of Thomas B. Donahue for the position of truant officer.

A COMPLAINT.

W. E. Scott having complained of the kind of wood used in the fence between his property and Lorne school, and the matter of the payment for the work not being clearly understood the chairman of the

It is angling law that each man should clean his own fish—and every fisherman should use

SNAP
to remove the odor of fish from the hands

Finance committee and visitors were asked to look into the matter. Authority was given for erecting a partition in the old Albert school to shut off the upper storey, which is not used. The estimate cost was \$50.

TRUANT OFFICER.

A motion that the appointment of a truant officer should be left to a special meeting when there would be a larger attendance was lost. There had been 62 applications received. Each member of the board chose three candidates and balloting took place on the 15th so nominated. G. H. Green was finally selected. His appointment was to date from September 1 and the salary was to be \$1,250 a year. Mr. Green expressed his thanks for the appointment and said his resignation from the board would be sent to the City Council at once. He had served the city with out remuneration for 33 years as a member of the Salvage Corps and for 10 years as a School Trustee.

Hundreds Clear Land For Quebec Erection

QUEBEC, Aug. 11—Hundreds of men are already engaged in clearing the land at Chateau Caron for the erection of the huge aluminum plant which is to be built in the Chicoutimi district by the Canadian subsidiary of the Aluminum Corporation of America. The site of the projected city, which it is planned will have a population of 80,000 souls within a few years, has been definitely chosen.

BRITONS DOUBT AMERICA CLAIM

Question Reputation of Engine to Travel 112 Miles an Hour.

High Speeds Attained by Trains in United States and the Old Country.

LONDON, Aug. 12—America's claim to train-speed supremacy is being contested by the British.

The famous old New York Central engine, No. 999—which is reported to have once run at a speed of 112 miles an hour—is now declared here to be a gross exaggeration. In fact such a speed is declared to be an impossibility by any steam engine, old or modern.

There seems to be no record of any speed by a steam engine materially in excess of 80 miles an hour, and not a single proved instance of a train ever having reached 100 miles an hour, according to British data.

The time tables of trains throughout the world show only 60 trains which average 60 miles an hour over any considerable distance. Twenty-two of this number are in the United States, seven in England and one in France.

English Train Speeds.

But the American high speeds are made over relatively short distances—30 miles and under at the stretch—while the high speed English trains are over distances of 60 miles and more. Five of England's fastest trains are on the Great Western Railroad. Of these five, two cover the 106.9 miles from London to Bath in daily trips at an average speed of 61.1 miles an hour. The 62 miles between Princes Risborough and Leamington is regularly covered in an even hour's running.

Between London and Swindon there is also an exceptionally fast speed made, where the service maintains an average speed of just under 62 miles an hour, including starts and stops. This necessitates a high speed between

Tug Sunk In Collision In Vancouver Harbor

VANCOUVER, Aug. 11—The 30-ton motor tug Hustler was sunk in the harbor here this morning when the Japanese freighter Kaskya Maru crashed into her during a dense fog accompanied by dense smoke from forest fires.

Two men aboard the tug were saved. In addition the freighter struck an 18-inch water main, cutting off part of the water supply from the Point Grey district.

BAZAAR IN BATHURST.

End Catarrh Germs In Three Minutes

Chronic catarrh, no matter how bad, and cases of bronchial asthma now yield instantly to the amazing discovery of a French scientist. This drugless method called Laves eliminates the germs in three minutes, yet is positively harmless to the most delicate tissues. Your head and lungs are cleared, like magic. Sufferers are relieved in a few minutes. To prove it and to introduce Laves to ten thousand sufferers in one month, I offer to send a treatment course free of charge to any one who will write for it. No obligation. No cost. If it benefits you, you can return the favor by telling me. No matter what you have tried, send me your name and address for this generous free treatment. Write to: Dr. J. B. Laves, 4427 Laves Bldg., Kansas City, Mo.

Be Careful, Madam

Palmolive complexions do not come from other sorts of "olive oil" soaps

WE have led millions of women to expect fine complexions from olive and palm oils, as used in Palmolive Soap.

They have gained added beauty and fresh, clear skins. But some credit those results to olive and palm oils alone. And any "olive and palm" soap may claim to be a soap like Palmolive.

They are mistaken. Olive and palm oils have been used for ages. Cleopatra used them—Roman beauties used them. Castile soap—the real castile—attained its fame on olive oil alone.

But olive and palm oils in those forms never brought great results. Palmolive Soap has brought new beauty to millions. It has thus become the leading toilet soap of the world.

It is made in five countries to supply the world demand. And one is France—the home of fine cosmetics.

Just because Palmolive, based on 60 years of soap study, gives to these oils a new effect on the skin.

It has multiplied beautiful complexions. Now many times as many women keep their youth and charm.

There are soaps at 25 cents and over, which approach Palmolive in results. We know of two. But Palmolive sells at 10 cents—no more than ordinary soaps. Enormous production brings you this modest cost.

Now countless "olive and palm" soaps are offered for like purpose. Some have artificial colors, some are over-fatted. They will cleanse, if you want mere cleansers. But don't expect such soaps to bring Palmolive results to the skin. That is impossible.

Note the unnatural "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it.

Olive and palm oils—nothing else—give Palmolive its delicate, natural color: Olive and palm oils—no other fats whatsoever—are used in Palmolive.

No "super-fattening," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

Wash, launder, cleanse with any soap you wish—but when beauty is at stake, take care. Use Palmolive, a soap you know is safe to use. Palmolive is nature's formula to "Keep That Schoolgirl Complexion."

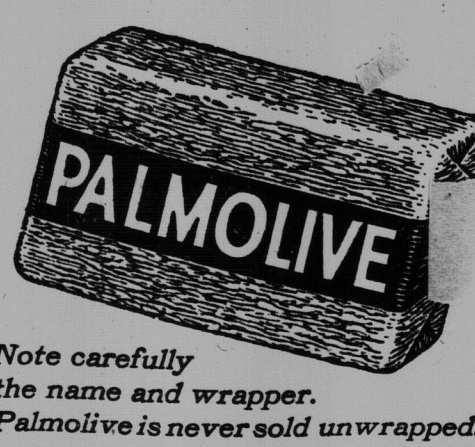

Soap from Trees

The only oils in Palmolive Soap are the soothing beauty oils from the olive tree, the African palm and the coconut palm—and no other fats whatsoever.

That is why Palmolive Soap is the natural color that it is—for palm and olive oils, nothing else, give Palmolive its green color!

The only secret to Palmolive is its exclusive blend—and that is one of the world's priceless beauty secrets.

(MADE IN CANADA)

Note carefully the name and wrapper. Palmolive is never sold unwrapped.
