The Measuring Stick

The more classified advertising a paper carries the better your chances of getting the results you are after from a classified ad. in that paper. Apply "the measuring stick" to the classified columns of the various papers circulating in your neighborhood. "Go with the crowd" is a safe "rule" to follow in selecting a medium for your classified advertising.

Last winter and spring, during the months when most farmers do the bulk of their advertising, The Guide established a big lead over other farm papers in Western Canada in regard to the amount of classified advertising it carried. That this was no temporary "spurt," and that The Guide's position as the best medium for classified advertising among Western Canada farm papers is definitely established, is clearly shown by the fact that the lead has been well maintained during the summer months of June, July and August. Here are the figures for these three months:—

Table with 5 columns: Livestock, Poultry, Seed Grain, Miscellaneous, Total. Rows: The Grain Growers Guide, Nearest Competitor, Second Nearest Competitor.
