

Memorial Stained Glass Windows.

Our Windows are known to contain those thorough qualities of Design, Finish and Permanence that are inseparable from good modern work. Added to this, the extreme richness of our English "Antique" Glass insures in our Windows a beauty and interest that cannot be excelled.

Windows from our Studios can be seen in Cathedrals, Churches and public edifices throughout Canada and the United States.

We are always glad to submit for inspection (without charge), special designs for Memorial Windows in contemplation.

Questions cheerfully answered.
