WINTER HARD ON BABY.

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which racks his little system; his stomach and bowels get out of order and he becomes peevish and cross.

To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The ship left Liverpool on Monday and returned to that port yesterday bearing the body of the master, who had died during the voyage of heart failure.

Early in life he followed the sea until about ten years ago he settled with his family in St. John, where he undertook a boot and shoe business. This he conducted for some eight years, but the call of his old love, the sea, was too strong so he purchased the schooner Ronald and getting out his business again took up his seafaring life. ADELAIDE PHILLIPS

And an Old Time Negro Melody.

Early in 1840, a tiny English lass of seven years landed in America with her parents from Stratford-on-Avon, the historic birthplace of William Shakespeare. At the age of nine little Adelaide Phillips made her first appearance at the Tremont Theatre in Boston. Jenny Lind met her and advised her to go to London, and later she studied in Italy, where she won a great triumph as Arace in "Semiramide." Returning to America she was given an ovation accorded few singers and continued her tour on to Cuba. When the Boston Ideal Opera Company was formed in 1879 she appeared in "Pinafore" and the Sullivan opera, and added greatly to her fame as one of America's most popular and beloved contralto singers. It was a memory that can never be effaced to hear Adelaide Phillips sing the old popular songs as encore after encore was demanded. To hear her sing that plaintive melody of Foster's "Massa's in de Cold, Cold Ground," vibrated the heart chords and touched the hearts of hearers. This song is to be found on page 350 of "Heart Songs," a veritable library of the greatest songs in the world, and now offered to the readers of this paper for five coupons and the cost of distribution. See Coupon with terms elsewhere in today's issue.

How to Shed a Rough, Chapped or Blotchy Skin. This is what you should do to shed a bad complexion: Spread evenly over the face, covering every inch of it, this layer of ordinary mercerized wax. Let the wax stay on overnight, washing it off next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable, no matter how soiled or withered the complexion. The wax literally absorbs the flimsy surface skin, exposing the lovely, pure skin beneath. The process is entirely harmless, no little of the old skin coming off at a time. Mercerized wax is obtainable at any drug store; one ounce usually necessary. It's a very effective, gentle, rough, chapped, reddened, blotchy, rippled, freckled or sallown skin. Pure powdered saxaville is excellent for wrinkled skin. An ounce of it dissolves in a half-pint of water, makes a refreshing wash-lotion. This renders the skin quite firm and smooth. Indeed, if used first application erases the first wrinkles, and once more follow.
