

NOTICE • CAUTION

THE success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows' who has examined samples of several of these, **finds that no two of them are identical**, and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, **in the property of retaining the strychnine in solution**, and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "Syr. Hypophos. **Fellows.**"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles; the distinguishing marks which the bottles (and the wrappers surrounding them) bear can then be examined and the genuineness—or otherwise—of the contents thereby proved.

HYDROCYANATE OF IRON

TILDEN

IN ITS PHYSICAL and chemical properties somewhat analogous to the **ferrocyanide or prussiate of iron**; but in medicinal properties widely dissimilar.

HYDROCYANATE OF IRON—TILDEN

Exerts a specific, sedative effect on the cerebro-spinal nerve centres. It is the remedy of remedies for the radical

CURE OF EPILEPSY

And all Neuro-cerebral ailments; Chorea Hysteria, Vertigo, Neuralgia, Nervous Headaches and Neurasthenia, generally.

HYDROCYANATE OF IRON—TILDEN is put up in one-half and one grain tablets, at \$1.00 per ounce, post-paid if it cannot be procured of druggist. For literature send to the manufacturers.
