The farmer's Corner. Short Horn Cattle.

horn Breeders' Association was lately held at Lexington Kv. In the opening address Judge Crane spoke on pedigree, reported as follows:-"He asked, are we not blind enough in some cases to follow pedigree with- HAT STORE, 57 KING STREET out giving individuality the attention it deserves? He did not want to be construed as an enemy to pedigree, as he was a warm advocate of it—no reliability in breeding can be had without it. A good animal with a pedigree tracing to a long line of ancestry of good animals, was a guarTHE Subscriber having purchased the Commodious Business Premises known antee that to breed from this animal will produce good ones. He argued that a standard of excellence or a statement of the individuality should and latterly as the "ARGYLE HOUSE," be recorded with the pedigree, as to know that all of the ancestors of the animal were good ones, added materially to the breeding value of an animal. He warmly denounced the modern idea of obliterating the milking qualities of the Short-horns, a quality that in former years was highly esteemed, and should be preserved. He said that the Short-hords could never strongly commend themselves without a well developed milking quality, as the general farmer naturally looks upon a cow that gives little the or no milk with distrust and suspi-

The fact that the prices of shortate, excited considerable comment.

The aim seem d to predominate for an Attorney for immediate collection. late, excited considerable comment. a few years past," said a member. to speculate, and to run down this or that pedigree, with many public sales, which have resulted in the decline of prices." Another member spoke of "the humbug of fancy pedigrees that had bursted." Another said; "The nigh prices of short-horns have received their quietus, in conhave received their quietus, in consequence of their lack of merit: that the day was past when animals with fancy pedigrees, but no real merit.

BY an admirable arrangement of nature, the whole body, each part in its turn, recuperates new material to make up for its own waste. This principl: accounts for the fancy pedigrees, but no real merit, fact that would sell for from \$500 to \$5,000. He contended, however, that "thousands of farmers and ligitimate stock men still believed in and had faith in the short-born as the great beef-producing cattle of the world, and also that they believed the time of depression below their real value was only temporary, and that they would soon be more popular then ever, but all hoped that the time of severe discrimination and unreasonable fanc prices was obliterated lorever."

To keen Harness in order.

Take Neats Foot Oil and Ivory Black-the latter well pulverized, or to be made so before using. Mix thoroughly-adding the black until the oil is well colored, or quite black. In cool weather the oil should be warmed somewhat before nixing. With a sponge apply a light coat of the mixture—only what the leather will readily absorb unless the harness is very dry-in which case a heavier coat may be necessary. After the BUILDERS, and all persons in want of harness is dry-which will be in from two hours to a half or a whole day, depending upon the weather and previous condition of the leather—wash thoroughly with soap suds In making the suds use good castile soap 1st, 2nd and 3rd quality Pine, Spruce an and cold rain-water. (Warm water should never be used on harness leather.) Apply the suds with a sponge. Rub off with a buckskin. This will give your harness a nice glossy surface, and the leather will retain a good color and continue pliable for months, If it becomes soiled with mud or sweat, an application of soap and water, as above directed, [without oiling], will be sufficient to give it a bright appearance. Two applications of this oil and black mixture a year [or once every six months] will be sufficient to keep harness, as ordinarily used, in good

To Relieve Choked Cattle.

"I used to be a Cheshire [England] dairyman, and had a stock of nearly one hundred cattle. Growing many acres of turnips, choking of the cows was very frequent, and the simple remedy was a stick of hard. wood about a a foot long and an inch and a half square, put it in the mouth as a bridle bit-a string from each end tied to each horn to keep in place.

Placing the stick instantly releases the imprisoned foul air from the distended stomach, and prevents more

ON SATURDAY the Twentieth day of APRIL next, will be offered for sale by PUBLIC AUCTION, at 12 o'clock, noon, in front of the Registry Office, in the Town of Bathurst, THAT ELIGIBLE swelling. Whatever root sticks in FARM OF LAND, the throat will in time soften and go situate at Youghal, in the Parish of Bathurst down, and no bad effect can follow unless force is used. Until this summer I had never seen a case of bloating from eating grass or clover. In June my next neighbor had a case that the summer I had never seen a case of bloating from eating grass or clover. In June my next neighbor had a case that the summer I had never seen the summer land barn thereon, and is distant only about three miles from the Bathurst Basin Bridge. and asked my assistance. I placed Sale Positive-Terms made known at Sale. the stick and she was relieved in a few minutes. The same day my Bathurst, 20th March, 1878.

cows [through a board being down in my neighbor's fence] got into clover &c., before I knew it one died. Numbers were looking on while she was struggling and dying, but knew bor had a similar case, and effected CCUNTRY, I will clear out my a cure by the means described."

TO THE

FARMERS OF MIRAMICHI. We have been Manufacturing IRON FRAME MOWERS

For the last four years, and are now offering to the farming community this, the BEST MOWER. Combining a greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.—In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American machines. Of the former there are over 200,000 in use, and the extraordinary number of -20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the great and unprecedented success of home manufacture and our enterprise. A fist of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming Harvest of 1877 we will manufacture LARGELY in excess of our numbers of last Season, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.

Let it be remembered we have no hesitation at all times, in entering in a friendly POSTAL CARDS.

mensurate with its merits.

Let it be remembered we have no hesitation at all times, in entering in a friendly competition in the field with any other machine in our market. WE GUARANTEE OUR MOWERS TO BE INFERIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing elsewhere. AGENTS:
