

The Majority Election.

It is felt that the city has done itself credit by the election yesterday for Ald. Smith and Aldermen. We supported Smith from the conviction that he would make the able, more progressive, and more independent of the two candidates offering, and that he was in touch with the best spirit of the city. We are glad that the electors have taken this view, and believe they will have no cause to regret the confidence they have placed in Ald. Smith. We have great reason to be proud of a heavy vote recorded for him.

Ald. Lamprey, too, is held in no less estimation in the city which has on his home so long, judging from a large vote given him. Such a vote is a fine tribute to any man. We do not see our duty to refer to his public career in a way which he may consider to have borne hardly on him, but we tried to confine ourselves to the main reasons for not supporting him. We had nothing to urge against Ald. Lamprey's career as a citizen, and believe that he will still be found doing his duty in that capacity in the future as in the past.

We have a good council, too. The presence of Messrs. Sprague, Ryan, Dr. Kennedy, Shultz and Carter, from among the business men, with some of the best members of the old Council, and old and experienced municipal men like ex-Ald. Maddock, Kennedy, Hartnett, Laughlin and Kelly, should give us one of the best Councils we have ever had. We regret the defeat of Ald. Barber, who has given much time to the Waterworks during the past years, and also the defeat of Ald. Fischer. Both he and Ald. Moffatt may come to the front again.

On the whole, we congratulate the city on the result. A lesson has been taught to some aldermen, which will show them and the others that the citizens will not stand any unfair dealing, and that they have little taste for cliques and combinations. A marked improvement on the whole, we consider, has been made in the Council by the people.

After the late Engineer had been killed by a majority of Council, the funeral obsequies were performed in due course and with proper decorum in the Herald, and the unfortunate man was buried in a back lot of the cemetery, recently staked out, there to rest in peace. But from the depressed appearance of some men this morning it looks as if they had either been wrestling with a ghost, or that the Engineer was not buried deep enough, and had become a remarkably lively corpse. Of the ten men who voted for his dismissal Ald. Hamilton, the mover of the resolution, Ald. Moffatt, the seceder, and Ald. Lamprey, Taylor and either Coffee or Hough are defeated, Ald. Slater retires, while Ald. Klopfer and Sully drop from first to third place in their wards, and Ald. Coffee or Hough is ousted from second place in St. Patrick's. Ald. D. Little is the only one who comes through unscathed, and that for other reasons. The next time ten aldermen and the Herald undertake to bury a man they want to appoint a guard to sit on his grave night and day. After the work of yesterday, there is not a man in the city who would entrust them with a one horse job in the burial line.

We have no wish to unduly crow over a routed foe, but it is the opinion of a good many that the Herald's editorials of 1877, 1891, and other years were more effective and in far better taste than those of the year of grace 1892. There was more of a sincere and kindly tone about them, and no doubt they were read with more pleasure than those of last month.

The Sugar and Molasses Tariff.

Ottawa, Jan. 1.—The Canada Gazette of yesterday contains a proclamation by virtue of the provisions of the customs act abolishing the distinction in the tariff between importations of sugar and molasses direct from the country of production and importations introduced by transshipment; also repeals the specific duty of 2½ cents a gallon on molasses and syrups, in addition to the ordinary duty of 1½ cents a gallon and the 5 per cent. ad valorem extra duty on sugar when not imported direct without transshipment. The effect of this is to relieve importations of sugar under 14 Dutch standard, and of molasses and syrups made through the United States of the discriminatory duty hitherto imposed on that route. This has been done to mollify President Harrison and his administration, with a view of preventing the threatened retaliation.

Ex-Premier Abbott's Health.

London, Jan. 2.—(Globe's special).—Recent reports show that ex-Premier Abbott's health is far from good. He is now in Italy, journeying south by easy stages. He has made no gain in strength since his arrival in Europe; on the contrary, if anything, he is weaker. He still hopes, however, to benefit materially by further rest in the south.

To Cut Off the Bonding Privilege.

New York, Jan. 1.—A special from Washington says it is said, on trustworthy authority, that President Harrison, the Secretary of the Treasury, and the Secretary of State have practically determined to make the outgoing of the Harrison Administration notable by a blow at Canada, much more vital than the recent order imposing tolls on Canadian vessels running through the St. Lawrence. It is said that the President has decided to cut off the privilege of bonding through the United States free of duty, under a system very advantageous to the foreign roads at the expense of the American companies. An Attorney of the Canadian Pacific is spending the winter here. He is of the opinion that the threat will be executed, and that the president will move more than to need a special message on the subject. There is a possibility that Congress will take the subject before the incoming administration.

ONE BARREL A MINUTE.

An Ingenious Machine Which has been Invented by a Canadian.

The Hamilton Spectator says:—W. T. Vale, a Toronto man, (formerly of Guelph) has recently perfected a machine for the manufacture of barrels, which is a marvel of ingenuity. Slaves are fed into the machine, and it shapes them into barrels in as workmanlike a style as could be done by an expert cooper, except that the ends and hoops are left to be put on by hand. The capacity of the machine is one barrel a minute.

The invention has been patented in eleven countries, and a factory for the manufacture of the machines has been started in Newark, N. J. A factory for the manufacture of barrels under the new process will probably be started in Hamilton shortly. Dr. Blackley is pushing the project, and several men of means are associated with him. Temporary quarters have been procured in the old Alford factory on Merrick street, where one of the machines has been set up. On Tuesday it will begin active operations.

WILLIAM'S Royal Crown Remedy—greatest cure on earth. Guaranteed to cure general nervous debility, rheumatism, neuralgia, paralysis, etc.

Outrages in Ireland.

Dublin, Jan. 2.—Another outrage by moonlighters is reported from Tullah, a small town in County Clare. On Saturday night a gang of moonlighters, who had a grudge against a man employed as a servant by the family of the late Judge Brown, visited the residence of the Brownes, which is situated a short distance from the town. Not finding him in the house they were enraged, and one of them drew a revolver and fired upon one of the girls. Fortunately his aim was bad and the bullet wide of the mark. He then amused himself by firing at random about the room until his weapons were empty, when the moonlighters withdrew without making any further trouble. A party of Farnellites at Kilsrush, who were celebrating the New Year last night determined to wreak vengeance on the anti-Farnellites. They marched in a body to the rooms occupied by the Workmen's Club and made an attack with stones upon the building, smashing all the windows and doing other damage. In a short time the moonlighters had made a state of wreck of the Workmen's Club. The police were absent and the mob attacked the residences of the town councilmen, who are supporters of the Farnellites. Considerable damage was done. Towards morning the mob dispersed, leaving a number of the rioters were arrested.

Fire at Goderich.

Goderich, Jan. 2.—The Western Hotel, Edward Swartz, proprietor, was completely destroyed by fire this morning at an early hour; the building was a large frame structure and burned like tinder. Nothing was saved, the inmates losing all their effects. The large stables adjoining the hotel were also consumed with entire loss, two valuable horses were burned. The hotel was covered by insurance; \$1,000 in the Royal, \$500 in the Western, and also in the North British. Cause of fire unknown.

Wonderful Events.

From London Free Press and Advertiser. Certain wonderful events that occur from week to week, are recorded in our daily press, and create much surprise and call for comment amongst all classes of society. The weak, nervous, and brought down grand and worthy deeds; they feel that in some degree men and women are made better, and that notwithstanding the fact that the world is evil, there is still something worth living and working for. Certain newspapers have informed us of great and mighty cures, which to one class in particular these recorded events are a blessing, and brought comfort and cheer to many dependent hearts. Week after week we have had proof of men and women, old and young, who were saved from the dark tomb through the power of a remedy that no one paper in Canada had the generosity to mention the name, save the London Free Press and Advertiser, simply because they were not paid for advertising this remedy. This shows a most wonderful pecuniary principle on the part of an otherwise generous press. The principle of the London Free Press is to do good, to state of affairs and to give fair publicity to all worthy preparations. It therefore is a pleasure for us to give the honorable name of this wonderful medicine known as the Royal Crown Remedy. It seems to be able to take hold of the worst cases—those for whom physicians held out no hope, who were pronounced beyond all earthly help. The weak, nervous, sleepless, despondent, morose, dyspeptic and rheumatic are given new life, and anxious parents and relatives are filled with joy. All this has been accomplished by William's Royal Crown Remedy. Sales last year alone amounting to thousands of dollars, and it was never known to be advertised in any paper in this country. This unparalleled record gives it first place in point of sales, and proves it to be the greatest medicine the world of science has yet produced. The proprietors being human benefactors and desirous that all the world may be benefited, have remodelled the package, enlarged the bottles, and decided to place it in every drug store throughout the civilized world, and truly merit and not only work benefit as a nation, and future generations will bless the name of the great discoverer of the grandest remedy ever given to suffering humanity.

The Children's Enemy.

Scrofula often shows itself in early life and is characterized by swelling, abscesses, hip disease, etc. Consumption and scrofula of the lungs. In this class of disease Scott's Emulsion is unquestionably the most reliable medicine.

Manitoba's Progress.

Winnipeg, Jan. 1.—The Manitoba Immigration agent reports officially that more than 20,000 settlers took up land in Manitoba during the year just closed. This is entirely exclusive of the Northwest Territories, which received a very large number more. The C. P. R. has just issued a statement of its land sales to actual settlers during the past year. At this point 890,000 acres was the total, and the amount realized being \$1,900,000. Sales for 1891 were but 90,000 acres.

Mr. J. G. Anderson

Of Scotland, Pa., a veteran of the 11th Penn. Vols., says, as a result of war service he suffered every minute

From liver and kidney troubles, catarrh in the head, rheumatism and distress in his stomach. Everything he ate seemed like lead. Sleep was restless, and in the morning he seemed more tired than when he went to bed. He says:

Hood's Sarsaparilla

and Hood's Pills did me more good than any other medicine I ever used. All my disagreeable

Suit Against the Archbishop's Ban.

THE CANADA REVUE WANTS THE CENSURE REVOKED.

Montreal, Jan. 1.—An unusual and an extraordinary event for French Canada took place last evening at the archbishop's palace. Just as the cardinal clock was striking 5 a well-known notary, Mr. O. Martin, walked up the palace steps, was ushered in, and asked to see the archbishop. Mr. Martin came down to the parlor and in less than five minutes he described the scene, the much talked of notarial protest by the proprietors of the Canada Revue was served upon the ecclesiastical head of the archdiocese. The document, which is of considerable length, is the first of the kind ever served upon a Roman Catholic prelate in this province. The protest sets forth the object of the Canada Revue, and that anything against religion or the teachings of the church had ever been published in its columns, and asks that the ecclesiastical censure be revoked, or at least that the proprietors of the condemned journal be made aware of the alleged objectionable articles that had been displeasing to his grace. The protest goes on to say that the archbishop will be given 15 days to consider the matter, and if nothing is done at the end of that time an action in the civil courts will follow.

Dr. McGlynn and Anti-Poverty.

New York, Jan. 1.—Dr. McGlynn spoke at the Anti-Poverty Society meeting at Cooper Union tonight, and reaffirmed his belief in the doctrines of the society, the preaching of which led to his excommunication. He spoke with all of his old time force, and set at rest all talk of his having retrograded and apologized before he was restored to his ministry. It is said Rev. Dr. McGlynn will be offered the chair of sacred cantory in the Catholic University at Washington.

Evangelist Schirreza Meets his Uncle.

Boston, Mass., Dec. 15.—Evangelist Schirreza had just finished an address to the business men of Boston in Faneuil Hall this noon when a wild-eyed, bare-headed man rushed down the centre aisle, jumped on the stage and fell on the speaker's neck. "My God, my God, is that you?" he exclaimed, "Oh, what a change! The stranger sobbed, and as the tears flooded his eyes he said: "I, too, will take the same Jesus who saved you. I know he is the true Son of God to work such a miracle." The stranger was Schirreza's uncle. The Evangelist used to be a variety actor and his uncle thought he had gone to the bad. Both uncle and nephew fell upon their knees and thanked God.

Mrs. Maybrick's Pretended Illness

London, Dec. 31.—The Exchange Telegraph Company says Mrs. Maybrick is recovering and desires that the humbug with which she was recently attacked and which caused the reports that she was in a dying condition, were caused by herself and not by the ravages of consumption. According to some of the newspapers, the reported illness of Mrs. Maybrick was nothing less than an attempt on her part to recover and to induce Mr. Agnith, the Home Secretary, to release her from confinement. The St. James' Gazette says Mrs. Maybrick's illness was caused by her swallowing needles. The needles produced an affluence of blood and other symptoms of lung disease.

Is it True that Wine Drinking Prolongs Life?

A great deal has been said of late about the effects of drinking upon the constitution, and the consensus of opinion seems to be that the effects for good or evil depends to a great extent upon the quantity of the goods we drink. It is therefore of the utmost importance that you should be purchased at the Guelph Wine Vaults as Watson Bros. handle nothing but pure goods at the most reasonable prices.
