THE BRITISH-CANADIAN

OIL AND GAS

COMPANY LIMITED

(Drilling just south of the Dome.)

The British-Canadian Oil & Gas Company Limited start drilling this week eight miles south of Cochrane, on the Nichol's ranch.

The well has reached a depth of 600 feet, and a new contract has been let to William Maybin to drill the well an additional 3,000 feet. A new heavy standard duty rig has been installed, and new rig irons, cables etc., have been purchased and are installed, and drilling will commence this week.

Mr. William Maybin is the contractor; Driller Simmons is in charge. Mr. Simmons has spent many years at drilling oil wells, and drilled in California and Ohio.

COMPANY TO BE FORMED

TO DRILL IN CALGARY

AND NEARBY COUNTRY

A couple of men who a few years ago made some money in the real estate business here are to be joined by a number of American capitalists, and a company will be formed to drill a number of new wells in Alberta. The syndicate, when it is formed, may also drill for oil right here in Calgary.

This was the news given to The Standard during the past week by a local man, who is to be one of the number. He claims that all kinds of money will be behind the enterprise, but asks The Standard for the present not to make public the names of those interested in the company, or where they will drill for oil. For obvious reasons, the parties behind the proposition do not wish these details to get out for the present.

The company will be a closed one and will probably work under a Dominion charter. No stock will be placed on the market, and the company will go ahead and make an honest effort to get oil.

It is understood that somewhere in the vicinity of \$250,000 will be put up for a start and that more will be forthcoming as soon as encouraging results are obtained.

OIL STOCKS GO UP

Following the strike of flowing oil stocks in several of the companies showed an upward tendency during the week, and the oil situation is more encouraging than for some days.

SYNOPSIS OF CANADIAN NORTHWEST

LAND REGULATIONS

A single head of a family, or any male

over 18 years old, may homestead a

quarter-section of available Dominion

in Manitoba, Saskatchewan or Alberta.

The homesteader must appear in person at the Do-

minion Lands Agency or Sub-Agency for the

purpose. Entry by proxy may be made at

the Dominion Lands Agency (but not Sub-

Agency), on certain conditions.

Duties—Six months residence upon and cul-

tivation of the land in each of three years. A

homesteader may live within nine miles of his

homestead on a farm of at least 80 acres, on

certain conditions. A habitable house is re-

quired except where residence is performed in

the vicinity.

In certain districts a homesteader in good

standing may pre-empt a quarter-section

alongside his homestead. Price \$2.00 per

acre.

Duties Six months residence in each of

three years after earning homestead patent;

also 30 acres extra cultivation. Pre-emption

patent may be obtained as soon as home-

stead patent, on certain conditions.

A settler who has exhausted his homestead

right may take a purchased homestead in

certain districts. Price \$3.00 per acre. Du-

ties—Must reside six months in each of three

years, cultivate 30 acres and erect a house

worth \$500.

The area of cultivation is subject to re-

duction in case of rough, scrubby or stony

land. Live stock may be substituted for cul-

tivation under certain conditions.

OIL INQUIRIES

In this column each week we shall endeavor to answer all inquiries regarding oil companies, their operations, readers must bear in mind that these quotations vary according to the number of shares on the stock certificate. The Standard will refrain from any personal comments regarding the reliability of the companies engaged in the sale of stock, as readers must judge for themselves. The quotations we make are up to Thursday night.

C. T. Saskatoon.—The stocks you mention are not active on the exchange at the present time.

G. P. Beaumont.—Alberta was handled by Costello and Ryan during the oil boom. It is an Edmonton company, not active on the exchanges at present. A representative of The Standard has called at the office of the agents here many times and found the office locked. Better write them yourself.

J. C. Banff.—The companies you ask about are going ahead all right. You will find the quotations regarding them in another column.

Fred J. Payne.—(1) You will have to hold for some time yet; (2) It has certainly been shown that there is oil in Alberta. Several wells have been proved up and in a much shorter time than was the case in the southern States. Just sit tight and don't get nervous.

Miss G.—The Southern Alberta looks good at present. It is around \$3.40.

CALGARY PETROLEUM PRODUCTS

The capital stock of the Calgary Petroleum Products Limited has recently been increased from \$150,000 to \$1,500,000, and divided into 1,500,000 shares of one dollar each; 100,000 are now being offered for subscription at par, and it is these that are now selling on the stock market at from 26c to 30c, and not the \$10 shares, as was stated by some local oil men last week.

In the prospectus dealing with this change, the company says that the work of the Calgary Petroleum Products Company, Limited, having been carried to the initial stage of the actual production of oil and gas, the successors to that company, the Calgary Petroleum Products, Limited, are making this issue of stock which is being offered for subscription so that the proceeds may go towards placing the properties on a profit-bearing basis as quickly as possible. To accomplish this required more capital than was available, and it was thought better to increase the stock rather than place a liability on the assets of the stockholders. It was also deemed advisable to have a Dominion charter.

The prospectus also says: "By agreement of the date of December 1, 1914, made between the Calgary Petroleum Products company, Limited, and the Calgary Petroleum Products, Limited, the Calgary Petroleum Products company, Limited, conveyed to the Calgary Petroleum Products, Limited, all its lands, leases, oil and gas wells, and all other assets and liabilities as a going concern, receiving in full consideration thereof 750,000 shares of the Calgary Petroleum Products, Limited, fully paid up, the same being one-half of the capital stock of the Calgary Petroleum Products, Limited."

"One-half of the capital stock of the company, 750,000 shares of the par value of \$1.00 each, is placed in the treasury and made treasury stock, and from this will be issued and sold, from time to time, such amounts as may be required for the further development of the company's holdings, the purchase of other properties and the necessary equipment to care for, manufacture, transport and merchandise the company's product."

"In making the first issue of treasury stock to the amount of 100,000 shares at the par value of \$1.00 per share, attention is called to the fact that, in the formation of the original Calgary Petroleum Products syndicate no share or interest therein was issued except for cash at par and upon the formation of the Calgary Petroleum Products, company, Limited, which took over the syndicate, shares were issued to the members of the syndicate to the par value of the actual cash paid by the members of the syndicate. No promotion stock was issued or promised to be issued, with the exception of 1,000 shares issued to W. S. Herron in part payment of lands purchased from Herron under the terms of his agreement with the syndicate, dated the 16th day of July, 1912."

"No commission was paid to any person on the monies invested in the syndicate or in the Calgary Petroleum Products company, Limited, and every dollar invested has been carefully expended in the purchase of the company's lands, departmental royalties for leases, the operating requirements and appurtenances for the development work to date."
