THE MISSIONARY MOVEMENT.

What was probably the most significant gathering in the history of the Protestant church in Canada was held last week in Toronto, when the first national congress of the Canadian servatives whose work has been in Laymen's Missionary Movement assembled in Massey Hall. This conference was attended by upwards of feat these aldermen simply because four thousand, delegates from all they are Conservatives, for their parts of the Dominion, and included forced retirement from the council men from every walk in life, from board would mean a distinct loss to the wealthy employer and eminent the city. professional, to the hard-working laborer and the industrious artisan. A member of the Savannah Cotton Exchange stated today that the plan, in the first place, is impracticable, that had the south wanted it, the plan of the Farmers' Union would long ago have secured support, instead of Mr. Sully's plan and that cotton factors see in it nothing to commend itself to them or to the planters.

INTRODUCING POLITICS.

There is an evident desire on the part of a few citizens to introduce 'LONGSHOREMEN DECIDE The star, and apparently that gentleman have borne fruit. It is easy to understand that the introduction of such a principle by exciting political feeling, will in a large measure overcome the existing indifference and will eventually lead to the entry of a stronger class of men and a more active participation in crvic at fairs. The benefits to be derived from such a move are clear to everyone, but in spite of this it is an unfortunate thing that st. John cannot be governed on civel lines. It is a regrettable additional of the steared of the steament page to the center of the star of the countil and the total county. It is a regrettable admission that taxpayers are more vitally interested in federal politics than they are in the welfare and progress of their own city. It is a sign of weakness that political partisanship mus be enlisted for the purpose of creating activity in those purely local affairs with which politics play no part.

For a number of years the Commo Council has been largely composed of n en of Conservative tendencies. Frequent criticism has been heard regarding the manner in which business has been conducted, but certainly this criticism has never been raised on the ground that Conservatives rule the sity. Although the aldermen disagree with each other at almost every meetng, and in spite of the fact that at irres an attitude has been adopted which to many voters seems injudicious, there has never been the slightest intimation that the aldermen are

prompted or influenced by their political prejudices. Certainly we need some awakening nfluence, but it is seriously to be doubted whether this awakening will be of value when purchased by the introduction of partisanship. There are in the council a number of strong Conevery sense satisfactory; it would be extremely unwise to endeavor to de-

The Kaiser himself attended it, and as Von Bohlen was known to possess much ability and was to be his wife's right hand in all her great undertakings it was expected he would become a notable figure in the German political and social world.

This is no begging movement on the part of mission boards; it is an undertaking arranged by the men with the pocket books arranged among themselves as the result of a truer appreciation of the real meaning of Christianity. The Toronto conference has given fresh impetus to the work,

NEW YORK, April 4.—General Wm. Booth, whose eightleth borthday is to be celebrated throughout the world next Saturday, has replied to the scores of congratulatory cablegrams already from state governments, mayors of leading American cities and other men of prominence with a message was given out at the American headquarters of the Salvation Army here today, and is as follows:

"After spending eighty years in this world with almost countless opportunities for observing the purpose for which men generally live, and the disappointments they so commonly suffer, it seems reasonable that I should have formed some opinion as to the course they ought to follow if they are to have any real success.

"So on this, my eightleth birthday. I teil the American people this: If they will seek the honor of God, the reign of righteousness, the welfare of the friendless poor and the riches that end and the same self-sacrificing avidity with which they

MONTREAL, April 4.—A daring robbery, in western style, was pulled off on St. Lawrence street on Saturday night while the thoroughfare was crowded. Armad with a revolver aman with a black beard smahed the window of Theodore Grothe's jewelry store and abstracted a tray containing diamonds valued at \$3,0000. Eye witnesses state that as he smashed the window and removed the tray he began firing his revolver and shouting at the top of his voice. Continuing to do so he ran across the street and up a side street, where an express wagon was in waiting for him, into which he jumped and drove off before the people in the vicinity had time to recover their wits. One man, John Bertrand, manager of a restaurant opposite, who was waiting for a car, was shot in the leg, and a woman was knocked down. The only identification the police have is that the robber wore a black beard, obviously false.
