

# THE LEADERSHIP WE NEED FOR A BETTER TOMORROW

*"THE REASON WE HAVE BEEN SO SUCCESSFUL IN IMPROVING THE QUALITY OF LIFE IN THIS PROVINCE IS BECAUSE OF OUR POSITIVE VISION OF WHAT THE NEW BRUNSWICK OF TOMORROW SHOULD BE. YOUNG PEOPLE IN THIS PROVINCE ARE STILL DEPENDING ON THIS GOVERNMENT TO KEEP THAT VISION ALIVE, TO CONTINUE WORKING HARD TO PROVIDE THEM WITH A SOUND AND SECURE FUTURE, AND THAT'S WHAT THIS ELECTION IS REALLY ABOUT."*

**-RICHARD HATFIELD**

As a young New Brunswicker, you want to be able to look forward to a sound and secure future for yourself, your friends and your family. You want to be able to face the challenges which the future holds with confidence, but the only way you can do that is if you have confidence in the people who are responsible for deciding what that future, and what those challenges, will be. The people who will make those decisions are those who will form the next government, and that's why the decision you make as a young New Brunswicker on October 13 is so very important. You have to make the right choice.

Richard Hatfield and the Progressive Conservative Government have always held a positive vision of what the future should hold for this province and its people, a vision which has been good for New Brunswick. Through that vision we have seen seventeen years of good government, seventeen years of progress, and seventeen years of change for the better. We invite you to share that vision, to help ensure the New Brunswick of tomorrow is a better place.

What are we doing today to prepare for that future? This government believes that the young people coming out of high school, community colleges and universities over the next few years will bring with them the knowlege, the learning

skills, the energy, the vision and the critical minds which will keep New Brunswick ahead of the changes and challenges of the years ahead in every sector of our economy and every aspect of our social, cultural and community life. Enabling you to prepare yourselves for those challenges is one of the best investments we can make.

Providing more job opportunities for our young people in New Brunswick and a student aid program which provides effective access to a post-secondary education to all who can benefit from it are not only responsibilities of Government but key elements of our economic development strategy. Tomorrow has never looked better.

## SHARE THE VISION, ON OCTOBER 13, RE-ELECT THE HATFIELD GOVERNMENT..

PUBLISHED ON BEHALF OF THE PROGRESSIVE CONSERVATIVE PARTY OF NEW BRUNSWICK
