Humphrey on Port street. The ornamental tops to the gate posts were knocked off and thrown onto the lawns. About 2 o'clock in the morning a cab was heard in front of the residences.

Thos. O'Connell, Jr., who has been on a boundary line survey party, working back of Juneau for the past five months, has returned to Nanaimo. Mr. O'Connell's party spent most of the summer along the Whiting river. The country is very mountainous here and seldom is a white man encountered. There are traces of the Russians found at different places, showing that the country was once traversed by the country in the earlier days, as evidence of which Mr. O'Connell brought back an old horse pistol, about two feet in length, dating back to the beginning of last century.

Thursday C. M. Dull, of the Crofton smelter, registered at the Driad hotel. In an interview he stated that the smelter was running full blast despite the inconvenience caused by the strike of labor. He announces that there is an increased output from the Britannia, five hundred tons being raised from that source daily. In addition one hundred and fifty tons are coming from the Mount Andrew mine, Prince of Wales Island, Alaska. The problem which now confronts the management, he asserts, is the handling of the increased output. More rolling stock would have to be procured without delay.

Among recent arrivals in the city is Leo Lefebvre, a member of the Geographical Society of France, who is making a tour of the United States, Canada and Alaska in behalf of the government of his country. His Lordship refused the application and Oikawa remains in custody.

Dr. Milne, Dominion medical inspector and immigration agent, intends to take measures which will prevent touching of the grain wheat upon the arrival of ocean steamships. Dr. Milne believes that it is not a very good advertisement for Victoria to have a party of hotel agents, baggage men and others great visitors to the city, with a pantomimic of cries and solicitations, and he says he will make an effort to have these practices regulated in the near future.

There will be no practice of the Victoria Men's Hockey Club to-morrow afternoon at Oak Bay, as the grounds will be used by the Rugby and Association clubs for matches. On Saturday, November 3rd, a full practice will be held, and every member is requested to be on hand at 3 o'clock promptly.

After having drifted all night on the bottom of an overturned fishing boat, two Japanese fishermen were picked up Wednesday morning by a couple of the employees of the Fraser River mills. The plucky little brown men had to be helped into the boat by their rescuers, but as soon as they had secured their upturn kick, took hold of the oars and helped their rescuers to row back. The story the Japs told was that they were fishing in the vicinity of the Mission bridge about dusk, when suddenly as they put up their sail a squall caught them broadside on and upset their boat.

On Wednesday evening the members of Victoria West Lodge, L. O. G. T., held their usual weekly session, when they were visited by the members of Triumph Lodge, who were due to take the evening of the 29th. In spite of the inclement weather a large number put in an appearance, and the business of the evening was carried through by C. T. Bro. H. Watson, in his usual efficient manner. Sisters S. and B. Lewis assisted by their clearance cards owing to their leaving this city for Calgary. By a vote of the lodge it was decided, in appreciation of the good work done by Sisters Lewis during their long connection with the lodge, that a letter be tendered with the cards expressing general regret at their departure and wishing them every success in their new home. The following programme, although short, was enjoyed by all: Songs, Bros. Fletcher and Watson; recitations, Bros. Cook and Cooper; reading, Bro. Watling. Refreshments were then served and a pleasant social brought to a close a most enjoyable evening.

R. S. Day has returned after a three or four months' tour of the Old Country. He spent some time in the south of Ireland, and also paid a somewhat lengthy visit to London. During his stay in the World's Metropolis he did not meet with the usual evidence of social gaiety. Most of those moving in the very select circles were out of town, enjoying the autumn at the country resorts. But under any circumstances, Mr. Day remarked with a smile, "London is lively enough." Most of Mr. Day's time while in the old land was pleasantly spent visiting friends, and he has come back to business with agreeable recollections of his vacation and thoroughly refreshed.

The case will come up in the police court to-morrow morning at 10 o'clock.

No news has yet been received from Provincial Constables Wikie and Munn, who went to Bear Lake to arrest the Indians accused of murdering a couple of half-breeds at Hazelton early in the summer. The provincial police, however, expect to have some news in a few days.

A special sitting of the Full court will probably be arranged for hearing the appeal of the city of Victoria against the Esquimalt Water Works Company. The regular session opens in Vancouver on November 4th, but it is thought that the expense of going to the Terminal City can be saved by arranging for hearing the arguments in Victoria.

TWO MEN BURNED TO DEATH AT CHILLIWACK

Were on Spree and Are Believed to Have Started Fire in Court House When Locked Up.

(Special to the Times.)

Vancouver, Oct. 29.—Two prisoners were roasted to death in flames of their own making in a fire which destroyed Chilliwack court house on Saturday night.

The two men who died were well known, being Daniel McKenzie, proprietor of the Dominion hotel, of Chilliwack, and K. C. Cousins.

They had been on a spree and were arrested by Constable Callick. They were searched and after placing them in the cell, the constable was unable to arrest two other men who were making a disturbance.

Two hours later, about nine o'clock, a passer-by noticed flames coming from the court house, but the building was locked securely and it was impossible to get help to the two men inside. The man, who heard the screams of the prisoners, ran down town and spread the news of the fire.

Within the past few days there have been a couple of adjoining minor claims located on the summit of the mountain two miles northwest of Bella Coola. They are the American Boy, recorded by B. A. Swins, and the St. Augustine by Charles L. Freise.

News has been received in the city of the death of O. Wilkinson at St. Annas on Thursday. The deceased formerly resided here. He was a native of Cornwall, Eng., and about 25 years of age. A few years ago he came to Victoria and has since that time made this place his headquarters. He was at Mount Sicker for a time. He was a surveyor and about two years ago assisted Mr. Devereux on the street survey of the city. Later he resided at Vancouver. The deceased was 20 years of age. His death was the result of being removed to Savanona in the hope of regaining his strength. After spending about two months there he improved very much and had made a decided gain in weight. His cough had left him also, and it was believed that he was going to recover from the incipient attack of consumption. An hemorrhage

When the brigade arrived it was too late, and the prisoners probably had already been suffocated.

Later, when the door was broken open, the blackened corpses of the men were found in the cell.

It is altogether probable that the prisoners started the fire themselves. They made a drunken boast that they would burn the court house down, and several people have come forward and declared they were asked for matches as they passed the building, but all say they refused to supply them. The arresting officer is certain they had none left and someone must have innocently supplied the matches.

People are unanimous in exonerating the policeman from blame, as he was acting in the performance of his duty. He is just as well and the municipality may be blamed for not providing two officials.

McKenzie leaves a wife and two daughters. Cousins was single.

Last Wednesday, however, resulted in his death the following day. Mr. Wilkinson has no relations in British Columbia. While a resident of Victoria he took an interest in amateur theatricals, in sport was prominent in social circles.

The policy holders are supreme in the Mutual Life of Canada.—This company being purely mutual no part of its funds goes into the pockets of owners. Every dollar accumulated from whatever source, is the sole property of its policy holders and is under the direct control of the board, elected by policy holders to manage the company and direct its affairs in the sole interests and for the sole benefit of policy holders, who alone own everything, control everything, and get everything. News has been received of the death on October 17th at Cape Scott of William, the adopted son of C. B. Christenson, teacher of the public school at that point. The deceased was 20 years of age. His death was the result of being removed to Savanona in the hope of regaining his strength. After spending about two months there he improved very much and had made a decided gain in weight. His cough had left him also, and it was believed that he was going to recover from the incipient attack of consumption. An hemorrhage

Treasures Found in Our American Forests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers of this and other countries. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them, and in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action.

The reason why "Golden Medical Discovery" cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood. Dr. Pierce's All-Healing Salve cleanses and pain relieving. It destroys the bad odors arising from purifying, or running, sores and puts them in the best possible condition for healing.

The All-Healing Salve is a superior dressing for all open, running, or suppurating, Sores or Ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils, carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scalded flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

Not less marvelous in the unparallelled cure it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus
