RISING TOO EARLY.

work .- New York Times.

Do you have pains about the chest and sides, and sometimes in the back? Do you feel dull and sleepy! Does your mouth have a bad taste, especially in the morning! Is your appetite poor! Is there a feeding like a heavy load upon the stomach! Sometimes a faint, all-gone sensation at the pit of the stomach, which food does not satisfy? Are your eyes sunken! Do your hands and feet become cold and clammy! Is there a giddiness, a sort of whirling sensation in the head when rising up suddenly? Are the whites of your eyes tinged with yellow! Is your urine scanty and high colored? Does it deposit a sediment after standing!

If you suffer from any of these symptons USE SMITH'S CHAMOMILE PILLS.
