Hanna Engineering Settlement.

Hanna Engineering Settlement. Scranton, Pa., Sept. 23. Operators here admit that Senator Hanna is the central figure in the negotiations for a settlement of the strike and, while they profess to be at sea as to the details they are con-fident that the knows beforehand what will be acceptable to the miners and that whatever conditions he has exacted or is exacting from the coal men in New York, will be nothing less than what will be fully satisfactory to the miners. This con-fidence is heightened by a generally credit-ed story that the defay in Issuing the strike order was to give President Mitchell time to interest Senator Hanna in the efforts affecting a settlement. Nothing would be given out by the local operators as to what transpired at the Wilkesbarre conference today, further than that they discussed the proposed settlement.
