

TANKS FOR EVERY PURPOSE

Fig. 1 We are proud of our well-deserved reputation as makers of high-grade tanks for every purpose. May we quote on your requirements for sheet steel or galvanized tanks? They have taken the place of the leaky and unsanitary wooden tank.

ROUND GALVANIZED STOCK TANKS (Fig. 1). Added strength assured by beads instead of hoops. No place for dirt to accumulate. In a variety of sizes or to your order.

BARN TANKS OR CISTERNS (Fig. 2). Made from heavily imported galvanized steel. Absolutely water-tight. Thoroughly rivetted and soldered. Finished with heavy angle iron, greatly adding to strength.

Fig. 3

WAGON WATER TANKS (Fig. 3). Cover supported with angle steel. Fitted with man hole and outlet. Strong bulk heads.

MILK COOLING TANKS (Fig. 4). Cools milk rapidly and keeps it at proper temperature. Clean, sanitary and durable. A real convenience to the Dairyman.

GASOLINE TANKS (Fig. 5). For underground storage. A first-class tank that will not rust. Thoroughly rivetted and soldered.

We sell the best Self-Measuring Pump on the Market.

These are only a few of our many tanks. Let us know your requirements.

Amatite

The Roofing that Needs No Painting

WHEN your roof is covered with Amatite, there is an end to the roof painting nuisance. Amatite has a real mineral surface and needs no painting.

The mineral surface makes painting unnecessary and it will stand rain and hail and wind and snow, for years, without attention.

When you paint the old-fashioned roofings you are practically trying to keep them from getting wet. Amatite is made to get wet, for water won't hurt it a bit. Next time your old-fashioned roofs need painting, cover them with Amatite instead.

A sample of Amatite and booklet about it will be sent on request. Address nearest office.

G. H. Pedlar

Pedlar's Perfect Metal Products

Combine Quality, Durability, and Utility.

We have been pointing out, in the past few weeks, a number of the special features of PEDLAR PRODUCTS, and especially of the big "George" and "Oshawa" Shingles. How these shingles render your buildings proof against fire, wind, snow, and rain. How they will outlast the building and the builder.

But these are only two of many lines of interest and value to yourself. We make Corrugated Iron, Eavestrough, Conductor Pipe, Elbows, Fittings, Ornaments, and Metal Buildings in great variety.

We have just published a condensed catalogue with Prices Shown, that will help you to make a quick decision.

Your copy is waiting.

Why Not Cut Off the Two Cars of Filler?

It takes 400,000 cars to carry American Fertilizers to our farmers and planters every season. Forty per cent.—2 cars out of 5—of this stuff is Filler, which requires 160,000 cars! Order less filler, higher grade and

Nitrate of Soda

for your active Nitrogen and save freight bills.

The greater productive capacity of high-grade fertilizers without so much filler means a greater outbound tonnage for railroads and greater purchasing power for farmers, so that railroads and everybody would be benefited.
