

RADICAL SEX BILLS URGED IN CONNECTICUT

But "Miss Elsie Hill," Now
Wedded, Meets Hostility
in the Legislature

Hartford, Conn., March 20.—"Miss Elsie Hill, Chairman of the National Woman's Party, will now speak," was the introduction by Mrs. Nathan D. Hill, of Meriden, legislative agent of the party, who had opened a crowded hearing before the Legislative Committee on twenty-three bills of radical character seeking to level the statutes concerning men and women—level them upward, according to Mrs. Hill.

"Isn't your name Mrs. Levitt?" demanded Representative Bell of Salisbury of the representative of a former Congressman, the late Ebenezer J. Hill of Norwalk.

"My name is Miss Elsie Hill," came the reply. "My bank account is in the name of Elsie Hill. My husband's name is Alfred Levitt, professor at Yale University."

In her arguments for the bills, against which the committee was openly antagonistic, Mrs. Levitt cited the case of Peggy March and Marshall Field as a glaring case of woman's inequality, and argued for the passage of a bill making the father equally responsible with the mother for illegitimate children.

For a bill making women eligible for jury duty, Mrs. Levitt said women should be jurors in the most disagreeable sex cases, mentioning the case of Richard, accusation, where, she said, little girls were forced to testify to a crowded courtroom of men with not even a matron present.

Another bill which would, in cases of divorce, permit either husband or wife to change his or her name, Mrs. Levitt referred to a committee inquiry, "I should think Banker Jim Stillman would want to change his name."

She objected to sex distinction in the matter of hours of employment. She said she was the best automobile driver she knew, except the person who taught her, and in the event of a social revolution she would "hope to be of some service."

Outside of New Orleans, where the difference between wages for men and women averaged \$10 a month, she declared New Haven was the worst city in the country, the difference being \$200 to \$300 a year. She believed the hours of employment limitation should be laid on an industry rather than on sex.

There was outspoken male opposition to a bill giving husband and wife the right to sue each other, even for minor household accidents and negligence, members of the committee saying the measures were "as cold as steel in winter."

They objected also to a bill giving a woman the right to name her own domicile, regardless of her husband's legal residence.

Wanted—Good Wine Drinker
A Great Chance For Someone.
"Old Fashioned Beadle" Is
Wanted in London.

London, March 9.—(By Mail).—There is a job going in the City of London for a beadle.

A "genuine old fashioned beadle" is required by the Worshipful Company of Armourers and Brasiers, because James Bailey is retiring.

Mr. Bailey must be one of the oldest beades of the ancient city companies, for, attired in his black gown, he has attended upon the Worshipful Master and Wardens at the Armourers' Hall in Coleman street for 44 years.

A newspaper man who was making some enquiries was informed by Sir H. T. Clark, clerk to the company, that the position is not to be sneezed at. "Our beadle is a glorified parochial beadle of aristocratic type," he declared.

"He has to attend upon all members taking up their Freedom of the City. Another of his duties is to be toast-master at the banquets, and that is why preference will be given to an applicant who is of good physique and voice."

Mr. Pitt humorously remarked that he should also be a "good wine-drinker."

The retiring beadle is still hearty at 75 years of age, but his voice is losing its beadle's ring, and a younger man is required.

FOUND WONDERFUL RELIEF FROM CONSTIPATION BY USING MILBURN'S LAXA-LIVER PILLS

Constipation is one of the most prevalent troubles the human race is subject to, and is the greatest cause of many of our ailments, for if the bowels cease to perform their proper functions all the other organs will become deranged.

Keep your bowels working gently and naturally by the use of Milburn's Laxa-Liver Pills, and thus do away with the constipation and all other troubles caused by it.

Mrs. A. R. Spence, Springhill, N. S., writes:—"I have suffered for some time from constipation, and was advised by a friend to try Milburn's Laxa-Liver Pills. After taking a vial of them I have found wonderful relief, and would advise all those who are constipated to give them a trial, for I feel sure they will also receive the same benefit I did."

Price 25c a vial at all dealers on mail order receipt of price by The J. C. Milburn Co., Limited, Toronto, Ont.

SNOWBOUND TRAVELERS.
Halifax Herald.—First hand passengers of the Prince Edward Island steamer made the best of the ferry steamer as a hotel. Altogether about 120 people crossed to the mainland on a special train carrying twenty commuters Saturday afternoon at 4 o'clock on the first train that had been able to get through to Borden in more than two weeks. In an interview with The Herald, D. Rutherford said he and his fellow travelers had been held in Charlottetown fifteen days. About sixty people were marooned at Borden, while sixty-five lumbermen were unable to get accommodations in the

The death took place in St. John's Saturday morning of Mrs. John T. Kitchard. She leaves nine sons and one daughter. The sons are: Docty, Tillman, Leon, Alphe, Napoleon, Amede, at home; Andrew in Montreal; Fred, New Jersey; Ernest, of St. John; one step-son, Eugene, of Hackensack, N. J., and one daughter, Mrs. Frank D. Cornier, at home.

The twin cities of St. Paul and Minneapolis are to have the first noiseless street cars in the world. At least, such is the plan of the Twin City Rapid Transit Company, which has been conducting experiments at its St. Paul shops with this objective according to an announcement today by Mr. McGill, vice-president. Trucks are being made at the shop which are equipped with roller bearings and will be installed under cars in a few days.

"We are endeavoring to give our cars this ultra-modern touch, and believe the design now being used in the experiments will solve the problem," Mr. McGill said. "The roller bearings will make the cars virtually noiseless and will save the company a large item in power."

According to Mr. McGill, the roller bearings will make street car operation almost as noiseless as eight-cylinder automobiles. The noise from the truck shafts and save 12 to 15 per cent. of the power, enable operators to start and stop cars more quickly, and speed up the service.

AN ENJOYABLE PLAY.
The Young Ladies' Bible Class of St. Matthew's church presented an enjoyable play, "Twelve Old Maids," last night. The roles were excellently taken and an audience which completely filled the auditorium of the church was greatly pleased with the performance.

A pleasing incident took place during the evening, when Mrs. W. H. Spencer, the wife of the pastor and teacher of the class, was given a banquet, on behalf of the young ladies, by Miss Jennie Keim. Between the acts Misses Pauline and Florence Seagle gave a piano duet, and the C. G. L. T. girls added candy.

The cast was composed of the Misses Margaret Keim, Winnifred Morrison, Vera Brooks, Clara Devenne, Helen Robinson, Mac Brooks, Marion Devenne, Jennie Robinson, Muriel Smith, Marjorie Smith, Marion Daley, Madeline Daley, Ida Smith, Alice Nickerson, Agatha Lahey and Margaret MacLean. Miss Jennie Keim was accompanist.

An excellent musical programme was given, consisting of numbers by the Misses K. Fox, Vickers, McLaughlin, Willa McCallum, Mrs. V. R. Henderson and Clyde Parsons.

Owing to the illness of Rev. J. A. Swetnam, pastor of the Waterloo street Baptist church, the special services being held there this week are being conducted by the other Baptist ministers in the city. Rev. Mr. Swetnam last evening expressed his appreciation of their kindness in so assisting him. Last evening the service was conducted by Rev. G. D. Hudson and E. Cosman acted as musical director.

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is
Child's Best Laxative

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well, playful child again. Even if your child is bilious, constipated or full of cold, children love its "fruity" taste, and mothers can rest easy because it never fails to work all the souring food and nasty bile right out of the stomach and bowels without griping or upsetting the child.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

Acids in stomach
Cause indigestion

Create Gas, Sourness and Pain
How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

town and made the best of the ferry steamer as a hotel. Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked and greasy. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

BEAUTIFUL HAIR IN A MOMENT

Try This! Hair Appears Soft,
Colorful and Abundant
—A Gleamy Mass

35 Cent Bottle of "Danderine" Also
Ends Dandruff; Falling Hair!

Immediately—your hair becomes beautiful. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil. In a few minutes you will be amazed. Your hair will be wavy, fluffy and possess an incomparable softness, lustre and really appear twice as thick and abundant—a mass of luxuriant, shiny, colorful hair.

Besides beautifying the hair, Danderine eradicates dandruff, invigorates the scalp, stopping itching and falling hair. Danderine is the best, cheapest and most delightful hair corrective and tonic. It is to the hair what fresh showers of rain are to vegetation. It goes right to the roots, vitalizes and strengthens them. Its stimulating properties help the hair to grow long, heavy, strong.

You can surely have beautiful hair, and lots of it, if you will spend 35 cents for a bottle of Danderine at any drug store or toilet counter. It is not greasy, oily or sticky.

The banana produces more food to the acre than any other plant. Its yield is about fifty times more than the potato, and about one hundred and fifty times more than wheat.

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but it is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than in male children.

DR. WOOD'S
NORWAY PINE SYRUP
is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the clogged-up air passages and soothes the inflamed throat. It has collected, and in this way brings on the "whoop" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. W. H. Mahan, Kenilville, N. S., writes: "My three children had whooping cough. I tried every medicine I could think of until an old gentleman told me to try Dr. Wood's Norway Pine Syrup. Before they had one bottle taken the cough seemed better, and after two bottles, they were about well. It loosened the cough and relieved them of that hard, distressing and strangling feeling that goes with it."

"Dr. Wood's" is 35c and 60c a bottle. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

LEAVES FORTUNE TO HIS SECRETARY

Poet Made Some Remark-
able Provisions in His
Will—Asked to be Buried
in Old Travelling Carpet.

London, March 9.—(By Mail).—Some remarkable provisions are contained in the will of Mr. Wilfrid Scaven Blunt, the poet and traveller, who died at Black in box, containing MSS., not to be opened for 30 years.

One thousand dollars to a Franciscan monastery chapel.
One thousand dollars to Quaker burial ground.
One thousand dollars for Mohammedan mosque in Cairo.
Five thousand dollars and bungalow to his nurse.

Residue of his property to his private secretary and niece, Miss Margaret ("Dorothy") Carleton.

Miss Carleton's legacy includes all his letters, papers and copyright; his residence, errand, and about 30 acres in the New Forest; his farm stock, and the use for life of Springfield Park, his Newbuildings estate.

To Mr. Hilary Beloe, Mr. Blunt left his "Froissart's Chronicles," in four volumes (1874 edition).

The mystery box referred to is in the collection of the Fitzwilliam Museum, Cambridge, and is left in trust on the condition named, to Sydney C. Cockrell, of that museum, who also receives a bequest of \$2,500.

A provision of the will already carried out was his burial in Newbuildings Wood, "wrapped in my old Eastern travelling carpet, and without coffin or casket." He left \$50 to each man engaged at the funeral.

**NEW ANESTHETIC
EXPECTED TO BANISH
"LAUGHING GAS"**
Chicago, March 20.—Announcement was made recently of the success of a new anesthetic, discovered four years ago by accident and perfected by constant research ever since. It has been tried in many surgical cases in Chicago hospitals. It is said this discovery will banish laughing gas, that it deadens pain and that no bad after effects are felt by the patient.

In 1908 a Wisconsin florist was notified that the carnations he was shipping to Chicago were arriving in poor condition. They were closed as if they had "gone to sleep." Scientists found that ethylene gas, trapped by the use of illuminating gas, was responsible. Then followed experiments on animals. There was no nausea or objectionable symptoms after the animals recovered. Then the scientists tested the new gas on themselves with satisfactory results, after which they tested surgeons were called in and the new gas was tested in hospital cases.

One of the greatest handicaps in the use of nitrous oxide, or laughing gas, is that it had to be given in such quantities that insufficient air was obtained by the patient and asphyxia sometimes resulted. With the new gas there is no choking or gagging, and a few whiffs renders the patient unconscious from twenty minutes to half an hour. It will be especially valuable in obstetrical work, where nitrous oxide is prohibited, it is said.

The banana produces more food to the acre than any other plant. Its yield is about fifty times more than the potato, and about one hundred and fifty times more than wheat.

Young Girls Need Care

FROM the age of twelve a girl needs all the care the thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time.

If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter make life easier for her.

Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions. It can be taken in safety by any woman, young or old.

Read How These Mothers Helped Their Daughters

Vancouver, B. C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and is quite all right now. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all." Mrs. J. McDOWALL, 2947, 25th Ave. East, Vancouver, B.C.

Hamilton, Ontario—"When my daughter was thirteen and until she was fifteen, she suffered every month so that she could hardly move around the house, and when she would have the pains in school she would have to be carried home. She also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She works in a candy-shop now and seems well and strong." Mrs. L. P. CLARKE, 88 Oxford St., Hamilton, Ontario.
