iffied it.

A mortgage has been described as an incentive to industry, a heavy mortgage, as a sure sign of ruin. The last is particularly true, for if a mortgage is allowed to run it will eat up the farm. In this connection Mr. Henry Fewler, of Huron writes: "From my beyhood scrofula had harked me for a victim and it seemed as if it had a life mortgage on my blood. I suffered fearfully with sores, and knowing my condition I have remained a single main. Doctor after doctor prescribed for me, and finally a Toronte specialist told me bluntly that my complaint was a deep-scated, incurable, blood disease. Sarsaparilla 1 knew was a good blood medicine, and I sent for a bottle of the best. Mr Todd, the druggist, sent me Scott's Sarsaparilla, and I have stuck to it. It has lifted my mortgage, for to-day I am free from those horrible sores, my eyesight is not blurred, my tongue is not turry, and I have no irritation. I look upon Scott's Sarsaparilla as a marvellous medicine when it will cure a life long disease in so short a time."

Scrofula, pimples, running sores, rheumatism and all diseases generated by poisonous humors in the blood are cured by Scott's Sarsaparilla. The kirid that cures. Sold only in concentrated form at 51 per bottle by your druggist. Dose from half to one teaspoonful.
