

Get out of the rut

Give your buildings the benefit of progress—same as you give the farm itself. Cover every building on the farm with Genasco Ready Roofing—the economical roofing that protects and lasts.

Genasco Ready Roofing

is made of Trinidad Lake asphalt—Nature's everlasting waterproofer. It prevents cracks, breaks, and leaks, and does away with damage and repairs. Easily applied without experienced help.

The Kant-leak Kleet does away entirely with cement and large-headed nails. Keeps seams absolutely watertight. Saves time in laying. Makes a beautiful finish. Ask for Genasco rolls with the Kleet packed in them.

Ask your dealer for Genasco. Mineral or smooth surface. Be sure you see the hemisphere trade mark. A written guarantee, if you want it. Gold medal (highest award) Seattle, 1909. Write for samples and the Good Roof Guide Book.

Sold everywhere in Canada and U. S. America. In boxes 25 cents.

The Range With A Reputation

You don't want to buy a range every day, or every year, but when you do, the Great Majestic Range is worthy of your most careful consideration. It is a range with a reputation, built on honor of the best materials, and while the first cost may be more than some others, it outwears three ordinary ranges; this, and its fuel saving, baking and water heating qualities make it the cheapest in the end.

The Majestic is the only range made entirely of malleable iron and charcoal iron. Charcoal iron won't rust like Steel—Malleable iron can't break. Majestic Ranges have absolutely air tight joints like an engine boiler, because they are put together with rivets, and they stay air tight, because neither heat or cold can open them.

The Majestic is lined with pure asbestos board, 1/4 inch thick, covered with an iron grate and it's put there to stay—you can see it. This assures a steady, even, perfect baking heat and saves fully one-half your fuel.

A Perfect Baker **The Great and Grand MAJESTIC Malleable and Charcoal Iron RANGE** **A Fuel Saver**

The reservoir is all copper and heats like a tea kettle through a copper pocket, stamped from one piece of copper, setting against left hand lining of fire box. It boils 15 gallons of water in a very few minutes and by turning a lever the frame—and reservoir—move away from the fire. This feature is patented and is used only in the Majestic.

All doors drop down and form perfect and rigid shelves. Malleable iron oven racks slide out automatically, holding anything they contain. The open end ash pan does away with the shoveling of ashes out of ash pit. The ventilated ash pit prevents the floor from catching on fire and the ash cup catches the ashes that would otherwise fall to the floor.

No springs anywhere to weaken, or get out of order. It is the best range at any price—a range with a reputation and it should be in your kitchen. It is for sale by the best dealers in nearly every county in forty states. If you don't know who sells them in your vicinity, write us and we will send you our book, Range Comparison. Everyone who is thinking of buying a new range should first read this booklet.
