Mussulmans. At the present day, on the best authorities, there are 250,000,000 Mussulmans in the world. The Christian population is put at 447,000,000, but the increase of Islam is more rapid than that

of its sister religion. Tortoise Shell. Tortoise shell, however old, can be kept bright by polishing it occasionally with rouge powder.

Strawberry Sago. Strawberry sago is made by soaking half a cup of sago in a cup of cold water for an hour, adding a pint of strawberry juice and half a cup of sugar and cooking until the sago is transparent. Serve cold.

A Denby Dale Pie. Inhabitants of Denby Dale, near Barnsley, England, have had the habit for 100 years past of baking enormous pies to celebrate great events. On one occasion a Denby Dale pie contained half a sheep, twenty fowls and half a peck of flour.

A Great Camellia. At Plinitz, near Dresden, is the largest camellia in Europe. It is 160 years old, about fifty feet high and has 40.000 blossoms each season.

The Ant Bear. The great ant bear of the South 'American forests contrives to intimidate his feline enemies by rearing up to his full length, but by that very trick gives the hunter a chance to take a deadly aim at his heart.

Nails and Hard Wood. It is claimed that you can drive nails into hard wood without bending them if you dip them first in lard.

China's Population. It is stated that the Chinese population of today numbers about 426,000.-000 of souls, including 8,500,000 in Manchuria, 2.580,000 in Mongolia, 6,430,000 in Tibet and 1,200,000 in Chinese Turkestan

Is Not Startling. There is an interesting article in Mr. Amos Jones of Campbellton spent a few days in Nouvelle West Mr. R. B. Marston, on the Royal Family as anglers. The King, seems, is not a very keen fisherma not half so keen as his brother, the late Duke of Edinburgh, or his son, the Prince of Wales, but it is quite a mistake to suppose his Majesty has never taken any interest in fishing. lands, and when as Prince of Wales he rented Abergeldie on the Dee he used to fish for salmon now and then, though as old Donald Morgan says his Majesty was "not awful enthusiastic." Lord Knollys, however, re cently informed Mr. Marston that the King on one occasion caught a 21 lb. salmon on the Floors Castle water on the Tweed. As regards the Queen, we have long known that she is a keen disciple of Izaak Walton, as is also Princess Victoria, and they often fish together when in the "Alexandra" fly, named after her, that its use is prohibited on many waters. The Prince of Wales is perhaps the Reenest and best angler our Royal Family has produced and will spend long days on Decside enjoying the sport. Then the Princess Louise, Duchess of Argyll, and the Duchess of Fife are devoted to ight with Miss Quinn.

Mr. John Boudreau of Oak Bay Louise had grand sport with the salmon. The Duchess of Fife has had many good days' sport on the Dce, near Mar Lodge, and spends much of her time with her children in the en joyment of her favorite sport while the Duke is deerstalking. Prince Edward and Prince Albert, sons of the Prince of Wales are both keen on ly, even little Princess Mary was of snakes. successful in landing one. Last month the young Princes tried their hands at the trout in a Norfolk stream, and Prince Albert (aged 6) got a brace, and Prince Edward (aged 7) half a brace, with the fly,
