Ottawa, Ontario, March 31, 1913.

Sir,-

On March 10th the Department received a requisition for three slate blackboards for the French Bay on Saugeen Reserve, and on the 11th instant you were advised that these were ordered and were being sent to your address. On the 25th of the month a second requisition calling for two blackboards of the same size was received. I would like to have some explanation as to these requisitions following so closely.

Your obedient servant,

Assistant Deputy and Secret
