

AN. DECEMBER hath XXXI Days. 1794.

WINTER.

'TIS done—dread Winter spreads
its latest glooms,
And rears tremendous o'er the
conquer'd year:
How dead the vegetable king-
dom lies!
How dumb the tuneful! Horror
wide extends
His desolate domain. Ethold,
fond man—

See here thy pictur'd life— pass
some few years—
Thy flow'ry Spring—thy Summer's
ardent strength—
Thy sober Autumn fading into
age—
And pale, concluding Winter,
comes at last,
And shuts the scene.
