THE BRITISH MINISTER

Gerard Lowther Goes to Fez to Support French Policy.

Controverts German Official Press, Which Declared His Visit to Fez Was a Mere Trip to Present Credentials-His Interpretation of His Duty Under British-French Accord and Possible Results.

Paris, May 2.—The British Minister to Morocco, Gerard A. Lowther, in the course of an interview with The Temps correspondent at Tangler yesterday, made the first official declaration that the purpose of his visit to Fez is to support the French policy in Merocco. He said. "When I arst arrived at Tangler I sent my credentials to the Sultan before the autumn, but under the present conditions, I start for Fez in three weeks. I will embrace, also, the questions under that clause of the Franco-British accord, in which the two Governments mutually engage to lend their diplomatic support to the execution of that convention.

"My Government is all the more desirous to fuffil this duty since the French proposition submitted to the Sultan of Merocco strictly conforms to the spirit of the accord of April 8, threetening the interest of no third power, guaranteeing the security of Morocco, and providing for the gradual development of the country without sudden transition."

Mr. Lowther's statement controverts
the view of the German official press,
that he goes to Rez merely to present
his credentials.

It is surmised here that it is possible Nebogatoff may have slipped through the straits at Singapore in the dense mists which prevail and that he may be well on his way to join Rojestvansky.
