his appointment to the relief expedition:

While I was following my duties at Madrid, I received a telegram to come to Paris on important business. I went and found Mr. James Gordon Bennett, the younger, of the New York Herald — (cheers)—I found him in bed; I knocked at his door. He said, "Come in," and then demanded my name.

"My name is Stanley."

I replied, "It passes all my com-prehension," (Laughter.)

He said, "Well, go. I believe he is alive, and you can find him." I said, "Mr. Bennett, have you the least idea how much that little journey will cost. (Laughter.) The Burton and Speke expedition cost between £2000 and £4000. Are you ready to incur that expense?" "Yes." "How is he?" that expense?" "Dead." "Oh, oh!" "And such a

Now ladies and gentlemen, I had never read any book on Central Africa, I thought Livingstone a myth. I knew books and newspapers had said much about him, and that all people gloried in him, yet I had a doubt about his being Before starting on my mission I had to give a description of the opening of the Suez Canal, and then I had to visit the temple of Solomon underground. One said he saw one at Ujiji, and he was very fat and fond of rice. [Laughter.] Another said a white man had been wounded when he was engaged in hunting. When I got o Unyanyembe, the great central depot where the fut man was. He said he lived at Ujiji somewhere, and was a great eater of butter. [Laughter] I thought that was good news. All my men descried me. I made my
way to the camp of the Arabs, and I said there is a war going on, and it is between the Arabs and the natives. I will find my own way to Livingstone.

One of them said, "h. great master, you must not do that I must write to the Sultan, and say that you are obstinnte, and that you are going to get killed."
"All right," said I; "there are jungles. If one way is closed, we can try another. If that way is closed we can try another, and so on. I want to go to Ujiji."

THE START INTO THE INTERIOR. So on the 23rd September last year I started, and went directly south until I came to the frontier of the adjoining country, and when I came to the corner I found there was another war there, in fact I was going straight into I had to go up north now, and came the salt pans of which Burton speaks.

In the course of his address, Mr. Stanley gave the following account of his appointment to the relief expedition:—

This man, David Livingstone, that I believed to be a myth, was in front of me a few yards. I confess to you that were it not for certain feelings of pride, I should have turned over a somersault. (Laughter.) But I was ineffably happy. I had found Livingstone; my work is ended. It is only a march home quick; carry the news to the first telescent.

Now it would never have done in the presence of the grave Arabs, who stood there stroking their beards, for two white men to kick up their heels. No; the Arabs must be attended to. They would carry the story that we were children fools. So we walked side by side into the verandah.
