The Waltham "Vanguard" model. Preferred by railroads. Priced from \$5.00 upwards. Many other Waltham models—ask your jeweler to show you.

Like any other good machine a Watch deserves some care

A WALTHAM Watch is a wonderful piece of mechanism. Everyone of its many tiny screws, plates, wheels, pinions, jewels and springs is fashioned with marvellous accuracy. This is accomplished very largely by the use of special automatic machinery developed by Waltham experts and used exclusively in the Waltham factories. And then there is the assembling of all the parts into the perfectly adjusted movement. These machines do their work with a precision and speed that no human hands could equal. The result is a piece of mechanism that measures time with unflinching accuracy. And this wonderful little machine deserves your care. To assure the maintenance of its quality have your Waltham overhauled, cleaned and oiled at least every second year by a competent watchmaker.

Picking A Man To Beat Harding

"Bryan might swallow McAdoo, but he won't swallow Cox or Edwards. Cox is both able and popular; he would probably poll a larger vote than McAdoo, who has aroused opposition among the business interests of the country. If there is a deadlock at San Francisco a 'dark horse' may be nominated. John W. Davis has been mentioned as a possibility. Senator Underwood, of Alabama, altho he comes from the 'Solid South,' would make an ideal president"—thus the Birmingham Age Herald presents a bird's-eye view of the situation at San Francisco. And these are not the only men who have a chance, according to the American press.

Should there be a strong provision in the platform endorsing the League of Nations, with or without reservations? Should the platform contain a "wet" or a "dry" plank? Should there be an appeal to the labor vote?

In THE LITERARY DIGEST for this week, June 26th, the Democratic platform and the various planks that it should contain, as proposed by Democratic editors, is discussed, as well as a summary of the chances for nomination of various men who have been put forward.
