

NEW BRUNSWICK'S GREATEST SHOE HOUSE

Spring Walking Boots For Men!

Waterbury & Rising "Special"

\$4.00 to \$6.00 PAIR

The New 1911 Styles are Now in Stock.

Exclusive Styles.
Perfect Fit.
Superb Shoemaking.

If you have never worn a Waterbury & Rising "SPECIAL" you should try at least one pair—and to try them is to like them.

WATERBURY & RISING

King Street Union Street Mill Street

TOOTH BRUSHES

Each in a sealed package. Cleanly, sanitary, dainty. Selections made from samples. Price Twenty-five Cents Each.

S. H. HAWKER'S, Prescription Pharmacy, Cor. Paradise Road and Main St. THE TRANSFER CORNER.

DIAMONDS

I have just arranged for a lot of Diamonds at old Time Prices. You will find these values better than generally offered.

GUNDRY, 79 King Street

A GREAT MANY TIMES

Some people are right, and some are wrong. There's no need to be wrong. You can be right by using our watches; you'll have the right time, and at the right price. It's money wasted buying time that you can't rely on. For correct time use our watches and clocks. We guarantee each one sold. One very fine 1st Diamond at \$10.00. Watch work a specialty. Clocks and Jewellery Repaired.

A. & J. HAY - 79 KING STREET

The Street Railway Extension

To the Editor:

Sir—The account of the action of the special committee of the municipal council and highway board taken in reference to the St. John street railway's request for permission to operate its services in the city of St. John, as reported in the Daily Telegraph, this date, if correct, is surely in direct line with the interests of the city.

The gentlemen are certainly men of business and are using good business methods in dealing with this matter. It would appear that the street railway has been having its own way too long, until free to become like a spoiled child; if it cannot get just what it wants, it won't take that which is offered, and which would appear far better for its own interest.

Let any disinterested party take a view of the two routes in question. One has a very steep grade and is composed of solid rock; the other is nearly level, with (except for a short distance) good working material. Again, one road would accommodate the visitors to Fenhill cemetery, in the summer time, and the residents of three houses; the front, or Marsh Road would also give a service to Fenhill cemetery, the residents of a great many homes, the general public and if Moose Path Park could be used as a baseball grounds, the cars would not be able to hold the crowds that would use the service during the summer. Would not the revenue received not only pay the running expenses, but give the railway company a little surplus which would help them to pay any imaginary loss on the other branches?

This road would not have to be closed in winter, as the company intend doing with the other (back entrance) the railway management feel that they are about to confer a great favor upon the parish of Simonds by increasing the value of real estate. Whose real estate? The street railway company? The real estate owned by the gentlemen representing the parish will meet with heavy approval of men.

the residents and tax-payers of the Parish of Simonds.

Thanking you, Mr. Editor, for valuable space, always yours,

PRO BONO PUBLICO, St. John, N. B., Feb. 23.

Grows Hair Abundantly

It is an age of new discoveries. To grow hair after it has been cut off today is a reality.

SALVIA, the great Hair Tonic and Dressing, will positively create new growth of hair.

If you want to have a quantity of hair, free from dandruff, and to have it grow like a bush, use SALVIA once a day and wash with the tonic.

SALVIA is guaranteed to stop falling hair and restore the hair to its natural color. The greatest Hair Tonic known. At Ricker's Drug Store.

AS ONE MAN.

It was a stormy night, and the audience of Professor Chestnut, mind-reader and prestidigitator, was composed exclusively of men and boys. The lecture had begun at half past seven, and it was nearly an hour later when Professor Chestnut began his exhibition of mind-reading.

"There is a man in this hall," he said, gazing at the ceiling for inspiration, "whose mind I can read like a book. He means well, is a good father and a kind husband; active in the church and an town affairs. He has only one fault; I can see—he is forgetful."

"This very thing," the patient, hardworking wife asked him—

"There was such a sound of snuffing and tramping in the hall that the mind-reader paused, and the boys were moved up toward the front."

"It's yeast-cake night," cried the small boy, "and the store'll be closed in ten minutes! Say, mister, read our minds before they get back!"—"Youth's Company stock is not any higher than last spring, ranging from \$4 for pigs; four and five cents; and \$5 and \$6 for those two months old."

POWER BOAT CLUB SMOKER.

The last smoker for the season of the St. John Power Boat Club, which was held last night, was a great success. S. Perov, the commodore, was in the chair and spoke of the plans for the coming summer, which he hoped would be very successful. There was an orchestra of soloists. Following was the programme: Orchestra, song with piano accompaniment; P. Whelan, accordion solo; W. L. Brown, singing; George Titus, comic solo; J. Myers, piccolo solo; selection by the orchestra; Hugh Campbell, solo with orchestra accompaniment; A. G. Rennie, short travel talk; Blake McInerney, reading; Wm. Harley, dancing; Mr. Ingraham, reading; Roscoe Bond, horse solo; Mr. Totten, dancing; H. Howe, comic solo.

IN PARLIAMENT.

Ottawa, Feb. 23.—The debate on reciprocity was resumed in the house of commons today by Dr. Clarke, a western Liberal and an advocate of free trade. He declared reciprocity meant prosperity for Canada, Richard Blain, of Peel, followed in opposition to the agreement and Mr. Mulloy, a western Liberal declared the manufacturers were financing the newspaper campaign.

Major Beattie, of London, has given notice of a new flag-raising resolution. He asks the house to adopt regulations that wherever a foreign flag is raised in Canada, a Union Jack of equal size must be hoisted with it and given the more prominent position.

Ottawa, Feb. 23.—The government has renewed for a year the contract for a fortnightly steamship service by Pickford & Black from St. John and Halifax to the West Indies.

THE MILKMAN'S FIR.

Boy—"What is a white lie, Pop?"

Father—"Most of the milk we buy, my son,—'Lippin' it."

IN 1898

The London Lancet, after a careful examination of

Scott's Emulsion

reported that "the preparation fulfills ALL the requirements and presents ALL the conditions of a very satisfactory emulsion. In appearance and consistency it is not unlike cream and under the microscope the fat globules are seen to be of perfectly regular size and uniformly distributed. So well has the oil been emulsified that even when shaken with water there is no slow separation. The taste is decidedly unobnoxious and the Emulsion should prove an excellent food as well as a tonic."

We believe no other preparation of Cod Liver Oil has received such weighty commendation and the same high authorities were to examine no other emulsion and find it finer, more digestible, more palatable and more satisfactory in every way; in fact, SCOTT'S EMULSION was so long as the one satisfactory and perfect Emulsion that it is accepted as the standard by medical practitioners all over the world, by the public and by hundreds of imitators, for it is the one and only Emulsion limited.

The imitations are in name only for no other preparation of Cod Liver Oil is so pure, so perfect and so beneficial.

SCOTT'S EMULSION

has become the world's Standard Body-Builder because of the perfect purity of its ingredients, its absolute freedom from ALCOHOL, or any other harmful substance and because the results from it are uniform and far greater than from any other preparation.

ALL DRUGGISTS

The Evening Chit-Chat

By EUTH CAMERON

I HAVEN'T forgotten that this column is to be occasionally dedicated to telling something about unique occupations for women. I'm simply waiting for some of you people to tell me of unusual occupations of which you know.

In the meantime I have a suggestion along that line to make. It isn't anything that anyone I know of ever did.

Why couldn't some woman with an eye for clothes and fashions and some artistic sense start a "sartorial bureau"?

I don't believe one woman in ten gets anywhere near the possible value out of the money she puts into her clothes.

By "possible value" I mean the full value in attractive, new, suitability, style and wearing qualities that could be gotten out of that money by someone who really understood the art of clothes.

The business of this "sartorial bureau" would be to supply each woman advice, and when desired, actual oversight in clothes buying.

Perhaps an illustration will make my meaning plainer.

Miss H. is a stenographer who has a very good salary and who spends about \$300 a year upon her clothes. That ought to purchase her a pretty wardrobe but she is a woman without that sort of sixth sense which some women have—the clothes sense—and she does not have time to study up styles and lines and colors and materials, and consequently she never seems to get just the "right" things, and is seldom as well dressed as Miss L. who has about half as much money to spend but much more time and taste.

So Miss H. goes to the sartorial bureau. She goes at the beginning of the season and announces that she has \$120 to spend on her winter wardrobe.

Now the sartorial bureau, according to my idea of it in its completeness, consists of a good executive head with a staff of women, some of whom have artistic ability, some of whom are particularly well-versed in styles, and two or three who thoroughly understand materials and the art of shopping.

Miss H. is received by the executive head who plans the spending of the money in a general way. She is then handed over to the artistic woman who tells her what colors and lines she should use, and finally consults with the authority in styles who goes over fashion books with her, and suggests becoming styles.

For all this advice she pays a portion of the amount to be spent, say about four per cent.

If after this she desires the services of a shopper these are supplied at so much an hour.

Perhaps her whole bill from the bureau is seven dollars and at this expense she makes sure of a winter's wardrobe indubitably more stylish, more becoming, and more thoroughly "right," than she has ever had before.

Of course, I realize that such a staff could not be maintained, until a large business had been built up, but I think the business could be started by a woman who had taste and a good amount of that sixth sense, and who combined to a certain extent all the necessary capabilities.

Of course the larger part of her customers would be women who had a good deal more money to spend than Miss H., but I cited her case more to show the value of such an impossible scheme, I wonder.

Reformed Baptist church, Carleton street (near the Free Public Library and the Young Men's Christian Association) this church next Sunday evening will be under the leadership of Mr. J. F. Bullock, assisted by Mrs. Colwell, organist, and Miss Smith, pianist.

The seats are free, and the members of the church are requested to come early in order to obtain seats.

Service from 7 to 8:30 p.m. Rev. G. B. Traflet, pastor.

HAYMARKET FAIR

Mich Cows Scarce—Much Hay in and Tending Downward—Fine Young Pigs Shown

There was a scarcity of new milch cows at the Haymarket Fair yesterday. An abundance of hay, some of it of excellent quality, some indifferent, was for sale. The excellent winter hauling has induced many farmers within 20 miles of the city to send their surplus hay to the market and the result is that prices have a downward tendency for some time to come.

The scarcity of new milch cows has forced at the price up, and for a real good milch cow as high as \$60 and \$70 has been paid.

Because of the scarcity of milch there was not an actual force of young pigs. P. S. Carter, of Fair Vale and Messrs. Barrett and Gordon of St. John county, showed some fine ones.

The price of young stock is not any higher than last spring, ranging from \$4 for pigs; four and five cents; and \$5 and \$6 for those two months old.

POWER BOAT CLUB SMOKER.

The last smoker for the season of the St. John Power Boat Club, which was held last night, was a great success. S. GREAT CONGRESS OF ALL RACES

Representatives of Fifty Countries to Meet in London in July

London, Feb. 24.—A unique congress, to be known as the Universal Races Congress, is to open in London on July 26.

This congress, which will last for three days will be a romance of realism. All mankind will then assemble in council in the very heart of the British Empire.

The originator of this congress is Dr. Felix Adler, of Columbia University, in New York. In the summer of 1906 a conference was convened at Eleusis, when it was declared that, though the modern conscience had advanced in general sensitivity and strength, it is nevertheless internationally weak. The modern conscience is indeed at last becoming alive to what are known as social problems in the interior life of the community, yet it has not learned to apply itself with adequate power to the problems presented by racial divisions.

In order to remedy this growing evil, the Universal Races Congress will be convened in London, and its prime object will be to cultivate mutual knowledge and respect between Occidental and Oriental peoples.

The British Government has given this congress its moral and material support, and the invitations to the foreign states have been despatched through the agency of the permanent court of arbitration.

The number of races that will be represented may be gathered from the fact that, some fifty countries have promised to send delegates. There will be present more than twenty-five presidents of parliaments, the majority of the members of the permanent court of arbitration and of the delegates to the second Hague conference, twelve British governors, eight British premiers, over forty colonial bishops, about 100 professors of international law, the leading anthropologists and sociologists, the officers and majority of the council of the Inter-Parliamentary Union, and other distinguished persons. Among

Every statement concerning Red Rose Tea is made most carefully.

Every claim that has ever been advanced has been fully borne out by the tea itself. You, if you use it, have always found it good tea. So good that no other tea pleases you as well. You may try substitutes but you always return to Red Rose simply because it has the fine quality and full value that pleases and satisfies.

RED ROSE TEA

"is good tea"

Prices: 30c., 35c., 40c., 50c. and 60c.

those who will read papers will be several prominent Hebrews.

Israel Zangwill will discourse on Jews among the nations; Dr. L. L. Zamanoff, the author of Esperanto, will discourse on international language; and Edwin D. Mead, of Boston, director of the International School of Peace, will speak on the organization of a world association for encouraging inter-racial good-will. Dr. Moses Gaster will represent the Royal Asiatic Society.

Summer visitors to Matane have been impressed with the possibilities of

Quebec, Feb. 24.—Survey work, which has been going on throughout the winter on the Canada & Gulf Terminal Railway, from the steel end at Matane to Gaspe, has progressed sufficiently to assure a sixteenth line throughout the peninsula, and construction of the road is expected to start early in the spring.

Sounding, tidal observations, etc., by government and railway engineers at Gaspe Basin this winter are said to have supplied all doubts as to the feasibility of the basin as a winter port, a depth of more than forty-five feet of open water the year round being found where it is proposed to construct a wharf to cost upwards of \$60,000. The portion of the Canadian & Gulf Terminal now being operated from St. Flavie to Matane, which was opened in December last, has developed an enormous amount of traffic, both in freight and passengers.
